# **T1.1: TENDER NOTICE AND INVITATION TO SUPPLIER**

**T1.1: TENDER NOTICE AND INVITATION TO SUPPLIER  
THE EASTERN CAPE DEPARTMENT OF HEALTH INVITES SUPPLIERS  
FOR:**

PROJECT NAME	SCHEDULE MAINTENANCE OF MEDICAL GAS AND ASSOCIATED EQUIPMENT IN CLUSTER FOUR (4) – NELSON MANDELA AND SARAH BAARTMAN DISTRICT – HEALTH FACILITIES
TENDER No.	SCMU3-24/25-0661-HO

*Any reference to words “Bid” or Bidder” herein and/or in any other documentation shall be construed to have the same meaning as the words “Supplier” or “Tender”.*

The attention of Suppliers is drawn to the eligibility criteria in the table below. Suppliers are required to familiarise themselves thoroughly with the conditions of Supplier as contained in the Supplier Data (T1.2) and the Standard Conditions of Supplier which form part of the Supplier document. Only Suppliers that are responsive to responsiveness criteria contained in the table below are eligible to have their Suppliers evaluated:

<input checked="" type="checkbox"/>	<u>Joint ventures are eligible to submit tenders provided that:</u> They have a signed joint venture agreement
<input checked="" type="checkbox"/>	Only Suppliers who are registered with <b>SAHPRA</b> shall be eligible to have their Tenders evaluated
<input checked="" type="checkbox"/>	Only Suppliers who have access to a suitably qualified and experienced contract manager who will be the single point of accountability and responsibility for the management of the contract works as described in clause F.2.1.2 shall be eligible to have their Tenders evaluated. <b>At least five (5) years of experience must be on Medical Gas equipment installation and maintenance industry.</b>
<input checked="" type="checkbox"/>	Only Suppliers who have access to a suitably qualified and experienced contract supervisor as described in clause F.2.1.3 shall be eligible to have their Tenders evaluated. <b>At least five (5) years of experience must be on Medical Gas equipment installation and maintenance industry.</b>
<input checked="" type="checkbox"/>	Suppliers that are responsive to the criteria stated above shall be evaluated further in accordance with the conditions of Supplier as stipulated in the Tender Data (T1.2) and the Standard Conditions of Tender (as amended), which form part of this Tender document.

**Preferences are offered to Suppliers in accordance with the points systems as below:**

<input checked="" type="checkbox"/> 80/20 Preference point scoring system
---

<b>Preference:</b>		<b>Price:</b>	
SPECIFIC GOALS Status Level:	20 Points	Price:	80 Points
Total must equal:	<b>20 Points</b>	Total must equal:	<b>80 Points</b>

**1. AVAILABILITY OF SUPPLIER DOCUMENTS:**

Tender documents may be freely downloaded from Tender portal [www.ehealth.gov.za/tenders](http://www.ehealth.gov.za/tenders) OR [www.etenders.gov.za](http://www.etenders.gov.za)

A compulsory clarification meeting with the representatives of the Employer will take place as follows:

**Date:** 23 April 2025  
**Venue:** John Tremble Hall, Frere Hospital,  
Amalinda, East London  
**Time:** 12h00 -until 13h00

**2. ENQUIRIES RELATED TO TENDER DOCUMENTS MAY BE ADDRESSED TO:**

<b>Procurement Contact:</b>	Ms Thabisa Notshe	<b>E-mail</b>	<a href="mailto:thabisa.notshe@ehealth.gov.za">thabisa.notshe@ehealth.gov.za</a>
<b>Tel. No.</b>	040 608 9641		

### **3. DEPOSIT / RETURN OF TENDER DOCUMENTS:**

The closing time and date for submission of Tender is **11:00am** on the **09 May 2025** where Tenders will be opened to the public. The following must be noted by all Suppliers.

1. Telegraphic, telephonic, telex, facsimile (faxed), email and late Tenders will not be accepted.
2. The requirements for sealing, addressing, delivery, opening and assessment of Tenders are stated in the Tender Data (T1.2)

F.1.4	<p><i>Add the following:</i></p> <p>The employer's agent:</p> <p>Lukhozi Consortium</p>
C1.6.1	<p><i>Add the following to the clause:</i></p> <p>The Department reserves the right to not accept the tender from the tenderer with the highest number of points or award any contract.</p>
C1.6.3	<p><i>Add the following:</i></p> <p><b>A two-stage system will be followed.</b></p>
C2.1	<p><i>Add the following:</i></p> <ol style="list-style-type: none"> <li>1. Only those Tenderers who satisfy the following eligibility criteria are eligible to submit tenders: <ol style="list-style-type: none"> <li>1. 1 Tenderers who are registered with the CIDB, or are capable of being so prior to the evaluation of submissions, in a Contractor grading designation equal to or higher than a Contractor grading designation determined in accordance with the sum tendered, or a value determined in accordance with Regulation 25 (1B) or 25 (7A) of the Construction Industry Development Regulations, for <b>Class ME, Grade 7 or 6 PE</b> or higher construction work, are eligible to have their tenders evaluated. Companies must be registered with <b>SAHPRA</b>.</li> <li>2. Joint ventures are eligible to submit tenders provided that: <ol style="list-style-type: none"> <li>2.1 Every member of the joint venture is registered with the CIDB;</li> <li>2.2 The lead partner has a contractor grading designation in the Class ME, Grade 7 or 6 PE class of construction work; or not lower than one level below the required grading designation in the class of works construction works under considerations and possess the required recognition status; and must be registered with SAHPRA.</li> <li>2.3 The combined Contractor grading designation calculated in accordance with the Construction Industry Development Regulations is equal or higher than a contractor grading designation determined in accordance with the sum tendered for <b>Class ME, Grade 7</b> or higher construction work or a value determined in accordance with Regulations 25 (1B) or 25 (7A) of the Construction Industry Development Regulations; and</li> <li>2.4 The joint venture is registered on Central Supplier Database or proof of application</li> <li>2.5 All members of the joint venture must submit copies of the returnable documentations or original where it is so stipulated for all members.</li> <li>2.6 In the case of a Partnership/Joint Venture/Consortium the tax clearance must be the Partnership/Joint Venture/Consortium or individual valid tax clearance certificates for all the members of the Partnership/Joint Venture/Consortium.</li> <li>2.7 In the case of a Partnership/Joint Venture/Consortium the CIPRO certificates must be submitted indicating percentage of ownership for specific goals points scoring, failing which the tenderer will score zero points.</li> </ol> </li> </ol> </li> </ol>
C2.2	<p><i>Add the following to the clause:</i></p> <p>Accept that the Employer will not compensate the Tenderer for any costs incurred in attending briefing session, negotiation meetings or any meeting or interviews in the office of the Employer or Employer's agent (if required).</p>

C.2.7	<p>For particulars regarding a pre-Tender site inspection meeting, see Tender Notice and Invitation to Supplier T1.1</p> <p>“ A compulsory briefing session will be held and no compensation will be paid for attendance at this meeting. Tenderers must be represented by a person who is suitably qualified and experience to comprehend the extent of the work involved and who is at the employ of the prospective tenderer.</p> <p>The tenderer’s representative must sign the attendance register in the name of the tendering entity. Addenda will be issue to and tenders will be received only from those tendering entities appearing in the attendance register of the briefing session.”</p>
C.2.12	No alternative tenders are allowed.
C.2.13.2	<p><i>Replace sub-clause C.2.13.2 with the following;</i></p> <p>Return all returnable documents to the employer after completing them in their entirety by writing in <b>non-erasable ink</b></p>
C.2.13.3	<p><i>Add the following:</i></p> <p>Parts of each Supplier offer communicated on paper shall be submitted as an original, plus 0 (nought) copies.</p>
C.2.13.4	<p><i>Add the following:</i></p> <p>The Supplier shall be signed by a person duly authorized to do so. Tenders submitted by joint ventures of two or more firms shall be accompanied by the document of formation of the joint venture, in the form of a joint venture agreement, in which it is defined precisely the conditions under which the joint venture will function, its period of duration, the persons authorized to represent and obligate it, the participation of the several firms forming the joint venture, and any other information necessary to permit a full appraisal of its functioning. Failure to provide the joint venture agreement, bound with the Supplier submission, on the date and time of the closing of the bid, shall render the Supplier non-responsive.</p>
C.2.13.5	<p><i>Add the following:</i></p> <p>The employer’s address for delivery of Supplier offers and identification details to be shown on each Supplier offer package are:</p> <p><b>Location of Supplier box:</b> Department of Health  <b>Physical address:</b> Eastern Cape Department of Health  Global Life Center, SCM Unit  c/o Phalo Avenue and R63  Bhisho</p> <p><b>Identification details:</b> Tender No. <b>SCMU3-24/25-0661-HO</b>  <b>Title of Supplier: SCHEDULE MAINTENANCE OF MEDICAL GAS AND ASSOCIATED EQUIPMENT IN CLUSTER FOUR (4) - BCM AND AMATHOLE DISTRICT – HEALTH FACILITIES</b>  Sealed Tender with the identification details on the envelope must be placed in the appropriate official Tender box at the abovementioned address</p>
C.2.13.6	<p><i>Add the following:</i></p> <p>A two-envelope procedure will not be followed.</p>
C.2.13.9	Telephonic, telegraphic, telefax, facsimile or e-mailed tender offers will not be accepted.
C.2.13.10	<p><i>Add the following:</i></p> <p>By signing the offer part of C1.1 Form of Offer and Acceptance the Supplier declares that all information provided in the Supplier submission is correct and free of misrepresentation.</p>
C.2.15.1	<p><i>Add the following to C.2.15.1:</i></p> <p>The closing time for submission of Supplier offers is as stated in the Tender Notice and Invitation to Supplier. Telephonic, telegraphic, telex, facsimile or e-mailed Supplier offers will not be accepted.</p>

