1. BACKGROUND

The South African National Biodiversity Institute (SANBI) manages a network of national botanical and zoological gardens across South Africa. Kirstenbosch National Botanical Garden (NBG) is one of Cape Town's key tourist attractions contributing significantly to the local tourism economy in the Cape. The garden receives in excess of 900 000 visitors a year which includes approximately 300 000 international tourists and 120 000 concert patrons. Kirstenbosch NBG is a strategic partner of Cape Town Tourism and is a member of the Cape Town Big Six tourism initiative.

Harold Porter NBG located in Betty's Bay, in the Overstrand Municipality of the Western Cape. The garden covers an area of 210 ha, and the estate includes both landscaped and natural areas. The garden forms part of the Kogelberg Biosphere and is home to a number of indigenous species and receives an average of approximately 60 000 visitors per year.

The Karoo Desert NBG is located in Worcester, in the Breede Valley Municipality of the Western Cape. The garden covers an area of 154 ha comprising of 11 ha under cultivation and 143 ha of protected natural area. It houses various indigenous plant species and receives on average 13 000 visitors per year. The garden is open to visitors daily and offers guided tours and facilities that may be booked for private functions.

SANBI requires a Service Provider to provide gate and online ticketing, revenue collection, revenue reporting and entrance management 365 days a year at all three of the above national botanical gardens. The services required at Kirstenbosch National Botanical Garden includes the provision of staff to manage the sale of tickets for garden entry and concerts at the three dedicated entrance gates at Kirstenbosch. Currently at Kirstenbosch, 90% of garden entry and concert tickets are sold online, via card transactions and through mobile phone payment platforms.

The services required for the Karoo Desert National Botanical Garden does not include staffing but includes the provision of a points of sales system for the sale of tickets for garden entry, guided tours and private photoshoots as well as venue hire payments. Currently all garden entry tickets, guided tours and venue hire payments are sold at the garden ticket office via card payments.

The services required for the Harold Porter National Botanical Garden does not include staffing but includes the provision of a point of sales system for the sale of tickets for garden entry, concerts, plant sales and venue hire. Currently all garden entry and concert tickets are sold at the garden ticket office via cash and card transactions. The Service Provider will be required to provide these above-mentioned essential services every day of the year, including weekends and public holidays. There must be adequate staff, where applicable, on duty at all times. A technician must be available, at all times, to respond to technical and IT-related matters where needed at all three botanical gardens.

4 REQUIREMENTS FOR THE TENDER

a) Mandatory documentation required

Tenders must include the following documentation (failure to submit this required documentation and any misrepresentations will lead to disqualification from the bidding process).

Each submission must include the following:

- A letter of Good Standing from the office of the Compensation Commissioner as required by the Compensation for Occupational Injuries and Diseases Act (COIDA). The letter should be issued by the Department of Labour.
- A copy of the proposed fee/cost structure for the staff, services and equipment needed (**This must only be contained in the 'original' document as per the section on submission below**).
- Central Suppliers Database (CSD) registration report.
- Fully completed SBD forms.
- The compulsory briefing session certificate.
- Proof of Payment Card Industry (PCI) compliance certificate. All systems and equipment supplied need to comply with the latest Payment Card Industry/Data Security Standard (PCI/DSS) and Europay, MasterCard, and Visa (EMV) standards and need to be certified by

Call our Fraud Hotline 0800 160 999 (toll-free) anytime

the relevant bodies. As a minimum, the Service Provider must provide proof of a current PCI certification.

b) Other requirements

Bidders interested in rendering the requested services should submit a concise written proposal that addresses the scope of work and the above requirements and outputs.

The proposal must include:

- A mission statement and inclusion of any policies that underpin the service offerings of the bidder.
- A description of the approach and methodology to address the objectives and specific requirements of the project, including the provision of a hosted, web-based solution which includes disaster recovery capability, maintenance and support of the system over the contract period.
- A project plan that demonstrates the technical merit of the proposal in other words, an understanding around technical aspects such as the point-of-sale system and IT requirements, payment and transaction solutions, online ticketing and accounting systems, data recording and reporting, hosting platforms etc. The project plan must indicate how the bidder intends to set up, and provide for ongoing maintenance of these systems and equipment.
- A work plan that indicates the relative level of effort (time, phasing and cost) towards activities and deliverables, a clear allocation of roles, responsibilities and resources towards the deliverables. **The work plan must include a takeover plan from the current Service Provider of no longer than 10 days.**
- Details of the bidder profile that outlines the proposed management structure with an indication of capacity such as site manager, supervisor, cashiers as well as technical staff. A project manager is needed to manage the project for all the services needed at all three gardens. A site manager, supervisor and cashiers are only needed for Kirstenbosch while a technician will be needed to respond to all technical and IT-related needs, as and when required, at all three botanical gardens.
- CV's must be provided to indicate relevant skills and qualifications, experience and track record for all staff required to meet the requirements of the project.
- A communication, staff training and risk management strategy.
- A list of at least three examples of similar work carried out by the service provider in the past three years. This must include evidence of the ability of the service provider to operate and manage online ticketing systems and provide an indication of the scale of the projects. SANBI reserves the right to visit sites where a similar implementation has occurred.
- Apart from listing examples of previous or current projects undertaken, provide at least three traceable references which indicate the names and contact details of any past or present clients you have supplied similar services to in the past three years. The references must indicate what services were rendered as well as the duration and value of the contracts.
- Fraud Prevention and Revenue Control Plan.

