REQUEST FOR BIDS:

The Department of Trade, Industry and Competition (**the dtic**) invites interested service providers to submit bids for the renewal of the existing VMware Enterprise Agreement (ELA) and conversion of the VMware licenses to subscription model with maintenance and support for a period of three (3) years.

NOTE: Should a vendor have reason to believe that the specification is not open to promote competition or that it is written for a specific entity, the vendor shall notify the Bid Office of **the dtic** within ten (10) calendar days after publication of the bid.

1 PURPOSE

- 1.1 The purpose of this specification is to obtain bids from suitable service providers for the renewal of the existing VMware Enterprise License Agreement (ELA) and the conversion of the current VMware licenses from perpetual to subscription model with maintenance and support for a period of three (3) years.

2 BACKGROUND

- 2.1 The Office of the Chief Information Officer (OCIO) is responsible for managing and maintaining the back-office server infrastructure hosting business-critical applications and services that enable **the dtic** to carry out its mandate as well as to ensure the business achieves its strategic objectives through the use of information communication technology (ICT). The ICT infrastructure is expected to ensure that the information maintains its integrity, confidentiality and availability all the time.
- 2.2 The VMware solution provides a centralised platform for managing multiple servers and storage area networks (SAN) for Production, Disaster Recovery, Development and Testing environments for all **the dtic** systems or applications. The VMware software and license maintenance and support will prevent and minimise ICT service disruptions within the environment as there will be both pro-active and re-active maintenance on the environment, which will be conducted by both **the dtic** and the service providers.
- 2.3 **the dtic** VMware environment consists of the following software:
- Production, Development and Testing Environment
 - VMware vSphere Enterprise Plus
 - VMware vCenter Server
 - VMware Site Recovery Manager

- DR environment:
 - VMware vSphere Enterprise Plus
 - VMware vCenter Server
 - VMware Site Recovery Manager

2.4 The licenses for the VMware License Agreement expired on 06 October 2022, causing a procedural gap due to delays in obtaining renewed licenses, maintenance, and support. **the dtic** must pay for license costs as part of its ongoing software assurance responsibilities, eliminating the need for new licenses. During this time, only payments for licensing are necessary, as no maintenance or support services are provided. This interruption in license renewals means that **the dtic** will cover the expenses until the SLA is officially established with a new service provider.

2.5 The existing VMware licenses are on perpetual model and cannot be used to manage hybrid (on premise and cloud) infrastructure. Subscription-based license model is like renting and can be used to manage both on premise and cloud infrastructure as the OCIO is slowly moving to cloud technology.

3 SCOPE OF WORK AND DELIVERABLES

- 3.1.1 VMware Enterprise License Agreement (ELA) for **the dtic** that includes the below;
