1. BACKGROUND INFORMATION

One of the strategic objectives of the department is to ensure sustainable and inclusive economic growth for job creation, the achievement of economic growth can be facilitated through broad participation by the community.
- 2.1.2 The purpose of the Integrated Economic Development Services (IEDS) Programme 2 is to advance economic growth and job creation initiatives that prioritize historically disadvantaged individuals and groups. It aims to create partnerships and implement policies, programmes and projects aimed at creating employment and building capacity of stakeholders, supporting and promoting enterprises owned by previously disadvantaged individuals, groups, or communities in order to bring them into the mainstream of the economy. The Programme comprises of the Enterprise Development, Regional/international and Local Economic Development (RLED) and Economic Empowerment.
- 2.2.3 The Economic Empowerment Chief Directorate derives its mandate from the South African Constitution, National Development Plan, Broad-Based Black Economic Empowerment (B-BBEE) Act and the Codes, KZN Provincial Growth and Development Strategy and Plan (PGDS/P) and the KZN B-BBEE Strategy and other economic strategies and policies. The main goal of the Chief Directorate is to create an enabling environment for economic transformation and the empowerment of previously disadvantaged individuals and groups (especially women and youth) to participate in the mainstream economy of KZN.

1.2. Rationale of the Project

Section 9 of the Bill of Rights makes provision for equality in South Africa whereby everyone must have full and equal rights and freedom. In order to attain equality there is a need for legislative and other measures targeted at protecting or advancing persons or categories of people who were disadvantaged by unfair discrimination. In 1998 the B-BBEE Commission published a report which recommended for the development of B-BBEE legislation.

B-BBEE is defined as an integrated and coherent socio-economic process that directly contributes to the economic transformation of South Africa and brings about significant increases in the number of black people that manage, own and control the country's economy, as well as significant decreases in income inequalities.

The main objective of the B-BBEE Act is to redress some of the inequality and injustices brought by the apartheid. Through promoting the economic upliftment of black citizens, the policy works to uplift broader society– bringing about much-needed socio-economic transformation. It further encourages the hiring of black employees and the conducting of business with companies owned by the previously marginalized groups so that they can also participate and be included in the economy of the country.

In terms of Section 13 (1G) all spheres of government, organs of state and public entities must report to B-BBEE Commission, B-BBEE compliance in their audited annual financial statements and annual reports. This is done to ensure that all Public sector also implement the B-BBEE Specialised Scorecard which measures the following four (4) elements which are Management Control (MC), Skills Development (SD), Enterprise and Supplier Development (ESD) and Socio-Economic Development (SED).

Furthermore, B-BBEE Compliance and reporting in Public Sector has been included in the Auditor General Scope of Annual auditing, which means that all departments and entities will be checked if they have complied with B-BBEE Act, including reporting to B-BBEE Commission.