C.2.16.1	<i>Add the following to C.2.16.1:</i> The Supplier offer validity period is <b>12 weeks</b> .
C.2.17	<i>Insert the following at the end of the last sentence of the note:</i> “.....elect to do so, provided that the competitive position of the preferred Supplier is not affected”
	A Supplier may be rejected as non-responsive if the Supplier fails to provide any clarification requested by the employer within the time for submission stated in the employer’s written request for such clarification. The clarification of a Supplier offer includes the provision of the priced bills of quantities (Part C2.2: Bills of Quantities).
C.2.18	<i>Add the following:</i>  The tenderer will be required to submit his fully priced Bills of Quantities (complete document inclusive of all parts) together with this tender.
C.3.4	<i>Add the following:</i> The opening of the tender offers will take place immediately after the closing time of tenders.
C.3.8	<i>Add the following:</i> Suppliers will be considered non-responsive if, inter alia: <ol style="list-style-type: none"> <li>1. the Supplier has failed to attend the compulsory briefing meeting.</li> <li>2. the Supplier is submitted by Telegraphic, telephonic, telex, facsimile (faxed) or email media or if the Supplier is submitted late.</li> <li>3. the Supplier does not comply with the eligibility criteria listed in F2.1 above.</li> <li>4. The resolution for signatory is not attached to the Supplier submission on a company letterhead.</li> <li>5. the Supplier has failed to fully complete and sign SBD1, SBD4 &amp; the Compulsory Enterprise Questionnaire. Failure to submit the required information shall be subjected to a request from SCM to the bidder to submit the required information within 7 days of the request. Failure to comply with such request will result in the bid being deemed non-responsive</li> </ol>
C.3.11.1	<i>Add the following:</i>  This is a two-stage evaluation process: Stage 1: Administrative compliance Stage 2: Evaluation for price and preference  The following procedure will be used to evaluate tender offers received: <ol style="list-style-type: none"> <li>a. Open and record tender offers received</li> <li>b. Determine whether or not tender offers are complete.</li> <li>c. Determine whether or not tender offers received are responsive and reject non-responsive tenders.</li> <li>d. Perform Technical Evaluation of Equipment as per technical Data Sheet.</li> <li>e. A bid with Equipment proposed that does not conform to scope of work or specification will be found nonresponsive.</li> <li>f. Score tender evaluation points for each price</li> <li>g. Confirm that tenderers are eligible for the preferences claimed and, if so, score tender evaluation points for preferencing.</li> <li>h. Calculate total tender evaluation points</li> <li>i. Rank tender offers from the highest number of tender evaluation points to the lowest.</li> <li>j. Perform a risk analysis on the tenderer having the highest ranking/number of points to ascertain if the submission presents an acceptable risk to the employer.</li> <li>k. Recommend the tenderer with the highest number of tender evaluation points for the award of the contract, unless there are compelling and justifiable reasons not to do so.</li> </ol>

	<p>The Employer shall in the evaluation of tender offers take due account of the Tenderer's past performance in the execution of similar engineering works of comparable magnitude, and the degree to which possesses the necessary technical, financial and other resources to enable him to complete the Works successfully with the contract period. The tenderer shall be required to satisfy the Employer and the Engineer as to his ability to perform and complete the Works timeously, safely and with satisfactory quality, and furnish details in section T2.2z of contracts of a similar nature and magnitude which they have successfully executed in the past.</p> <p>The Employer is restricted in accordance with clause 7.(c)(iii) of the Construction Regulations, 2014, to only appoint a contractor to whom he is satisfied has the necessary competencies and resource to carry out the work safely.</p> <p>Submitting inferior and inadequate information relating to health and safety shall be regarded as justifiable and compelling reasons not to accept the tender offer of the tenderer scoring the highest number of tender evaluation points.</p>
C.3.11.3	<p>The procedure for the evaluation of responsive tenders is <b>Method 1: Administrative, Price and Specific Goals</b></p>
C.3.11.7	<p><i>Add the following:</i></p> <p>The financial offer will be scored using <b>Formula 2 (Option 1):</b></p> $N_{FO} = (1 - (P - P_M) / P_m) \times W_1$ <p>Where.</p> <p><math>N_{FO}</math> = number of Supplier evaluation points awarded for financial offer  <math>W_1</math> = the maximum possible number of Supplier evaluation points Tender  <math>P_M</math> = the comparative offer of the most favourable Supplier offer  <math>P</math> = the comparative offer of the Supplier offer under consideration</p>
C.3.11.8	<p>Up to 100 minus <math>W_1</math> (refer C.3.11.7 above) Supplier evaluation points will be awarded to Suppliers according to their SPECIFIC GOALS status level, determined in accordance with section 9(1) of the Broad-Based Black Economic Empowerment Act (No 53 of 2003), and who have submitted original valid or valid, certified copies of SPECIFIC GOALS status verification certificates issued by either a verification agency accredited by the South African Accreditation System (SANAS) or a sworn affidavit in terms of the amended SPECIFIC GOALS codes. The points will be awarded as follows, based on the SPECIFIC GOALS status level of the Supplier:</p>

	<b>The specific goals allocated points in terms of this tender</b>	<b>Number of points allocated (80/20 system) (To be completed by the organ of state)</b>	<b>Number of points claimed (80/20 system) (To be completed by the tenderer)</b>
	Historically Disadvantaged Individuals Ownership	20% (4)	
	Women Ownership	20% (4)	
	Youth Ownership	20% (4)	
	Disability Ownership	20% (4)	
	Military Veterans Ownership	10% (2)	
	Locality Ownership (Eastern Cape)	10% (2)	
	TOTAL	100% (20)	
<p>A trust, consortium or joint venture will qualify for points for their SPECIFIC GOALS status level as a legal entity, provided that the entity submits their SPECIFIC GOALS status level certificate. A trust, consortium or joint venture will qualify for points for their SPECIFIC GOALS status level as an unincorporated entity, provided that the entity submits their consolidated SPECIFIC GOALS scorecard as if they were a group</p>			
C.3.11.10	<p><i>Add the following new sub-clause:</i>  The Employer will perform a risk analysis in respect of the following:</p> <p>(a) reasonableness of the financial offer  (b) reasonableness of unit rates and prices  (c) the Suppliers ability to fulfil its obligations in terms of the tender document, that is, that the Supplier can demonstrate that he/she possesses the necessary professional and technical qualifications, professional and technical competence, financial resources, equipment and other physical facilities, managerial capability, reliability, experience, reputation, personnel to perform the contract, etc.</p>		

C.3.13.1	<p>Supplier offers will only be accepted if:</p> <ul style="list-style-type: none"> <li>a) the Supplier is registered and in good standing with the South African Revenue Service (SARS) or proof that he or she has made arrangement with SARS to meet his or her outstanding tax obligations. This will be verified by the Employer on the Centralized Supplier Database. Where the recommended bidder is not tax compliant, the bidder will be notified of the non-compliant status and be granted seven (7) working days to rectify their compliance status with the SARS. The bidder must thereafter provide the Department with proof of its tax compliance which must be verified via the CSD or eFiling.</li> <li>b) the Supplier or any of its directors is not listed on the Register of Supplier Defaulters in terms of the Prevention and Combating of Corrupt Activities Act of 2004 as a person prohibited from doing business with the public sector.</li> <li>c) the Supplier or any of its directors is not listed on the Database of Restricted Suppliers kept by the National Treasury and updated from time to time.</li> <li>c) the Supplier has not: <ul style="list-style-type: none"> <li>i) abused the Employer's Supply Chain Management System.</li> </ul> </li> <li>d) The Supplier has completed the Compulsory Enterprise Questionnaire and there are no conflicts of interest which may impact on the Supplier's ability to perform the contract in the best interests of the employer or potentially compromise the Supplier process.</li> </ul>
C.3.17	<p><i>Add the following:</i></p> <p>The number of paper copies of the signed contract to be provided by the Employer is one.</p>

C.4	<p><b>ADDITIONAL CONDITIONS OF TENDER</b></p> <p>The additional conditions of Tender are:</p>
C.4.1	<p><b>Invalid Tender</b></p> <p>Suppliers shall be considered invalid and shall be endorsed and recorded as such in the Supplier opening record, by the responsible official who opened the Tender, in the following circumstances:</p> <ul style="list-style-type: none"> <li>a) if the Supplier offer is not submitted on the Form of Offer and Acceptance bound into this Tender document (form C1.1, Part C1: Agreements and Contract Data);</li> <li>b) if the Form of Offer and Acceptance has not been completed or has not been signed by the authorised representative of the Supplier</li> <li>c) if the Form of Offer and Acceptance is signed, but the name of the Supplier is not stated or is indecipherable</li> <li>d) if the Supplier offer is not completed in non-erasable ink;</li> </ul>
cC.4.2	<p><b>Negotiations with preferred Suppliers</b></p> <p>The Employer may negotiate the final terms of a contract with Suppliers identified through a competitive Supplying process as preferred Suppliers provided that such negotiation:</p> <ul style="list-style-type: none"> <li>a) does not allow any preferred Supplier a second or unfair opportunity;</li> <li>b) is not to the detriment of any other Supplier; and</li> <li>c) does not lead to a higher price than the Supplier as submitted.</li> </ul> <p>Minutes of any such negotiations shall be kept for record purposes</p>

