Proof that the highest-ranked tenderer / preferred tenderer is able to meet the contractual requirements must be submitted before the contract may be awarded.

If the tenderer does not meet a contractual requirement, mitigating factors, may be agreed to and be made terms and requirements of the contract. If the tenderer does not agree with the mitigating factors or if there are insufficient suitable mitigating factors or if the risk is deemed too high, the tender may be awarded to a tenderer other than the highest-ranked (the second-ranked).

Tenderers failing to meet contractual requirements will be ineligible for contract award.

Safety Requirements:

The OHS Legal requirements are not evaluation criteria. They are required to be met and assessed after the evaluation and ranking of the tenders.

The tenderer will be allowed a period not exceeding 7 working days to resubmit the requirements that were not met after the tender submission. This is aligned to the SHEQ requirements for the Procurement and Supply Chain Management process in Eskom Revision 5 and Eskom contracts and Contractor OHS management Standard.

The process further states that for SHEQs tender requirements, each supplier will only be evaluated twice before the final report is submitted to the Procurement Practitioner.

Failure to submit by the given deadline will render the tenderer ineligible for further evaluations /contract award. Proof that the highest-ranked tenderer / preferred tenderer is able to meet the OHS legal requirements must be submitted before the contract may be awarded.

Both first and second evaluations shall be subjected to reviews for quality and assurance purposes before the final OHS report is compiled and submitted to the Procurement Practitioner indicating if suppliers met the requirements or not.

Tenderers failing to meet all the OHS legal requirements will be ineligible for contract award.
