Item	Description	Unit									
8.8.4	Backfilling of excavations for patching with:										
C8.8.4.4 C8.8.4.5	Other materials (specify type).....	ton (t)									

PART 2: QUESTIONS AND RELATED ANSWERS

Question 1: Please provide us with the thickness for Item C9.1.5.1(h), and the mix type.

Answer 1: The rate should be considered an extra over payment item C9.1.5.1 (e) for the usage of RA, including for the acquiring, processing, blending, etc. of the RA into the mix. Thus, the mix type applicable is that of payment item C9.1.5.1 (e) – Mix Type 2, 50mm thickness.

Question 2: Please provide us with the specification for Item PC8.8.4.5(d).

Answer 2: The specification for the referenced item is indicated in the Schedule. The material quality is G5A crushed stone which shall be compacted in accordance with COTO Table A5.3.5-2 : 95% of MDD for unstabilised layers.

The Measurement and payment item is incorrectly numbered in Volume 3 Book 3 under COTO, Chapter 8, Part C as item C8.8.4.4 (other materials). To be updated in accordance with the addendum to item C8.8.4.5 (See Part 1 above).

Question 3: Please provide the amount allowed for Item PC20.1.5.

Answer 3: The amount should be submitted by the tenderer for the indicated unit (i.e., per month). It is a negative amount which covers the contractor’s contribution towards the establishment and operation of services provided by an independent laboratory over the contract period.

Refer COTO payment item description for further detail.

Question 4: Where will Item C1.5/PC11.4.2.1(c) be used?

Answer 4: The barrier system will be used in the buffer zone of the traffic accommodation closure as / when instructed by the Engineer, also depending on the local geometry and related factors, in order to ensure further safety for the construction work zone. The barriers shall be placed in a tapering pattern.

Question 5: Volume 3 (Book 2 of 3) Pg.C2-50 (55 of PDF), Item A8.3(l), States no work will be allowed between 05h00 to 20h00, unless deep rehabilitation/repair.

5.1. Does this include the Closing and opening of traffic lanes?

Answer 5: Yes.

Question 6: The Performance Guarantee in the document states 10% of the Contract Value.