C.4.3	<p><b>General supply chain management conditions applicable to Supplier</b>  In terms of its Supply Chain Management Policy the Employer may not consider a Supplier unless the provider who submitted the Supplier:</p> <p>a) has furnished the Employer with that provider's:</p> <ul style="list-style-type: none"> <li>• full name;</li> <li>• identification number or company or other registration number; and</li> <li>• tax reference number and VAT registration number, if any;</li> </ul> <p>b) has indicated whether:</p> <ul style="list-style-type: none"> <li>• the provider is in the service of the state, or has been in the service of the state in the previous twelve months;</li> <li>• the provider is not a natural person, whether any of the directors, managers, principal shareholders or stakeholders is in the service of the state, or has been in the service of the state in the previous twelve months; or</li> <li>• whether a spouse, child or parent of the provider or of a director, manager, shareholder or stakeholder referred to above is in the service of the state, or has been in the service of the state in the previous twelve months.</li> </ul> <p>Irrespective of the procurement process followed, the Employer is prohibited from making an award to:</p> <ul style="list-style-type: none"> <li>• a person who is in the service of the state;</li> <li>• a juristic entity of which any director, manager, principal shareholder or stakeholder is in the service of the state;</li> <li>• an advisor or consultant contracted with the Employer; or</li> <li>• a person, advisor or corporate entity involved with the tender specification committee, or a director of such corporate entity.</li> </ul> <p>In this regard, Suppliers shall complete Returnable Schedules: Compulsory Enterprise Questionnaire. Failure to complete this schedule will result in the Supplier not being considered further.</p>
C.4.4	<p><b>Combating abuse of the Supply Chain Management Policy</b>  In terms of the its Supply Chain Management Policy, the Employer may reject the Supplier of any Supplier if that Supplier or any of its directors has:</p> <p>a) failed, during the last five years, to perform satisfactorily on a previous contract with the Employer or any other organ of state after written notice was given to that Supplier that performance was unsatisfactory;</p> <p>b) abused the supply chain management system of the Employer or has committed any improper conduct in relation to this system;</p> <p>c) been convicted of fraud or corruption during the past five years;</p> <p>d) willfully neglected, reneged on or failed to comply with any government, municipal or other public sector contract during the past five years; or</p> <p>e) been listed with the Register of Supplier Defaulters in terms of section 29 of the Prevention and Combating of Corrupt Activities Act (No 12 of 2004) or has been listed on National Treasury's database as a person or juristic entity prohibited from doing business with the public sector.</p> <p>In this regard, Suppliers shall complete Part T2.2: Returnable Schedules: Certificate of Independent Supplier Determination and Declaration of Supplier's Past Supply Chain Management Practices. Failure to complete these schedules will result in the Supplier not being considered further.</p>

C.4.6	<p><b>Claims arising after submission of Supplier</b></p> <p>No claim for any extras arising out of any doubt or obscurity as to the true intent and meaning of anything contained in the Conditions of Contract, Scope of Work and Pricing Data, will be admitted by the Employer after the submission of any Tender and the Supplier shall be deemed to have:</p> <ol style="list-style-type: none"> <li>1) read and fully understood the whole text of the Contract Data, Scope of Work and Pricing Data and thoroughly acquainted himself with the nature of the works proposed and generally of all matters which may influence the Contract.</li> <li>2) visited the site of any proposed works.</li> <li>3) requested the Employer or his duly authorized agent to make clear the actual requirements of anything contained in the Scope of Work and Pricing Data, the exact meaning or interpretation of which is not clearly intelligible to the Supplier.</li> <li>4) received any Addenda to the Supplier documents which have been issued in accordance with the Employer's Supply Chain Management Policy.</li> </ol> <p>Before submission of any Supplier, the Supplier should check the number of pages, and if any are found to be missing or duplicated, or the figures or writing indistinct, or if the Pricing Data contain any obvious errors, the Supplier must apply to the Employer's Agent at once to have the same rectified, as no liability will be admitted by the Employer in respect of errors in any Supplier due to the foregoing.</p>
C.4.7	<p><b>Imbalance in Supplier rates</b></p> <p>In the event of Supplier rates or lump sums being declared by the Employer to be unacceptable to it because they are either excessively low or high or not in proper balance with other rates or lump sums, the Supplier may be required to produce evidence and advance arguments in support of the Supplier rates or lump sums objected to. If, after submission of such evidence and any further evidence requested, the Employer is still not satisfied with the supplied rates or lump sums objected to, it may request the Supplier to amend these rates and lump sums along the lines indicated by it.</p>
	<p>The Supplier will then have the option to alter and/or amend the rates and lump sums objected to and such other related amounts as are agreed on by the Employer, but this shall be done without altering the Supplier offer as Supplied or, if applicable, the corrected total of prices in accordance with C.3.9.3. Should the Supplier fail to amend his tender in a manner acceptable to the Employer, the Employer may reject the Tender.</p>

C.4.8	<p>The Employer shall not formally issue Tender documents in electronic format as contemplated in C.2.13.2 and C.2.13.3 and shall only issue Supplier documents in hardcopy. An electronic version of the issued Tender documents may be made available to the Supplier, upon written request in terms of this clause, subject to the following:</p> <ul style="list-style-type: none"><li>(a) Electronic copies of the contract document, or parts thereof, will only be provided to Suppliers who have been issued with the Tender documents as contemplated in C.1.2 in hardcopy.</li><li>(b) The electronic version shall not be regarded as a substitute for the issued Tender documents.</li><li>(c) The Employer shall not accept tender submitted in electronic format. Suppliers may not complete and submit a printed copy of the electronic version of the Tender document or part thereof. Only those Suppliers that have been completed on the issued hard copy Tender document shall be considered.</li><li>(d) The Employer accepts no responsibility or liability arising from any reliance on or use of the electronic version provided in terms of this clause. The Employer further does not guarantee that the electronic version corresponds with the issued Tender documents in all respects. Suppliers are alerted to the fact that electronic versions of the Tender documents may not reflect any notices or addenda that amend the Tender document.</li><li>(e) Any non-compliance with these provisions, including effecting any unauthorized alterations to the Supplier document as contemplated in C.2.11, shall render the Tender invalid. The Employer reserves the right to take any action against such Supplier allowed in law including, in circumstances where the Supplier had already been awarded, the right to cancel the contract.</li><li>(f) In requesting the electronic version of the Tender document or parts thereof, the Supplier is deemed to have read, understood and accepted all of the above conditions.</li></ul>

## SBD 4: DECLARATION OF INTEREST

<b>PROJECT NAME</b>	<b>SCHEDULE MAINTENANCE OF MEDICAL GAS AND ASSOCIATED EQUIPMENT IN CLUSTER FOUR (4) – NELSON MANDELA AND SARAH BAARTMAN DISTRICT – HEALTH FACILITIES</b>
<b>TENDER No.</b>	<b>SCMU3-24/25-0661-HO</b>

### BIDDER'S DISCLOSURE

#### I. PURPOSE OF THE FORM

Any person (natural or juristic) may make an offer or offers in terms of this invitation to bid. In line with the principles of transparency, accountability, impartiality, and ethics as enshrined in the Constitution of the Republic of South Africa and further expressed in various pieces of legislation, it is required for the bidder to make this declaration in respect of the details required hereunder.

Where a person/s are listed in the Register for Tender Defaulters and / or the List of Restricted Suppliers, that person will automatically be disqualified from the bid process.

#### 2. Bidder's declaration

2.1 Is the bidder, or any of its directors / trustees / shareholders / members / partners or any person having a controlling interest<sup>1</sup> in the enterprise?

Employed by the state?

**YES/NO**

2.1.1 If so, furnish particulars of the names, individual identity numbers, and, if applicable, state employee numbers of sole proprietor/ directors / trustees / shareholders / members/ partners or any person having a controlling interest in the enterprise, in table below.

Full Name	Identity Number	Name of State institution

2.2 Do you, or any person connected with the bidder, have a relationship with any person who is employed by the procuring institution? **YES/NO**

2.2.1 If so, furnish particulars: .....

2.3 Does the bidder or any of its directors / trustees / shareholders / members / partners or any person having a controlling interest in the enterprise have any interest in any other related enterprise whether or not they are bidding for this contract? **YES/NO**

2.3.1 If so, furnish particulars:  
.....

#### 3 DECLARATION

I, the undersigned, (name)..... in submitting the accompanying bid, do hereby make the following statements that I certify to be true and complete in every respect:

- 3.1 I have read and I understand the contents of this disclosure;
- 3.2 I understand that the accompanying bid will be disqualified if this disclosure is found not to be true and complete in every respect;
- 3.3 The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However, communication between partners in a joint venture or consortium<sup>2</sup> will not be construed as collusive bidding.

<sup>1</sup> the power, by one person or a group of persons holding the majority of the equity of an enterprise, alternatively, the person/s having the deciding vote or power to influence or to direct the course and decisions of the enterprise.

