PART 4: SITE INFORMATION

1. General description

The works will be done in Transmission's Central Grid Olympus Substation which is located in Vanderbijlpark, Gauteng Province in South Africa. All persons requiring access to site shall notify the Project Manager two (2) weeks before such access is required. The applicant shall provide proof of identification to the Project Manager with the site access application. A permit shall be issued and all contractors/visitors are required to visibly retain the permit at all times. All contractors must attend safety and induction training as well as undergo a medical assessment at Acelor Mittal before gaining access and commencing with any of the works. The training will be provided by the Employers Safety and Security officers before commencement of any work on site.

Olympus Substation

Olympus Substation is located at this site coordinates -26.666721603373354, 27.806111597011615.

The contractor is to inspect the site in order to ascertain the conditions and extent of his risk.

Olympus substation is situated within ArcelorMittal Vanderbijlpark Works yard in the Gauteng Central Grid region

2. Existing buildings, structures, and plant & machinery on the Site

The works will be done within the High Voltage Yard or Transmission Substation as indicated in the scope of work. It is important to know that High Voltage Yards have live equipment and contractors have to adhere to High Voltage Regulations.

3. Subsoil information

The general soil condition is stable as most of the work is done within the existing high voltage yards.

4. Hidden services

Before any work is commenced, it will be the responsibility of the contractor to ascertain from the "Engineering assistant" the position of any existing services on site. Once these are indicated to the contractor they shall be deemed as "known". Any cost incurred for the repairs to any "known" services. Any costs incurred for the repairs to any "known" services shall be for the contractors account.

5. Other reports and publicly available information

Not applicable
