TERMS OF REFERENCE (TOR)

SOURCING OF A PROFESSIONAL SERVICE PROVIDER (PSP) TO FACILITATE STRATEGIC PLANNING SESSIONS FOR THE DEVELOPMENT BANK OF SOUTHERN AFRICA (DBSA)

1. CONTEXT

The Development Bank of Southern Africa (DBSA) is one of several Development Finance Institutions (DFIs) established by the South African government, to catalyse development impact and growth through investment in both economic and social infrastructure and through supporting regional integration. The DBSA operates under Schedule 2 of the Public Finance Management Act (PFMA) and is mandated by the DBSA Act No 13 of 1997. The role of the Bank in driving development through financing projects, market making during counter-cyclical times and providing access to integrated regional and continental infrastructure networks and services to citizens is crucial in South Africa and the African continent. The Bank's strategic thrust includes driving sustainable growth with development impact, providing integrated infrastructure solutions and ensuring both operational and financial sustainability.

STRATEGIC GOALS

Underpinned by the Bank's ethos to **"bend the arc of history toward shared prosperity"**, the DBSA is focused on ensuring financial sustainability and strong governance, while moving onto a trajectory of accelerated and enhanced development impact i.e., **"grow the DBSA to maximise development impact"**. Our strategy builds on the four strategic goals, namely:

1) **Financial sustainability**

The DBSA aims to achieve financial sustainability through income growth, balance sheet growth, and cost optimisation. Achieving disbursement and credit extension targets is crucial to the financial sustainability of the Bank as this directly relates to the Bank's asset base, which must grow at a rate higher than or at par with increasing operating costs for long-term sustainability.

2) **Accelerating development impact**

Balanced with the financial focus is the developmental focus, which sees the Bank continuing to invest in those projects and activities that ultimately contribute towards unemployment reduction, poverty alleviation, and reduction of inequality. The aim is to drive quality transactions, while ensuring greater development impact of our investments. Priority is placed on increasing the development impact of disbursements and projects in our sectors in the region, as well as in the South African municipalities. The DBSA works to create an integrated development environment in the value chain in order to respond to the rapid changes in the environment – particularly in a post-lockdown environment.

3) **Future-fit-DBSA**

The DBSA endeavours to be more effective through tailoring its products, services, and organisational capabilities to respond to stakeholder needs. There is a need to improve collaboration and integration internally, as well as to completely digitalise the Bank. This will require an integrated approach operationally and a shift from strategy implementation through individual performance to team performance and outcomes. A future-fit DBSA requires a culture reform and mindset shift towards growth and innovation.

4) **Smart partnerships**

Smart partnerships are purpose-driven collaborations that co-create development solutions and enhance private sector participation in infrastructure projects that promote inclusive growth. They also help public sector entities unlock bottlenecks that serve as stumbling blocks to accelerated infrastructure development. The Bank pursues such partnerships inside and outside South Africa to fulfil its mandate.

2. **PURPOSE**

The DBSA is legislatively required to develop an annual Corporate Plan, which reflects on the Bank's strategic thinking, direction, and action leading to the achievement of consistent and planned results. The Corporate Plan identifies strategically important outcomes-oriented goals and objectives against which the DBSA's medium-term results can be measured and evaluated by the National Treasury, Parliament, and the Public.

On an annual basis, the DBSA holds two strategy planning sessions with its leadership team. The first session is the management strategy session with members of the Executive Committee and Unit Heads; and the second session consists of the Executive Committee members and members of the Board. Each session takes place over two days. The purpose of these sessions is to reflect on the past year's corporate performance and realign the short, medium and long-term organisational goals with the overarching DBSA mandate and its development position. The outcome of these sessions is a set of cohesive corporate initiatives and actions that are collaboratively developed and informed by data driven insights, best practice, and predictions about the future of the DBSA. These actions inform strategic priorities of the Bank, spanning the short, medium term and long term.

These sessions are facilitated by an external service provider who will be responsible for: (1) providing an expert view on the development finance industry (particularly in the infrastructure financing space), (2) synthesising strategic themes and (3) coordinating ideas from the sessions.

At the Board strategy planning session, the service provider may be required to facilitate the session with a view to achieve alignment of the Board priorities with the management strategic outcomes.

The sessions are focused on the existing strategic themes and pertinent areas of challenge/opportunity within the Bank. The two strategy planning sessions must be structured in a way that will enable discussions relevant to the Strategy and Corporate Plan of the Bank.

3. DETAILED SCOPE OF WORK

The successful Professional Service Provider (PSP) is expected to undertake the following activities:

- 3.1. **Develop a strategy session facilitation plan** for both the Management and Board sessions which include:
 - An agenda for the two-day sessions taking into consideration the Strategic Environment Analysis conducted by the DBSA Team.
 - An approach that will allow the delegates sufficient context and time to participate in the discussion while ensuring adherence to the agenda and time management.
 - An approach that will encourage active engagement and discussion in accordance with the agenda/programme and to achieve the objectives of the strategy sessions.
- 3.2. **Recommend Guest Speakers** - Provide a list of two potential guest speakers for each strategy session (*to be agreed to with the DBSA*) who are subject matter experts in DBSA sectors of investment, infrastructure growth, innovation as well as operational efficiencies (with biographic information). The successful PSP will be expected to source and pay for proposed speakers.
- 3.3. **Engage organisational representatives** to gather strategic inputs prior to strategy sessions, such as (but not limited to) the Corporate Strategy Team, the Chief Economist, the Chief Executive Officer, and Board Chairperson.
- 3.4. **Facilitate the Strategy Session** - Attend and facilitate Strategic Planning Session for Exco and possibly the Board session with the Management team of the DBSA in accordance with the scope of work at a venue to be confirmed by the DBSA.
- 3.5. **Provide implementable solutions** - Provide guidance to the Executive Team on innovative methodologies to activate DBSA's programmes and other resolutions of the strategic sessions.

ANNEXURE F

SBD 9 CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregards the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancels a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
1. This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
2. To give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