<sup>2</sup> Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an

- 3.4 In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications, prices, including methods, factors or formulas used to calculate prices, market allocation, the intention or decision to submit or not to submit the bid, bidding with the intention not to win the bid and conditions or delivery particulars of the products or services to which this bid invitation relates.
- 3.4 The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.
- 3.5 There have been no consultations, communications, agreements or arrangements made by the bidder with any official of the procuring institution in relation to this procurement process prior to and during the bidding process except to provide clarification on the bid submitted where so required by the institution; and the bidder was not involved in the drafting of the specifications or terms of reference for this bid.
- 3.6 I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.

I CERTIFY THAT THE INFORMATION FURNISHED IN PARAGRAPHS 1, 2 and 3 ABOVE IS CORRECT.  
 I ACCEPT THAT THE STATE MAY REJECT THE BID OR ACT AGAINST ME IN TERMS OF PARAGRAPH 6 OF  
 PFMA SCM INSTRUCTION 03 OF 2021/22 ON PREVENTING AND COMBATING ABUSE IN THE SUPPLY CHAIN  
 MANAGEMENT SYSTEM SHOULD THIS DECLARATION PROVE TO BE FALSE.

**PREFERENCE POINTS CLAIM FORM IN TERMS OF THE PREFERENTIAL PROCUREMENT REGULATIONS 2022**

This preference form must form part of all tenders invited. It contains general information and serves as a claim form for preference points for specific goals.

**NB: BEFORE COMPLETING THIS FORM, TENDERERS MUST STUDY THE GENERAL CONDITIONS, DEFINITIONS AND DIRECTIVES APPLICABLE IN RESPECT OF THE TENDER AND PREFERENTIAL PROCUREMENT REGULATIONS, 2022**

**I. GENERAL CONDITIONS**

I.1 The following preference point systems are applicable to invitations to tender:

- the 80/20 system for requirements with a Rand value of up to R50 000 000 (all applicable taxes included); and
- the 90/10 system for requirements with a Rand value above R50 000 000 (all applicable taxes included).

I.2 **To be completed by the organ of state**

*(delete whichever is not applicable for this tender).*

The applicable preference point system for this tender is the **80/20** preference point system.

The lowest/ highest acceptable tender will be used to determine the accurate system once tenders are received.

I.3 Points for this tender (even in the case of a tender for income-generating contracts) shall be awarded for:

- (a) Price; and
- (b) Specific Goals.

I.4 **To be completed by the organ of state:**

The maximum points for this tender are allocated as follows:

	<b>POINTS</b>
<b>PRICE</b>	80
<b>SPECIFIC GOALS</b>	20
<b>Total points for Price and SPECIFIC GOALS</b>	<b>100</b>

I.5 Failure on the part of a tenderer to submit proof or documentation required in terms of this tender to claim points for specific goals with the tender, will be interpreted to mean that preference points for specific goals are not claimed.

I.6 The organ of state reserves the right to require of a tenderer, either before a tender is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the organ of state.

**2. DEFINITIONS**

- (a) **“tender”** means a written offer in the form determined by an organ of state in response to an invitation to provide goods or services through price quotations, competitive tendering process or any other method envisaged in legislation;
- (b) **“price”** means an amount of money tendered for goods or services, and includes all applicable taxes

- less all unconditional discounts;
- (c) **“rand value”** means the total estimated value of a contract in Rand, calculated at the time of bid invitation, and includes all applicable taxes;
- (d) **“tender for income-generating contracts”** means a written offer in the form determined by an organ of state in response to an invitation for the origination of income-generating contracts through any method envisaged in legislation that will result in a legal agreement between the organ of state and a third party that produces revenue for the organ of state, and includes, but is not limited to, leasing and disposal of assets and concession contracts, excluding direct sales and disposal of assets through public auctions; and
- (e) **“the Act”** means the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000).

### 3. FORMULAE FOR PROCUREMENT OF GOODS AND SERVICES

#### 3.1. POINTS AWARDED FOR PRICE

##### 3.1.1 THE 80/20 PREFERENCE POINT SYSTEMS

A maximum of 80 or 90 points is allocated for price on the following basis:

**80/20**

$$Ps = 80 \left( 1 - \frac{Pt - Pmin}{Pmin} \right)$$

Where

Ps = Points scored for price of tender under consideration

Pt = Price of tender under consideration

Pmin = Price of lowest acceptable tender

#### 3.2. FORMULAE FOR DISPOSAL OR LEASING OF STATE ASSETS AND INCOME GENERATING PROCUREMENT

##### 3.2.1. POINTS AWARDED FOR PRICE

A maximum of 80 or 90 points is allocated for price on the following basis:

**80/20**

$$Ps = 80 \left( 1 + \frac{Pt - Pmax}{Pmax} \right)$$

Where

Ps = Points scored for price of tender under consideration

Pt = Price of tender under consideration

Pmax = Price of highest acceptable tender

### 4. POINTS AWARDED FOR SPECIFIC GOALS

- 4.1. In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the goals stated in table I below as may be supported by proof/ documentation stated in the conditions of this tender:
- 4.2. In cases where organs of state intend to use Regulation 3(2) of the Regulations, which states that, if it is unclear whether the 80/20 preference point system applies, an organ of state must, in the tender documents, stipulate in the case of—
- (a) an invitation for tender for income-generating contracts, that either the 80/20 preference point system will apply and that the highest acceptable tender will be used to determine the applicable

preference point system; or

- (b) any other invitation for tender, that either the 80/20 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system, then the organ of state must indicate the points allocated for specific goals for both the 80/20 preference point system.

**Table 1: Specific goals for the tender and points claimed are indicated per the table below.**

**(Note to organs of state: Where either the 80/20 preference point system is applicable, corresponding points must also be indicated as such.**

**Note to tenderers: The tenderer must indicate how they claim points for each preference point system.)**

The specific goals allocated points in terms of this tender	Number of points allocated (80/20 system) (To be completed by the organ of state)	Number of points claimed (80/20 system) (To be completed by the tenderer)
Historically Disadvantaged Individuals Ownership	20% (4)	
Women Ownership	20% (4)	
Youth Ownership	20% (4)	
Disability Ownership	20% (4)	
Military Veterans Ownership	10% (2)	
Locality Ownership (Eastern Cape)	10% (2)	
<b>TOTAL</b>	<b>100% (20)</b>	

- a) Service providers must submit proof of its Specific Goals points claimed / status of contributor.
- b) The Specific Goals supporting documents required to verify claimed points may inline with the specified requirements include:
- Historically Disadvantaged Individuals Ownership: Proof of ownership (CIPRO certificate) with id no.
  - Women Ownership: Ownership: Proof of ownership (CIPRO certificate) with id no.
  - Youth Ownership: Ownership: Proof of ownership (CIPRO certificate) with id no.
  - Disability Ownership: Proof of ownership (CIPRO certificate) with valid medical documentary proof.
  - Military Veterans Ownership: Proof of ownership (CIPRO certificate) with valid proof of veteran status.
  - Ownership: Proof of business address (municipal account or valid lease agreement)
  - Updated CSD report

**DECLARATION WITH REGARD TO COMPANY/FIRM**

4.3. Name of company/firm.....

4.4. Company registration number: .....

4.5. TYPE OF COMPANY/ FIRM

- Partnership/Joint Venture / Consortium
- One-person business/sole propriety
- Close corporation
- Public Company

Personal Liability Company  
(Pty) Limited  
Non-Profit Company  
State Owned Company  
[TICK APPLICABLE BOX]

4.6. I, the undersigned, who is duly authorised to do so on behalf of the company/firm, certify that the points claimed, based on the specific goals as advised in the tender, qualifies the company/ firm for the preference(s) shown and I acknowledge that:

- i) The information furnished is true and correct;
- ii) The preference points claimed are in accordance with the General Conditions as indicated in paragraph I of this form;
- iii) In the event of a contract being awarded as a result of points claimed as shown in paragraphs 1.4 and 4.2, the contractor may be required to furnish documentary proof to the satisfaction of the organ of state that the claims are correct;
- iv) If the specific goals have been claimed or obtained on a fraudulent basis or any of the conditions of contract have not been fulfilled, the organ of state may, in addition to any other remedy it may have –
  - (a) disqualify the person from the tendering process;
  - (b) recover costs, losses or damages it has incurred or suffered as a result of that person’s conduct;
  - (c) cancel the contract and claim any damages which it has suffered as a result of having to make less favourable arrangements due to such cancellation;
  - (d) recommend that the tenderer or contractor, its shareholders and directors, or only the shareholders and directors who acted on a fraudulent basis, be restricted from obtaining business from any organ of state for a period not exceeding 10 years, after the *audi alteram partem* (hear the other side) rule has been applied; and
  - (e) forward the matter for criminal prosecution, if deemed necessary.

# **C1.1a Final Summary Page**

**C1.1 FORM OF OFFER AND ACCEPTANCE (SIGNED)**

**OFFER**

The Employer, identified in the acceptance signature block, has solicited offers to enter into a Contract for the procurement of:

**CONTRACT NUMBER: SCMU3-24/25-0661-HO**  
**SCHEDULE MAINTENANCE OF MEDICAL GAS AND ASSOCIATED EQUIPMENT IN CLUSTER FOUR (4) – NELSON MANDELA AND SARAH BAARTMAN DISTRICT – HEALTH FACILITIES**

The Tenderer, identified in the offer signature block below, has examined the documents listed in the Tender Data and addenda thereto as listed in the tender schedules, and by submitting this offer has accepted the conditions of tender.

