Specifications / Terms of Reference for bids

1 DESCRIPTION

This Bid calls for the acquisition, installation, commissioning and maintenance of a dual-polarized S-Band weather Radar, as well as decommissioning of the existing radar at Durban (Umhlanga), in KwaZulu Natal.

2 INTRODUCTION

The South African Weather Service (SAWS) is a public entity of the Department of Forestry, Fisheries and the Environment (DFFE) and derives its mandate from the South African Weather Service Act (No 8 of 2001 as amended). The public entity is listed as a Schedule 3A Public Entity in terms of the Public Finance Management Act (PFMA).

SAWS is tasked with providing timely and accurate scientific data in the field of meteorology to the broader South African society: a combination of both public good and commercial services. The organisation plays a vital role in South African public life, not just as a provider of key meteorological services, but also in empowering citizens to adapt to the effects of the ever-changing weather exacerbated by climate change and variability.

3 BACKGROUND

The weather radar infrastructure is a critical observation system for issuing accurate severe weather warnings to the public, business, and the aviation industry. A state-of-the-art dual polarised S-Band radar with the latest technology is required for SAWS to effectively deliver on its mandate, to protect life and minimise damage to property through accurate impact based early warning system. The KwaZulu Natal Province being prone and vulnerable to severe weather activity, including floods. It is considered a vulnerable area where such a radar with high-end weather monitoring capabilities must be installed. The recent floods in the KZN area, most notably the April 2022 left almost five hundred lives lost and severe damage to infrastructure. This event was considered one of the most catastrophic natural disasters recorded in KwaZulu-Natal (KZN) in collective terms of lives lost, homes and infrastructure damaged, loss of livelihood and economic impact.

For this purpose, SAWS aims to enhance the weather forecasting and monitoring capabilities through the installation, commissioning, and maintenance of an advance radar system. The installation of a dual-polarized S-band radar will significantly assist SAWS weather forecasters to deliver relevant and accurate

weather warnings to the KZN public, business and the aviation industry and improve the accuracy of now-casting, early warnings as well as precipitation estimates.

The existing Durban radar suffered fire damage around 2011, and its performance has since been unstable. Some key subsystems were damaged, connectors and cabling were also affected. Hence the replacement of this radar with a new S-Band dual-polarised radar system is considered at the same site with all safety measures taken into consideration to avoid the similar situation.

4 REQUIREMENT / SCOPE OF WORK

The aim of this bid is to appoint a service provider to provide SAWS with a turnkey solution for the acquisition, installation, and commissioning of a dual polarised S-Band weather radar system in Durban (Umhlanga), KZN. This radar will be incorporated into the existing SAWS weather radar network for the purpose of assisting the forecasters in continuous weather monitoring, enhanced and accurate early warning capabilities to save lives. This project will be implemented in phases, as outlined in 4.1 to 4.7 below.

This Bid calls for bidders to:

THE NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME

This document must be signed and submitted together with your bid

THE NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME

INTRODUCTION

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

1 PILLARS OF THE PROGRAMME

- 1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US\$ 10 million or other currency equivalent to US\$ 10 million will have a NIP obligation. This threshold of US\$ 10 million can be reached as follows:
- (a) Any single contract with imported content exceeding US\$10 million. or
 - (b) Multiple contracts for the same goods, works or services each with imported content exceeding US\$3 million awarded to one seller over a 2 year period which in total exceeds US\$10 million. or
 - (c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US\$10 million. or
 - (d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US\$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US\$10 million.
- 1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30 % of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a *pro-rata* basis.

-
- 1.3 To satisfy the NIP obligation, the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.
- 1.4 A period of seven years has been identified as the time frame within which to discharge the obligation.

2 REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY

- 2.1 In order to ensure effective implementation of the programme, successful bidders (contractors) are required to, immediately after the award of a contract that is in excess of **R10 million** (ten million Rands), submit details of such a contract to the DTI for reporting purposes.
- 2.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

3 BID SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF BIDDERS AND SUCCESSFUL BIDDERS (CONTRACTORS)

- 3.1 Bidders are required to sign and submit this Standard Bidding Document (SBD 5) together with the bid on the closing date and time.
- 3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1 (d) above and to enable the DTI in determining the NIP obligation, successful bidders (contractors) are required, immediately after being officially notified about any successful bid with a value in excess of R10 million (ten million Rands), to contact and furnish the DTI with the following information:
- Bid / contract number.
 - Description of the goods, works or services.
 - Date on which the contract was accepted.
 - Name, address and contact details of the government institution.
 - Value of the contract.

contract. Mr Malapane may be contacted on telephone (012) 394 1401, facsimile (012) 394 2401 or e-mail at Elias@thedti.gov.za for further details about the programme.

4 PROCESS TO SATISFY THE NIP OBLIGATION

- 4.1 Once the successful bidder (contractor) has made contact with and furnished the DTI with the information required, the following steps will be followed:
- a. the contractor and the DTI will determine the NIP obligation;
 - b. the contractor and the DTI will sign the NIP obligation agreement;
 - c. the contractor will submit a performance guarantee to the DTI;
 - d. the contractor will submit a business concept for consideration and approval by the DTI;
