1. PURPOSE

- 1.1. The purpose of these Terms of Reference is to appoint a service provider to develop, facilitate, and implement the change management strategy and culture alignment in the Department of Forestry, Fisheries, and the Environment for a period of eighteen (18) months.

2. INTRODUCTION AND BACKGROUND

- 2.1. The Department embarked on the organisational structural reconfiguration process to achieve full integration of functions following the transfers of Forestry and Fisheries Management functions into the Department. The reconfiguration process was also done to reduce and eliminate possible duplications of functions as well as to find synergy between various branches within the Department. The reconfiguration of the organisational structure has since been concluded and the structure has been approved by the Minister and concurred for by the Minister of Public Service and Administration. It should be noted that following the approval of the structure, the Department maintained the existence of 10 branches, with the Marine Living Resources Fund as a separate component. The current post establishment on the current approved reconfigured organisational structure is 4132. The Department has just implemented its current approved organisation structure on the phased-out approach effective from June 2022 to March 2023.
- 2.2. To ensure the smooth transition and implementation of the structure, the Department appointed a service provider for a shorter period to facilitate the change management. The appointment of the current change management service provider was very beneficial with the roll-out of the change management sessions whereby key engagements were held within the two branches (Forestry Management and Environmental Programmes) as the two branches were adversely affected by the reconfiguration process. The preliminary reports following the sessions held in the two branches necessitated the need for the Chief Directorate: HCM to request a services provider who will be there for a longer period to ensure that stability and continuity are going forward within the Department as the change management is not a once-off event. The role of the new service provider will be to ensure that there is continuity and stability in particular at the micro level of the structure within the Department across all the branches.
- 2.3. Given the above, the Department is embarking on the process of requesting the services of a competent and qualified service provider(s) to develop and implement a change management strategy and culture alignment including the facilitation of the change management process in the Department.

3. OBJECTIVES

- 3.1. The main aim of the project is to develop and implement a change management strategy, including the facilitation of the change management and culture intervention processes in the Department.

4. SCOPE AND EXTENT OF WORK

- 4.1. The appointed service provider will focus on the development of the change management strategy and developing methods/approaches to empower all employees directly or indirectly affected by the change and on how to adapt, manage, and control the change. The service provider will also be expected to facilitate and coordinate the change management and culture intervention processes in the various branch structures in the Department which will include, but not be limited to the following:

- 4.1.1. Develop a change management strategy based on the current reconfigured functions of the departmental structure;
- 4.1.2. Determine consultation framework for various structures and develop a change management communication plan;
- 4.1.3. Facilitate the identification of change management agents and capacitation thereof;
- 4.1.4. Develop change management interventions for controlling and adapting to change and its effects on the employees including uplifting their morale during and after the change has been implemented;
- 4.1.5. Facilitate and coordinate change management meetings/workshops with affected employees;
- 4.1.6. Facilitate content discussions between various branches where needed;
- 4.1.7. Develop and facilitate a Resistance Management Plan;