By the representative of the Tenderer, deemed to be duly authorized, signing this part of this form of offer and acceptance, the Tenderer offers to perform all of the obligations and liabilities of the Contractor under the Contract including compliance with all its terms and conditions according to their true intent and meaning for an amount to be determined in accordance with the Conditions of Contract identified in the Contract Data.

The offered total of the prices inclusive of Value-Added Tax is:

.....  
.....  
..... Rand (in words)  
R..... (in figures)

This offer may be accepted by the Employer by signing the acceptance part of this form of offer and acceptance and returning one copy of this document to the Tenderer before the end of the period of validity stated in the Tender Data, whereupon the Tenderer becomes the party named as the Contractor in terms of the Conditions of Contract identified in the Contract data.

**For and on behalf of the Tenderer:**

Name .....  
Capacity .....  
Signature ..... Date: .....

Name and address of tenderer:  
.....  
.....  
.....

Witness Name .....  
Witness Signature ..... Date: .....

**ACCEPTANCE**

By signing this part of this form of offer and acceptance, the Employer identified below accepts the Tenderer’s offer. In consideration thereof, the Employer shall pay the Contractor the amount due in accordance with the Conditions of Contract identified in the Contract data. Acceptance of the Tenderer’s offer shall form an agreement between the Employer and the Tenderer upon the terms and conditions contained in this agreement and in the Contract that is the subject of this agreement.

The terms of the Contract are contained in:

- Part C1: Agreements and Contract data (which includes this agreement)
- Part C2: Pricing data
- Part C3: Scope of work
- Part C4: Site Information and drawings and documents or parts thereof, which may be incorporated by reference into the above listed Parts.

Deviations from and amendments to the documents listed in the Tender Data and any addenda thereto, as listed in the returnable schedules as well as any changes to the terms of the offer agreed by the Tenderer and the Employer during this process of offer and acceptance, are contained in the schedule of deviations attached to and forming part of this agreement. No amendments to or deviations from said documents are valid unless contained in this schedule, which must be duly signed by the authorised representative(s) of both parties.

The Tenderer shall, within two weeks after receiving a completed copy of this agreement including the schedule of deviation (if any), contact the Employer’s Agent (whose details are given in the Contract data) to arrange the delivery of any securities, bonds, guarantees, proof insurance and any other documentation to be provided in terms of the Conditions of Contract identified in the Contract data at or just after, the date this Agreement comes into effect. Failure to fulfil any of these obligations in accordance with those terms shall constitute a repudiation of this agreement.

Notwithstanding anything contained herein, this agreement comes into effect on the date when the Tenderer receives one fully completed original copy of this document, including the schedule of deviations (if any). Unless the Tenderer (now Contractor), within five (5) working days of the date of such receipt, notifies the Employer in writing of any reason why he cannot accept the contents of this agreement, this agreement shall constitute a binding Contract between the parties.

**SCHEDULE OF DEVIATIONS**

Notes:

- The extent of deviations from the tender documents issued by the Employer prior to the tender closing date is limited to those permitted in terms of the conditions of tender.
- A Tenderer's covering letter shall not be included in the final Contract document. Should any matter in such letter, which constitutes a deviation as aforesaid become be the subject of agreements reached during the process of offer and acceptance, the outcome of such agreement shall be recorded here.
- Any other matter arising from the process of offer and acceptance either as a confirmation, clarification or change to the tender documents, and which it is agreed by the parties becomes an obligation of the Contract, shall also be recorded here.
- Any change or addition to the tender documents arising from the above agreements and recorded here, shall also be incorporated into the final draft of the Contract.

A Tenderer's covering letter shall not be included in the final Contract document. Should any matter in such letter, which constitutes a deviation as aforesaid, be the subject of agreements reached during the process of offer and acceptance, the outcome of such agreement shall be recorded here.

# **VOLUME 3: CONTRACT**

# PART C1: AGREEMENT AND CONTRACT DATA

## C1.1 FORM OF OFFER AND ACCEPTANCE (SIGNED)

### OFFER

The Employer, identified in the acceptance signature block, has solicited offers to enter into a Contract for the procurement of:

**CONTRACT NUMBER: SCMU3-24/25-0661-HO**  
**SCHEDULE MAINTENANCE OF MEDICAL GAS AND ASSOCIATED EQUIPMENT IN CLUSTER FOUR (4) – NELSON MANDELA AND SARAH BAARTMAN DISTRICT – HEALTH FACILITIES**

The Tenderer, identified in the offer signature block below, has examined the documents listed in the Tender Data and addenda thereto as listed in the tender schedules, and by submitting this offer has accepted the conditions of tender.

By the representative of the Tenderer, deemed to be duly authorized, signing this part of this form of offer and acceptance, the Tenderer offers to perform all of the obligations and liabilities of the Contractor under the Contract including compliance with all its terms and conditions according to their true intent and meaning for an amount to be determined in accordance with the Conditions of Contract identified in the Contract Data.

The offered total of the prices inclusive of Value-Added Tax is:

.....  
.....  
..... Rand (in words)  
R..... (in figures)

This offer may be accepted by the Employer by signing the acceptance part of this form of offer and acceptance and returning one copy of this document to the Tenderer before the end of the period of validity stated in the Tender Data, whereupon the Tenderer becomes the party named as the Contractor in terms of the Conditions of Contract identified in the Contract data.

### For and on behalf of the Tenderer:

Name .....  
Capacity .....  
Signature ..... Date: .....

Name and address of tenderer:  
.....  
.....  
.....

Witness Name .....  
Witness Signature ..... Date: .....

**ACCEPTANCE**

By signing this part of this form of offer and acceptance, the Employer identified below accepts the Tenderer’s offer. In consideration thereof, the Employer shall pay the Contractor the amount due in accordance with the Conditions of Contract identified in the Contract data. Acceptance of the Tenderer’s offer shall form an agreement between the Employer and the Tenderer upon the terms and conditions contained in this agreement and in the Contract that is the subject of this agreement.

The terms of the Contract are contained in:

- Part C1: Agreements and Contract data (which includes this agreement)
- Part C2: Pricing data
- Part C3: Scope of work
- Part C4: Site Information and drawings and documents or parts thereof, which may be incorporated by reference into the above listed Parts.

Deviations from and amendments to the documents listed in the Tender Data and any addenda thereto, as listed in the returnable schedules as well as any changes to the terms of the offer agreed by the Tenderer and the Employer during this process of offer and acceptance, are contained in the schedule of deviations attached to and forming part of this agreement. No amendments to or deviations from said documents are valid unless contained in this schedule, which must be duly signed by the authorised representative(s) of both parties.

The Tenderer shall, within two weeks after receiving a completed copy of this agreement including the schedule of deviation (if any), contact the Employer’s Agent (whose details are given in the Contract data) to arrange the delivery of any securities, bonds, guarantees, proof insurance and any other documentation to be provided in terms of the Conditions of Contract identified in the Contract data at or just after, the date this Agreement comes into effect. Failure to fulfil any of these obligations in accordance with those terms shall constitute a repudiation of this agreement.

Notwithstanding anything contained herein, this agreement comes into effect on the date when the Tenderer receives one fully completed original copy of this document, including the schedule of deviations (if any). Unless the Tenderer (now Contractor), within five (5) working days of the date of such receipt, notifies the Employer in writing of any reason why he cannot accept the contents of this agreement, this agreement shall constitute a binding Contract between the parties.

**For and on behalf of the Employer:**

Witness Name .....

Witness Signature ..... Date: .....

## SCHEDULE OF DEVIATIONS

Notes:

- The extent of deviations from the tender documents issued by the Employer prior to the tender closing date is limited to those permitted in terms of the conditions of tender.
- A Tenderer's covering letter shall not be included in the final Contract document. Should any matter in such letter, which constitutes a deviation as aforesaid become be the subject of agreements reached during the process of offer and acceptance, the outcome of such agreement shall be recorded here.
- Any other matter arising from the process of offer and acceptance either as a confirmation, clarification or change to the tender documents, and which it is agreed by the parties becomes an obligation of the Contract, shall also be recorded here.
- Any change or addition to the tender documents arising from the above agreements and recorded here, shall also be incorporated into the final draft of the Contract.

A Tenderer's covering letter shall not be included in the final Contract document. Should any matter in such letter, which constitutes a deviation as aforesaid, be the subject of agreements reached during the process of offer and acceptance, the outcome of such agreement shall be recorded here.

## Annexure CD1 – Demerit Table and Penalty Calculation System

<b>PROJECT NAME</b>	<b>SCHEDULE MAINTENANCE OF MEDICAL GAS AND ASSOCIATED EQUIPMENT IN CLUSTER FOUR (4) – NELSON MANDELA AND SARAH BAARTMAN DISTRICT – HEALTH FACILITIES</b>
<b>TENDER No.</b>	<b>SCMU3-24/25-0661-HO</b>

Attach document here

## **ANNEXURE CD1: DEMERIT TABLE AND PENALTY CALCULATION SYSTEM**

If the Contractor fails to remedy any sub-standard work within the time frame stipulated by the Service Manager, the conditions as per GM 3.1 will apply.

The contractor will incur demerit points for specific measurable poor performance incidents which can lead to the early termination of the Contract as described below.