5 SCOPE OF WORK

The Service Provider will be required to provide gate and online ticketing, revenue collection, revenue reporting and entrance management services which will include the following tasks at Kirstenbosch, Harold Porter, and Karoo Desert NBGs:

Systems and services required at the Kirstenbosch, Harold Porter, and Karoo Desert National Botanical Gardens:

- Record all forms of free entry including SANBI staff and volunteers, approved membership societies, and/or loyalty programs where applicable.
- Compile weekly, monthly, and annual visitor statistics and ensure reporting of these.
- Provide various forms of reports, standard operating procedures and controls where required for auditing purposes when necessary.
- Provide online access to real time records of online garden entry tickets and concert ticket sales.
- Collect garden and concert entry fees through electronic funds transfer, speed points, credit card sales, mobile phone payments and online sales.
- Be willing to provide training on the operation of point of sales systems and related equipment.
- Ensure an adequately qualified technician is available at all times to respond to technical and IT-related matters to ensure optimal delivery of services.
- Provide various forms of reports, SOP's and controls where required for auditing purposes when necessary.
- Comply with the Protection of Personal Information Act, of 2013.

Services required at Kirstenbosch National Botanical Garden only:

- Update notices at the various entrances as instructed by Garden Management
- Manage guest lists on behalf of the garden.
- Ensure provision of staff at the three entrances including supervisor and site manager.
- Where needed allow for staff to be trained and briefed by Kirstenbosch staff in order keep up to date with garden events, developments, or changes in the workplace from time to time.
- Ensure that all cash handling operations comply with a strict risk management strategy. (Refer to section 5 a: Staffing the site). **NB. Cash transactions are currently being phased out.**
- Comply with all SANBI cash control and bookkeeping requirements.

Technical requirements:

The Service Provider will be required to source, provide, and maintain all the necessary technical, IT-related equipment needed to ensure effective point of sales management systems at all three gardens at their own cost. The following computer and IT-related items must be provided:

- An optimally functioning hosting platform, database and suitable backend etc. for recording, processing, sorting and storing transactions and related data in real time.

Stop Fraud, Theft and Corruption without Fear or Favour –

Call our Fraud Hotline 0800 160 999 (toll-free) anytime

- All records of data generated and stored during this project will remain the property of SANBI.
- Eleven computerised point of sale systems which includes 11 computers, 11 thermal ticket printers, 11 receipt printers and 11 barcode ticket scanners for Kirstenbosch NBG.
- Two computerised point of sale systems which includes two computers, two thermal ticket printers, two receipt printers and two barcode printers for the Harold Porter NBG.
- Two computerised point of sale systems which includes two computers, two thermal ticket printers, two receipt printers and two barcode ticket scanners for the Karoo Desert NBG.
- For the plant sales at Harold Porter and Karoo Desert NBG, a barcode printer and scanning system needs to be provided in order to speed up the sales of plants at the ticket office. These barcodes need to include the plant name and pricing. Barcodes must be shared with the garden in order to generate barcode stickers when needed.
- For the Kirstenbosch concert seasons, four mobile computer scanning stations must be provided at the four concert area entrances. These mobile stations must be fully equipped to scan concert tickets and must therefore provide adequate internet connectivity to handle the online scanning of the large numbers of concert tickets. Mobile scanning stations must be equipped with at least two laptops, two scanners and two scanning staff members per station.
- Contingency plans must be in place at all times in the event of technical failures and/or internet connectivity challenges.
- Adequately trained and skilled technician(s) must be available on site to provide technical support as and when needed.
- Card machines for card transactions at all entrances including mobile machines.
- Internet connectivity through the most effective devices available including booster devices where required on the existing connections at the pay points as well as at the various additional entrance points to the concert area where needed.
- UPS devices or other forms of backup power to address loadshedding, power interruptions etc.
- Ticket sales software package and online ticketing solution which must be compatible with the current SANBI financial accounting system; SAGE 300 ERP, as well as enable submissions of financial reports in a format that enables integration with SAGE 300 and that satisfy SANBI financial management and auditing requirements. Proof must be provided that the software package and online ticketing solution to be used is compatible with SAGE 300 ERP or that an alternative solution proposed will be compatible.
- Thermal tickets and till receipt rolls.
- Cash floats for the cashiers where applicable.
- A smart cellular phone for the supervisor on duty applicable to Kirstenbosch only.

