**THRESHOLD = 80%**

**TAKE NOTE= ONLY TECHNICAL SUITABLE IF SCORE IS EQUAL TO OR GREATER THAN 80%**

A weighted score- card approach is used to evaluate the technical compliance of the tenders against the specifications. Tenders need to have a weighted score of **80%** to technically qualify for further evaluation.

Eskom Procurement and Supply Chain Management Procedure (32-1034) in conjunction with the Preferential Procurement Policy Framework Act (PPPFA), No.5 of 2000:

NB: Tenderers will be expected to score a least a minimum threshold of **80%** to proceed to next phase, **if the tenderers score below 80 points will be considered technically unacceptable**; however, if all the received tenders score less than threshold Eskom reserves the rights to negotiate with the tenderer who score the most points