DESCRIPTION	DEMERIT POINT
Failure to submit the Functional Condition Assessment Report by the due date	1 point/ week that the report is late
Exceeding the maximum allowable response and resolve time for a P1 Breakdown	3 points/ incident
Exceeding the maximum allowable response and resolve time for a P2 Breakdown	2 points/ incident
Exceeding the maximum allowable response and resolve time for a P3 or P4 Breakdown	1 point/ incident
Not meeting the Planned Maintenance Performance KPI	1 point/ incident
Not meeting the Rework Rate KPI	1 point/ incident
Not meeting the Contractor Contactability KPI	1 point/ incident

The demerit points will accumulate and trigger the following actions:

ACCUMULATED DEMERIT POINTS	ACTION
6	Service Manager to discuss Contractor's performance deviation and agree on improvement measures. If improvement measures are successful and the Contractor has been consistently meeting the required KPI targets for the following two months, the demerit points can be cancelled by the Service Manager.
12	Service Manager to issue notice that Contractor is in Breach of Contract and that Contract Can be terminated if the Contractor does not improve his performance in line with the agreed improvement measures.
15	Service Manager to Terminate Contract as per Clause 9 of the NEC3 Term Service Contract.

Poor performance by the Contractor due to late payments by the Employer will not incur demerit points.

Financial penalties, as per the requirements of Secondary Options Clause X17, will be applied on the effected payments at 1% penalty per demerit point by the Service Manager, in the month that the demerit points are allocated to the Contractor.

## Annexure CD2 – Key Performance Indicator Listing

PROJECT NAME	SCHEDULE MAINTENANCE OF MEDICAL GAS AND ASSOCIATED EQUIPMENT IN CLUSTER FOUR (4) – NELSON MANDELA AND SARAH BAARTMAN DISTRICT – HEALTH FACILITIES
TENDER No.	SCMU3-24/25-0661-HO

### ANNEXURE CD2: KEY PERFORMANCE INDICATOR LISTING

The following Key Performance Indicators (KPI's) will be applicable to this Contract and must be monthly updated and reported on by the Service Manager:

KPI Name	KPI Equation		Frequency	Target
Emergency Job Rate	=	$\frac{\text{Total Number of Emergency Jobs Done}}{\text{Total Number of Jobs Done}} \times 100\%$	Monthly	<10%
Planned Maintenance Performance	=	$\frac{\text{Total Number of Scheduled Planned Maintenance Jobs Completed}}{\text{Total Number of Planned Maintenance Jobs Scheduled}} \times 100\%$	Monthly	100%
Cost Estimation Accuracy	=	$\frac{\text{Total Actual Cost of Work}}{\text{Total Estimated Cost Of Work}} \times 100\%$	Monthly	100%
Response Performance	=	$\frac{\text{Number of Service Calls Completed within Targeted Response Time}}{\text{Total Number of Service Calls}} \times 100\%$	Monthly	100%
Rework Rate	=	$\frac{\text{Number of Jobs Requiring Rework}}{\text{Total Number of Jobs Done}} \times 100\%$	Monthly	0%
SHEQ	=	Number of SHEQ Incidents Involving the Contractor	Monthly	0
Contractor Contactability	=	Number of Times that Contractor was not Contactable by the Call Cen <sub>tre</sub>	Monthly	0

The Service Manager must also ensure that the following items are routinely inspected and reported on by the Site Representative for each Health Facility:

1. Compliance with general maintenance requirements as specified in the Service Information.

2. Manner in which preventative and corrective maintenance is carried out.
3. Manner in which the Maintenance Control Plan is implemented and updated.
4. Manner in which Task Orders received from the Service Manager is dealt with.
5. Manner in which records are kept as required by the Service Information as well as the Occupational Health and Safety Act, Act No 85 of 1993 as amended.
6. Quality of services carried out for the month prior to the inspection.

**Note:** The aim of the above inspection is to determine that all the requirements of the specification have been complied with. Should the Service Manager believe that one or more maintenance items referred to above, have been neglected or totally ignored by the Contractor he may decide to implement demerit points as penalty as per X17 for each type of non-compliance found during the inspection.

**C1.3: FIXED PERFORMANCE GUARANTEE**

<b>Project title:</b>	<b>SCHEDULE MAINTENANCE OF MEDICAL GAS AND ASSOCIATED EQUIPMENT IN CLUSTER FOUR (4) – NELSON MANDELA AND SARAH BAARTMAN DISTRICT – HEALTH FACILITIES</b>
<b>Bid No:</b>	<b>SCMU3-24/25-0460-HO</b>

With reference to the contract between \_\_\_\_\_  
 \_\_\_\_\_ (hereinafter referred to  
 as the “**contractor**”) and the Eastern Cape Department of Health (hereinafter referred to as the  
 “**employer**”). **Contract No** .....for the  
 ..... (hereinafter referred to as  
 the  
 “**Contract**”)

in the amount of R \_\_\_\_\_,  
 \_\_\_\_\_ (in words),  
 (hereinafter referred to as the “**contract sum**”.)

I/We, \_\_\_\_\_  
 in my/our capacity as \_\_\_\_\_ and hereby  
 representing \_\_\_\_\_ (hereinafter referred to as the  
 “**guarantor**”) advise that the **guarantor** holds at the **employer’s** disposal the sum of  
 R \_\_\_\_\_, ( \_\_\_\_\_ )  
 being **2.5%** of the

**contract sum** (excluding VAT), for the due fulfilment of the contract.

The **guarantor** hereby renounces the benefits of the exceptions *non numeratae pecunia, non causa debiti; excussionis et divisionis*; and all other exceptions which could be pleaded against the enforcement of this guarantee, with the meaning and effect whereof I/we declare myself/ourselves to be conversant, and undertake to pay the **employer** the amount guaranteed, during the period when the claim is received by the **guarantor**, on receipt of a written demand from the **employer** to do so, and which demand the **employer** may make if the **employer** has a right of recovery against the **contractor** in terms of X13 of the contract.

Subject to the above, but without in any way detracting from the **employer's** rights to adopt any of the procedures provided for in the contract, the said demand can be made by the **employer**, at any stage prior to the expiry of this guarantee.

The amount paid by the **guarantor** in terms of this guarantee may be retained by the **employer** on condition that upon the issue of the last final **payment certificate**, the **employer** shall account to the **guarantor** showing how this amount has been expended and refund any balance due to the **guarantor**.

The **employer** shall have the absolute right to arrange his affairs with the **contractor** in any manner which the **employer** deems fit and the **guarantor** shall not have the right to claim his release on account of any conduct alleged to be prejudicial to the **guarantor**. Without derogating from the foregoing, any compromise, extension of the **construction period**, indulgence, release or variation of the **contractor's** obligation shall not affect the validity of this guarantee.

This undertaking is neither negotiable nor transferable, and

must be surrendered to the **guarantor** at the time when the **employer** accounts to the **guarantor** in terms of clause 4 above, or shall lapse on the date of the last **certificate of practical completion**; and shall not be interpreted as extending the **guarantor's** liability to anything more than payment of the amount guaranteed.

TENDER No.	SCMU3-24/25-0661-HO

## C2.1 Pricing Data

### GENERAL NOTES

s

#### 1 Documents

The Schedule of Quantities form part of the Document and must be read in conjunction with the other parts forming the Document in order to gain the full meanings of the descriptions of the work to be done and materials and equipment to be used.

#### 2 Alterations

No alterations, erasure or addition is to be made in the text of the Schedule of Quantities. Should any alteration, erasure or addition be made, it will not be recognised and the original wording of the Schedule of Quantities will be adhered to.

#### 3 Issue of Schedule of Quantities in Electronic Format

The Engineers will make the Schedule of Quantities available to Tenderers in electronic (Microsoft Excel Workbook) format, upon request.

If utilised for tender submission, the Tenderer will be responsible for ensuring the correctness of all calculations. The Consulting Electrical Engineers cannot be held responsible for any arithmetic inaccuracies in the electronic Schedule of Quantities.

#### 4 Pages

Before submitting his Tender, the Tenderer must check to ensure all pages have been included and are distinct. Should any obvious errors be found the Engineer is to be notified immediately to have them corrected as no liability whatsoever will be admitted by the Engineer in respect of errors in the Tender due to the foregoing.

#### 5 Responsibility

The responsibility for the accuracy of the quantities written into the Schedule of Quantities remains with the person who prepared the Schedule of Quantities. The Tenderer shall be relieved of the responsibility of measuring quantities at the Tender stage, and the Tender Price submitted shall be in respect of the quantities set out in the Schedule of Quantities.

The Tenderer will be required to make his assessment of items such as brackets, fixings, etc., from details stated in the Schedule of Quantities and shall make allowances therefore within the rates tendered.

Tenderers shall make due allowance in their rates for any item of incidental or contingent work, labour and materials not contained in the Schedule of Quantities, but deemed necessary for the successful completion of the Works.

#### 6 Offered rates in the Schedule of Quantities

The rates in the Schedule of Quantities shall be final and no further adjustment will be made.

#### 7 Currency

All the offered rates in the Schedule of Quantities shall be in South African Rands (R). Any items purchased overseas must be converted to local currency with all exchange rates and export charges.

#### 8 Unit Rates

Unless a separate rate for the supply and the installation of any item is specifically called for, the supply

and installation costs of any items shall be fully included in the unit price.

The description of each item shall, unless otherwise stated herein, be held to include making, conveying and delivering, unloading, storing, unpacking, hoisting, setting, fitting and fixing in position, cutting and waste, patterns, models and templates plant, temporary works, return of water establishment charges, profit and all other obligations arising out of the Conditions of Contract.