NB: The replacements and upgrades of items required to deliver this service will be carried out by the Service Provider at own costs over the five-year period.

Staffing requirements:

a. On site staffing requirements for Kirstenbosch National Botanical Garden only

- Adequately trained and skilled site manager and supervisor for Kirstenbosch

- The staff of the Service Provider will always dress in a manner that is presentable to the public and that enhances the reputation and image of SANBI.
- Due to the nature of the business, customer service is critical and therefore all staff employed by the Service Provider must behave respectably and be able to communicate clearly, read and write. The Service Provider will ensure that all their staff are in possession of at least a grade 12 qualification. Where training needs are identified, e.g. customer service training, such shortcomings will be addressed without delay by the Service Provider.
- All staff members of the Service Provider MUST be proficient in English and at least one other official language.
- The Service Provider will ensure that their staff are fully trained in dealing with customer enquiries and have a sound knowledge of Kirstenbosch National Botanical Garden.
- The Service Provider will ensure that their staff are trained in Health and Safety matters including First Aid and that such training remains updated, as required, by the relevant legislation.
- The Service Provider will ensure that their staff complies with the rules of the site. These will be covered during the induction of the successful bidder.
- The Service Provider shall supervise and exercise proper control over their staff and shall not hold SANBI liable for any loss or injury caused to the said staff.
- The Service Provider will seek to resolve any problems relating to their staff in line with their own policies and employment contracts as well as the laws of the Republic of South Africa (e.g. Labour Laws).
- The Service Provider will be required to provide police clearance certificates for all staff members dedicated to the site upon contracting.
- The “inheritance” of staff from the existing Service Provider will be at the sole discretion of the new Service Provider and SANBI as the client shall not be required to participate in such arrangements. The Service Provider may at its discretion disallow the inheritance of certain people to be appointed at its entrance if it feels that such appointment will lead to a conflict of interest, non-compliance or pose any risk to SANBI.

c. Site induction

The staff of the Service Provider and the supervision team must undergo induction training regarding the site. This induction is compulsory for all staff. During the induction, the client will provide the Service Provider with relevant site-specific information and regulations. Any new employees must first be inducted before placement on the specific site.

Reporting requirements:

The Service Provider will supply SANBI with weekly sales reports. At the end of each month a report showing total income and number of visitors per category will be provided to SANBI. This will include statistical and graphical analyses of Kirstenbosch NBG, Harold Porter NBG and Karoo Desert NBG visitors per category: adults, senior citizens, students, scholars, children, loyalty program members, free entries, etc. All information generated as a result of this contract will remain the property of SANBI.

Stop Fraud, Theft and Corruption without Fear or Favour –

Call our Fraud Hotline 0800 160 999 (toll-free) anytime

The Service Provider will also ensure that, at the end of each financial year, detailed reports are provided with statistics, data and graphical analysis and will from time to time provide income and visitor number information required for auditory and verification purposes.

The Service Provider must indicate any agreements they have or wish to have with third party ticketing vendors

Bids that fail to score a minimum of 70 points out of 100 points for functionality will not be eligible for further consideration.

The second stage will evaluate the price and preference points of those bids which meet the minimum threshold for functionality. In accordance with the Preferential Procurement Regulations, 2017 pertaining to the Preferential Procurement Policy Framework Act (No. 5 of 2000), the 80/20-point system will be applied in evaluating proposals that qualify for further consideration, where price constitutes 80 points, and 20 points will be awarded based on the bidder's specific goals as per the below table:

GOALS

The specific goals allocated points in terms of this tender	Number of points allocated (80/20 system) (To be completed by the organ of state)	Number of points claimed (80/20 system) (To be completed by the tenderer)
Categories of persons historically disadvantaged by unfair discrimination on the basis of race Information will be verified on CSD report. Points will be allocated based on the percentage of ownership per goal	(10)
