

BIDDER CLARIFICATIONS

TPL/2024/01/0004/54731/RFP

SUPPLY AND REPLACEMENT OF CRUDE BOOSTER STATIONS, AIRCOOLED MEDIUM VOLTAGE VARIABLE SPEED DRIVES AT THE FIVE CRUDE PIPELINE BOOSTER STATIONS

NO.	QUESTION	RESPONSE
1.	I would like to enquire about the cidb grade required for the project at New Germany to replace vfd drives. I can not see anywhere on the document where it states which CIDB grading is required in order for one to qualify to bid for the job.	There is no CIDB requirement.
2.	May I please request pictures of the premises.	Aerial views pics and co-ordinates of the depots have been provided in the RFP. The bidder can view the depots on google maps as well.
3.	Please may I kindly request an extension to the following tender closing date. Reason many of the staff have already planned the easter leave and will not be available.	Closing date has been extended to 22 April 2024.