## **9 Variations**

Variations in the scope and extent of the work included in the Schedule of Quantities shall be allowed in order to meet the Employer's requirements and shall be measured and costed at the rates entered in the Schedule of Quantities, where appropriate, forming an addition to or deduction from the total of the Schedule of Quantities. Any items or variations for which rates have not been added in the Schedule of Quantities shall be agreed and priced as non-scheduled items in accordance with the provisions of the contract.

The rules governing the extent and costing of the variations shall be those provided for in the Conditions of Contract and Variations to Sub-contract.

Variations to the planning before the work has been executed shall be priced as above. Alterations to work already executed cannot necessarily be priced as above and must be reviewed on its merits.

The appropriate portions of the Preliminary & General Costs are to be adjusted proportionately to the nett additions or omissions of the variations to the contract

## **10 Preliminary and General**

Tenderers are to note that no allowances have been made in the Schedules of Quantities for the pricing of "Preliminary & General" items.

Tenderers shall therefore, include the "Preliminary & General" component of their Tender Price in their tendered rates for the respective items of equipment / Work.

## **11 Provisional Sums**

All Provisional Sums shall be expended only as directed by the Client and Engineer and any balance remaining shall be deducted from the amount of the Sub-contract sum. No work for which Provisional Sums are provided shall be commenced without written instructions from the Engineer.

All Provisional Sums may be utilised in full or in part. These Provisional Sums may be deleted in full or in part if not required.

## **12 Contingency Sums**

All Contingency Sums shall be expended only as directed by the Client and Engineer. No work for which Contingency Sums are provided shall be commenced without written instructions from the Engineer.

All Contingency Sums may be utilised in full or in part. These Contingency Sums may be deleted in full or in part if not required.

## **13 Dayworks**

The rates included for daywork shall not form part of the Tender Price, but Tenderers shall note that this item must be regarded as provisional and will only be payable to the Sub-contractor if and when a written order to this effect has been issued.

## **14 Value Added Tax**

This Schedule of Quantities shall be priced nett, excluding VAT.

VAT shall only be added at the Summary at the end of the Schedule of Quantities for the Principal Contract.

## **15 Adjustment**

The Employer reserves the right to adjust arithmetical errors in the extension of rates and totals in the Tender, and the Tenderer will be informed of the effect of any corrections on his Tender Sum prior to the award of the Contract. In no case will tendered rates be adjusted when correcting such errors.

In the event of there being tendered rates or prices which are declared by the Employer to be unacceptable to him, because they are either excessively low or high or not in proper balance with other rates, the Tenderer may be required to produce evidence and advance arguments in support of the tendered rates or prices objected to. If after submission of such evidence and any further evidence requested, the Employer is still not satisfied with the tendered rates or prices objected to, he may request the Tenderer to amend these rates and prices along the lines indicated by him.

The Tenderer may or may not thereupon alter and amend the rates and prices objected to and such other related prices as are agreed to by the Employer. Should the Tenderer fail to amend his Tender in a manner acceptable to the Employer, or at all, it may prejudice his Tender.

In the case of Tenders with Schedule of Quantities, the total corrected Tender Price in the Tender Form shall constitute the Sub-contract Sum. Tenderers are advised to check their extensions and additions. In the case of a Lump Sum Tender, the original uncorrected Tender Price shall be considered. The Engineer shall negotiate adjustments to the rates tendered in order to correct the arithmetical extension or addition, whilst the Tender Price as submitted, remains unaltered.

In either case, the Tenderer shall be notified of any arithmetical error in his Tender, and shall be given the opportunity to withdraw the Tender at this stage.

### **16 Quantification**

The successful Tenderer and the Employer or his Agent may agree that the total of any Schedule, including any variations by way of additions thereto or deductions there from, represents a fair and accurate quantification of the items set out in the Schedule of Quantities and the parties may agree final payment on that basis. In the event of any dispute as to the quantities, the disputed item or items shall be adjusted where necessary.

### **17 Ordering**

The quantities in this Schedule of Quantities shall not be used for ordering materials. The onus is on the successful Tenderer to order the correct quantities of materials as per the drawings.

### **18 Payment**

The measurement and payment of Work done shall be made in accordance with the unit price rates, and rates of pay listed in the Schedule of Quantities. No payment will be made for any item of associated work not specifically detailed in the Schedule of Quantities.

## **STANDARD SPECIFICATION FOR THE GENERAL MAINTENANCE AND REPAIRS OF MEDICAL GAS AND ASSOCIATED EQUIPMENT**

### **GM 1 GENERAL**

The successful Contractor will be responsible for, and is expected to, maintain all the plant and installations detailed in the Price List and the Inventory of Equipment attached to this Contract.

The intention of this comprehensive maintenance Contract is to assess the current medical gas and associated equipment's condition of each asset, repair what is needed, and maintain all equipment included as part of the Contract, in such a manner that, except for normal wear and tear, their condition don't deteriorate during the initial Service Period of 36 (thirty-six) months. Instruction to proceed with any work related to this Contract shall be authorized by means of a Task Order from the Service Manager.

As skills transfer are an integral part of this Contract the Employer's Operating and Maintenance staff will be responsible for all operating and daily inspections on the equipment, unless otherwise specified in the relevant asset specific Supplementary Specification and/or Relevant Price List.

The Contractor is required to provide pricing for the following items in the Contract as expanded on in this specification for each asset type and equipment quantity as covered by this Tender:

- Verify the Assets and update the Asset Inventory List that is provided with this Contract;
- Compile a Preliminary Maintenance Control Plan (Annexure I) to determine what routine servicing should take place on each type of equipment covered by the Contract, and at what frequency the services should take place during the Contract Period if this does not correlate to the Price List service frequency proposed by the Service Manager. With reference to the Price List and C3.1b Supplementary Specification requirements, the Contractor must submit an all-inclusive price and quantity of, for each Service Activity required. Service Activities may include Operations, Minor Services, Major Services or Statutory Inspections as detailed in the Supplementary Specification related to this bid as well as the Price List.
- Cost to do a full functionality test and condition assessment of all equipment and installations included in the Contract (after Contract award) and provide a priced key spare part pricelist for this equipment.
- Cost to provide a detailed Functional Condition Assessment Report based on the findings from the functionality test and condition assessment process.

It is to be noted that the aim of the maintenance Contract is NOT to replace random components at the beginning of the Contract in anticipation of a possible breakdown during the Service Period. Only known defects shall be repaired once approved by the Service Manager. It is the Contractor's responsibility to decide if he/she wants to visit each site and familiarize themselves with the actual condition of each installation before submitting a Tender, or to rely on the information as contained in the Inventory of Equipment that is attached to this Contract.

---

Maintenance of an installation shall be performed in accordance with the **Medical Gas Service Information** which will include:

1. This Standard Specification for the General Maintenance and Repairs of Electrical and Mechanical Installations,
2. The Technical Specifications that may be applicable,
3. The Supplementary Specification for this Asset Type,
4. The Operating and Maintenance Manuals (where applicable) for this Asset Type,
5. Relevant Inspection Check sheets for this Asset Type,
6. The Maintenance Control Plan per Health Facility,
7. All relevant SANS Standards and Legislation that is referred to in the above listed documents, and
8. All relevant drawings forming part of this Contract.

The main mechanical and electrical sections of a facility with their subsections as set out in the Service Information and in the Price List will each be deemed "an installation". Maintenance, as specified, will be applicable to all these installations.

All Contractors are to undergo an approximately three-hour long Contractor's induction process before being allowed to work at any of the sites. This induction shall cover the General Rules for Contractors on Site, the penalty system applicable to this Contract, as well as the minimum work quality standards for the work to be done on site.

Major equipment replacement, major upgrades and/or redesigned functionality will be handled outside of this Contract via a separate project program and are therefore not part of this Contract. The maintenance and repair work phase will run parallel to each other at the same time.

## SCOPE OF WORKS

<b>1</b>	CONTRACT NAME	<b>SCHEDULE MAINTENANCE OF MEDICAL GAS AND ASSOCIATED EQUIPMENT IN CLUSTER TWO (2) - JG AND CH DISTRICT - HEALTH FACILITIES</b>
2	PERIOD	Fixed 3 Year contract
3	Scope of Works	Maintenance contract as per item No1 above for the following: <ol style="list-style-type: none"> <li>1. Medical Gas pipeline system</li> <li>2. Medical Gas Manifold room equipment</li> <li>3. Medical Gas pipeline support equipment</li> <li>4. Bed head panel &amp; medical gas pipeline</li> <li>5. Vacuum pumps, receiver and all ancillary equipment</li> </ol>
<b>All Works to be carried in accordance with prescribed standards</b>		

## GM 2 MAINTENANCE REQUIREMENTS

- i The Contractor will adhere to the Task Order and when completed, contact the Service Manager for formal approval and signing off, of the Task Order. The Engineering Representative will assist the Service Manager in verifying completed work.
- ii The Contractor is expected to be fully aware of his obligations in so far as this Contract is concerned and he shall attend to the maintenance procedure within the time limits specified for each class of maintenance procedure.
- iii The completed Task Order will be returned to the Service Manager, who will forward it to

the Call Centre to log the completed Task Order into the system. When the completed Task Order is logged into the system the job will be closed.

