## 1. INTRODUCTION

### 1.1. The City of Johannesburg

- a) In 2000, Johannesburg was restructured to become a single metropolitan authority and elections were held for an executive mayor and unified local government.
- b) Since then, the City has enjoyed a financial turnaround, with the creation of a credible and stable operating environment. This stability, strong centralised co-ordination and oversight has allowed the City to play a crucial role in building the economy, and implementing policies and structures to support economic growth and poverty alleviation.
- c) All urban development in Joburg is guided by the Growth and Development Strategy.

### The City of Joburg Property Company (JPC)

- a) The City of Joburg Property Company SOC Ltd (JPC), established in 2000, is a dynamic company mandated to manage and develop the City of Johannesburg's (CoJ) property assets for the purpose of maximising both social and commercial opportunities for the Council.
- b) Dedicated to finding solutions to the developmental challenges facing the City of Johannesburg, the JPC utilises council-owned land assets to leverage private sector investment in public infrastructure. The JPC, on behalf of the CoJ, provides Property Asset Management, Property Management (Commercial), Property Management (Social), as well as Facilities Management and Maintenance Services; and its relevant subsidiary services.
- c) Therefore, the JPC prides itself as the arm responsible for maximising the social, economic and financial value of the CoJ's total property portfolio and enhancing its efficient use of property to drive investment, economic growth and job creation. The JPC aims to achieve its objectives by focusing on the following imperatives:
  - Realising value (social, financial and economic) for the CoJ;
  - Supporting economic development and aligning the CoJ property portfolio with CoJ priorities;
  - Increasing the effectiveness of economically viable municipalities and social use of properties; and
  - Management of risk and return with respect to the property portfolio and property transactions for the CoJ.

positively to the regeneration of the area, if carefully designed through stimulus response thinking.

The Urban design principles and objectives are critical in ensuring that the development of such properties reflect the values and priorities of the City, while also outlining the fundamental principles and considerations for the development of properties within the immediate vicinity of the Midrand Gautrain Station, Boulders Shopping Centre and Gallagher Convention Centre amongst others.

The following principles and objectives are essential in the urban design of the properties:

- 1. Accessibility and Connectivity:** The development should prioritize accessibility and connectivity to the Midrand Gautrain Station, Boulders Shopping Centre and other key anchor facilities, through contributing positively to the creation of a more pedestrian friendly environment and promotion of ease of access. Special attention should be given to the interface onto important links and spines such as the Grand Central Boulevard and North Street.
- 2. Diversity:** The development should ensure a mix of uses that cater to a range of social, economic, and cultural backgrounds. This may include housing for different income groups, office space, retail shops, recreational facilities, and community spaces – depending on the conditions of the contract/agreement. The form, mass, scale, placement and orientation of the uses should also be carefully considered, so that they foster a positive relationship with the existing surrounding uses
- 3. Environmental Sustainability:** The design should prioritise environmental sustainability, with an emphasis on low carbon footprint through the use of eco-friendly and energy-efficient materials, sustainable waste management, and stormwater controls.
- 4. Safety and Security:** The development must be safe and secure, with clear sightlines, well-lit spaces, and functional surveillance equipment. The security of a place is also a function of the responsiveness of the design to the environment, therefore the primary goal should be to promote passive surveillance.
- 5. Public Space and Placemaking:** Public space and placemaking should prioritize the creation of attractive, welcoming, and comfortable spaces for users. This includes landscaping, seating, lighting, and artwork where possible.

The subject properties forms part of one of the seven precincts identified by the JPC that could be redeveloped to bring about more efficiencies in the manner in which the City of Johannesburg Metropolitan Municipality (COJ) operates as part of the Office Space Optimisation (OSO) programme. The strategy behind the redevelopment of these precincts is primarily to rationalise and optimise the provision of office accommodation for COJ. It

Bids that do not meet the minimum threshold of 70 points will not be considered further.

**STAGE 2: PRICE & SPECIFIC GOALS**

Only those tenderers that attain the minimum threshold score of 70 Points in Stage 1 will be evaluated in this stage. Tenders will be evaluated as follows:

The following formula will be used to calculate the points out of 90 for price:

**90/10**

$$P_s = 90 \left( 1 + \frac{P_t - P_{max}}{P_{max}} \right)$$

Where

- P<sub>s</sub> = Points scored for price of tender under consideration;
- P<sub>t</sub> = Price of tender under consideration; and
- P<sub>max</sub> = Price of highest acceptable tender.

- A maximum of 10 points will be awarded to a tenderer for the specific goals specified for this tender.
- The points scored for the specific goal will be added to the points scored for price and the total will be rounded off to the nearest two decimal places.
- The contract will be awarded to the tenderer scoring the highest points.
- If two or more tenderers score an equal total number of points, the contract will be awarded to the tenderer that scored the highest points for specific goals.