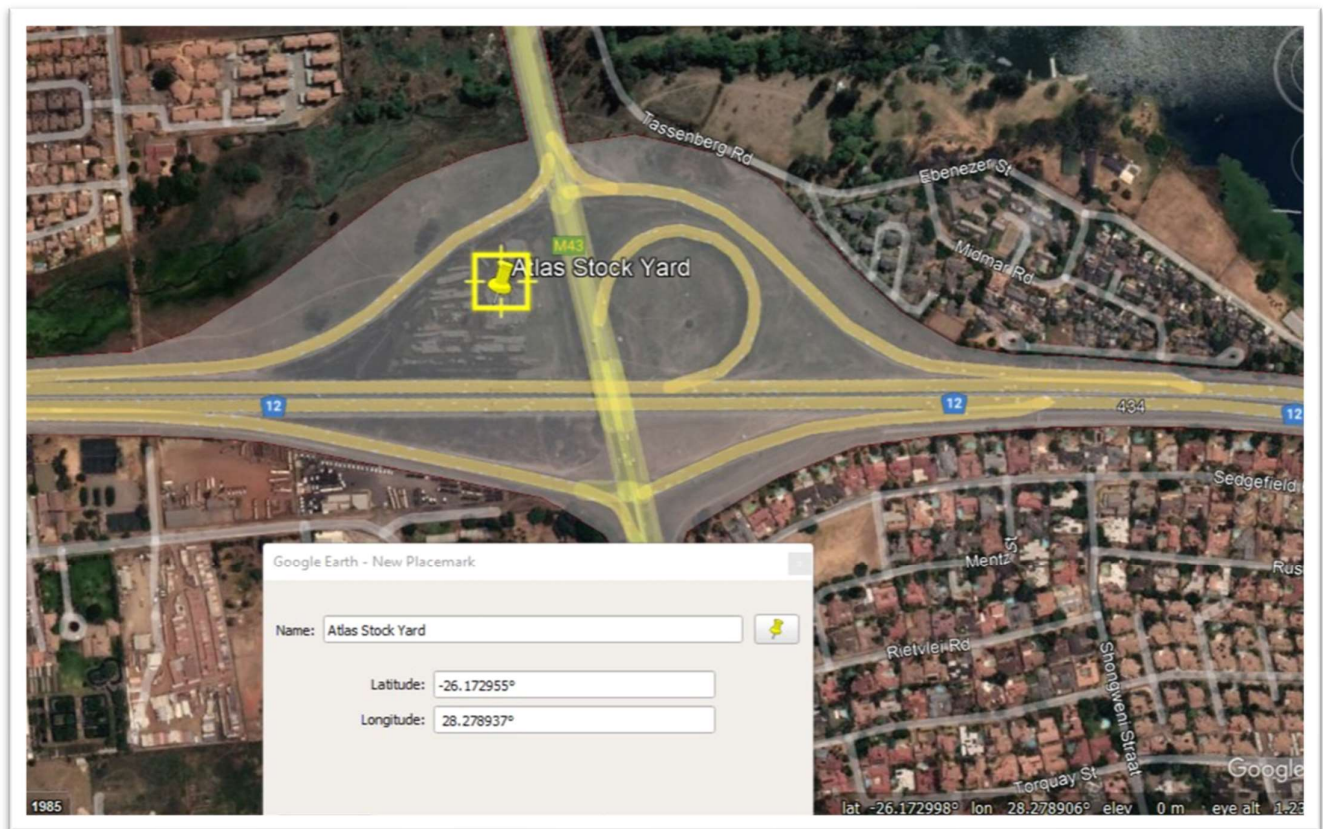

6.1. Is this correct? Should it no be the value of the UTFC?

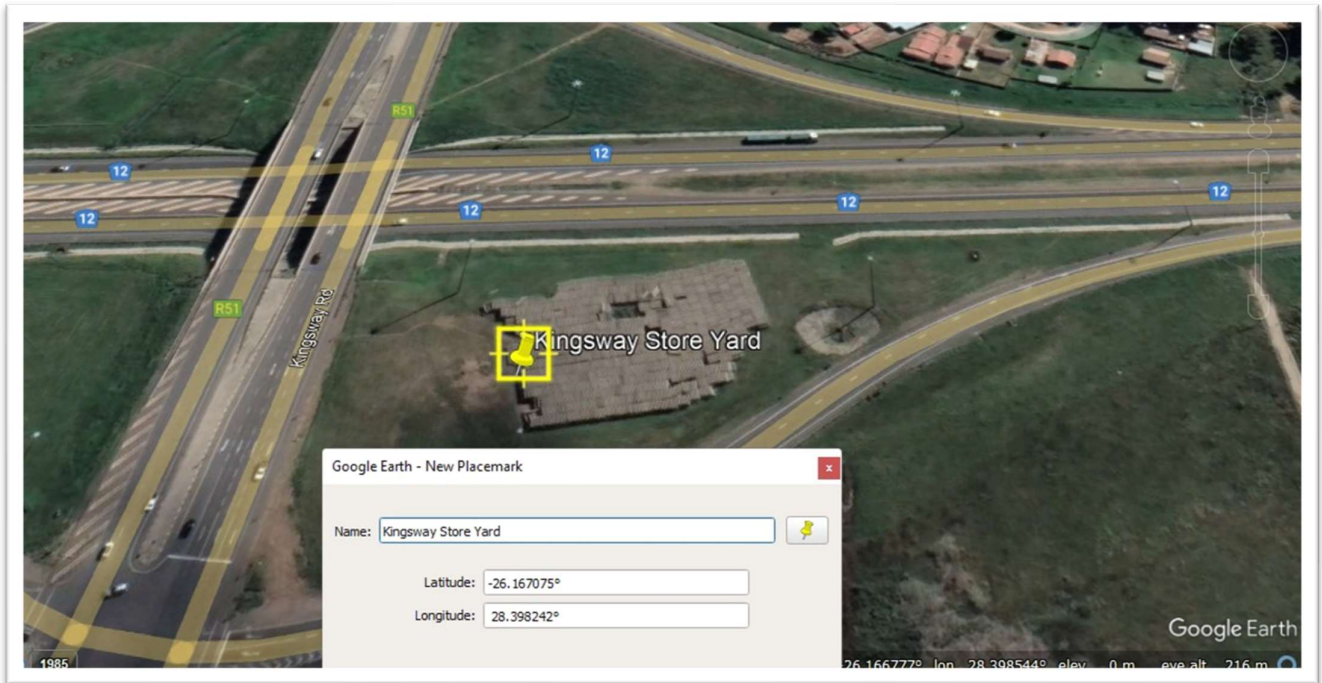

Answer 6: The term may be ambiguous. Yes, the performance guarantee is 10% of the contract value of the UTFC and not the total contract value.