- iv When a maintenance procedure cannot be completed within the specified downtime the Contractor should apply in writing to the Service Manager for an extension of time with reasons for the delay. This application should be submitted as soon as the details of the maintenance procedure and availability of spare parts are known.
- v The Call Centre Manager will submit a weekly response performance report to the Service Manager, who will make a decision on the implementation of penalties which will depend on the nature of each breakdown, as well as valid claims on delays received from the Contractor. The recorded report date and time as well as the recorded completion date and time will be regarded as sufficient and final proof for the proper administration of this aspect of the Contract.

## **GM 2.2 SERVICE MANAGER**

Eastern Cape Department of Health's agent will be appointed as **Service Manager** (Project Manager) to manage and administrate all work and financial aspects related to this particular bid. He/she will be supported on the ground by an Engineering Representative to verify workmanship and compliance of completed activities to Contract requirements. The Service Manager will be responsible for the following:

- i Perform duties as per the NEC3 Term Services Contract Standard Clauses;
  - i Ensure that either he/she, or the Facility Specific Site Representative, visit the Facility and compile reports on the status of the Facility infrastructure that forms part of this bid;
  - ii Liaise with the Call Centre and check on call outs;
  - iii Determine routine maintenance work to be done, and issue Task Orders for routine maintenance and repairs/refurbishment/upgrades (that was accepted by the Employer), to the relevant Contractor;
  - iv Consult and co-ordinate with the Program Lead Consulting Engineer as needed on specific maintenance aspects, designs and specifications to be done;
  - v Assess the completed work for the assessment period, consider the payment applications lodged by the Contractor during this period, Certify the payment due, and issue a Payment Certificate for the accepted work as per the Standard Contract clauses;
  - vi Monitor the logging of regular maintenance work done;
  - vii Prepare reports on maintenance and repair work done;
  - viii Liaise with the hospital Site Representative regarding all work to be done on this asset type at the facility;
  - ix Liaise with management of the facility;
  - x Obtain approvals from the Employer where required for
-

### **GM 2.3 CONTRACTOR'S RESPONSIBILITIES**

The Contractor shall maintain the complete installation as specified in the **Service Information** for the full Contract period subject to the agreed repairs and performance criteria.

Maintenance implies and shall include routine preventative maintenance on a schedule as approved by the Service Manager, corrective maintenance, as well as breakdown maintenance of all components of the specified installation.

The Contractor shall be responsible to perform all tasks as specified in this specification, subject to the requirements of the NEC3 Term Service Contract Standard Clauses. In addition, the Contractor must:

1. Record work done, performance indicators, defects identified and/or corrected, and spares used;
2. Obtain work done sign-off on site as well as from the Engineering Representative;
3. Submit completed Task Orders and invoices to the Service Manager;
4. Attend scheduled project meetings with the Service Manager.

The Contractor shall, as part of his maintenance responsibilities repair or replace faulty equipment upon logging of a breakdown, within the down-time as defined in Paragraph GM 7, and against the Tendered rates as provided for in the Price List, and within the down-time as specified in the applicable Task Order. In the event of any repair item for which a rate is not available in the Price List, the rate as specified in the Task Order will apply.

### **GM 2.4 TASK ORDERS**

All works required to be done by the Contractor will be instructed by issuing of a **Task Order** by the **Service Manager**. No Works shall be conducted without a Task Order.

The Call Centre may issue breakdown and defects correction/repair Task Orders to the Contractor at any time during the Service Period, but they must all be copied to the Service Manager. The time for the completion of the Breakdown Task Order will be as per the allowable response times in Table 1 in Section GM 7.

If the exact nature and possible cost of rectifying a breakdown is not known when the Breakdown Task Order is issued to the Contractor, the task order will be issued with provisional information and costs estimates. The Contractor shall respond to such a Breakdown Task Order by traveling to the site to evaluate the breakdown (scope of repair work), estimate the realistic cost as well as downtime and provide feedback to the Service Manager to form the basis of the revised Task Order.

Should the Contractor not be able to complete the Breakdown Task Order within the agreed and approved time for completion, it shall be the Contractor's responsibility to obtain an extension of time from the Call Centre Manager. The written report shall clearly state the reasons for requiring the extension, as well as the actual extension period required.

Should the actual time for completion of the Breakdown Task Order exceed the agreed time allowed, including any extension of time, the Contractor shall be liable for damages at the rate stated in the Task Order.

---

The Service Manager will issue Task Orders for the routine maintenance services, and approved repair/upgrade work once the Maintenance Control Plan has been approved and updated with the relevant information from the Repair Schedule as per GM 3.

Routine maintenance, approved repairs and breakdown repairs will all be done parallel to each other on the equipment as per the Maintenance Control Plan and Call Centre priorities.

## GM 2.5 FUNCTIONAL CONDITION ASSESSMENT

Immediately after handing over of the site, and having attended the Contractor's Induction Training Session, the Contractor shall start with a **detailed functional test and condition assessment process** of the specified installation/equipment at each Health Facility and **submit a detailed report** to the Service Manager regarding the functionality, performance and condition of the equipment. It is this Contract's intention that this task be completed within **two weeks** of each site handover to the Contractor, but the Service Manager will arrange and agree specific deliverable dates for each Health Facility with the Contractor in this regard as part of the Contractor's Maintenance Control Plan.

The following work shall be carried out during the time allowed for the execution of the Functional Condition Assessment:

- i **Verify the Asset Data** from the Asset Inventory List in C4.1, obtain the additional asset information that might be required for a specific piece of equipment, and update the Inventory of Mechanical and Electrical Equipment for each Health Facility with make and model numbers, capacities and general condition, year of manufacture (age), additional equipment to be added to the list, and equipment to be deleted from the list (i.e. equipment not on site anymore), etc., as per the fields provided in the format provided by the Service Manager after Contract award.
- ii **Prepare a clear A4 size line drawing** of the building/ward/room in which the plant is installed, typically as per one of the two examples below, and show positions of the equipment schematically on this drawing. Please provide basic information regarding the general condition of the room/facility/building where the asset is located (this will assist to provide information to the facility repair teams), next to, or below the line drawing;

One line drawing per location per Health Facility must be provided and can be hand drawn, provided that the drawing is clear, neat and all info is readable.

- i Record the number/name of each piece of equipment on the line drawing. If no name/number exists on the equipment itself, allocate a descriptive number (i.e. Washer) and mark this on the equipment with a black permanent marker pen. Reference shall be made to this ID number in the defects listed in the Repair Schedules for each item of equipment to identify the equipment accurately.
  - ii **Verify what spare parts (if any) are available** on site for the equipment covered by the Contract, as well as the condition there-off;
  - iii **Compile a Priced Spare Part List**, (based on the Contractor's cost price for the spares) for the relevant spare parts required for a repair of all the types of equipment listed in the Asset Inventory, and indicate on this list what spares should be kept in stock on site for use by the site maintenance staff. The Employer however retains the right to negotiate the offered spare part prices with like type spares prices solicited through the Tender process, if they are not in line with national price norms.
-

- iv **Inspect the condition and test the functionality** of all components of the installation to confirm the extent of the repair work required (if any). If the equipment is not in an operable state record this and proceed with item 7 below;
  - v **Verify if the equipment meets current standard technical specifications** for the specific application. Advise on an alternative if applicable. Please consult the Facility Manager when doing the assessment to get information regarding any issues that they are experiencing with the equipment.
  - vi **Verify the estimated remaining service life** for the equipment based on the equipment's age and current condition. If the equipment is old and in a bad state it might be more cost effective to replace the unit rather than rebuilding it. Please advise in this regard;
  - vii Should it be impossible to determine the details of the defect without dismantling the machine/equipment item, the Contractor shall nevertheless prepare an estimate with a cost breakdown for repairs he/she anticipates will be needed. After a written instruction has been received to repair the machine/equipment item, the final cost will be determined after the machine/equipment item has been dismantled for repairs. **Equipment shall not be dismantled for inspections during the equipment functional condition assessment period.**
  - viii **Compile a detailed Repair Schedule for each separate equipment unit (machine).**  
This Repair Schedule will consist out of a clear identification of the equipment unit, a detailed description of what is wrong with the equipment unit, a detailed repair or replacement method statement (and explanation on why it is recommended that the unit be replaced if applicable), and an accurate detailed quote, with estimated lead times and a high-level project plan to enable the work to proceed if the approval to do so is granted by the Service Manager via a Task Order. (See GM 2.8 for the rates requirements)
  - ix The Employer does not guarantee that any, or all, of the repairs/replacements recommended via the repair schedules, will be accepted for implementation by the Contractor. Accepted Repair Schedules will however become part of the Final Maintenance Control Plan once approved by the Employer, and will then be included in the work scheduled for this Contract. Depending on the cost and complexity, equipment replacement recommendations might be transferred to the Repair Project Work Stream of the Employer's Mechanical and Electrical Equipment Repair Programme.
1. **Compare the identified defects of each item of equipment with the components already included under the standard minor and major services scopes** in the Contract Price List, and remove costing for these from the repair requirements. Include all identified defects into the Functional Condition Assessment Report, but only price the defects not covered by the standard servicing scope of works. (See GM 3.2 (3) for costing of the updated Asset Inventory List (both hard and electronic copies) completed in the Excel Format provided by the Service Manager after Contract Award;
  2. Clear location identifiable layout line drawings of the equipment, with ID numbers and brief room/facility/building condition description as per GM 2.5 (2)
  3. A list of spare parts, and their condition, that is currently available on site;
  4. A priced spare part list of the typical spare parts that might be needed to do repairs on the equipment if it should breakdown or fail. The Contractor must also indicate on this spare part price list which consumable spare parts (i.e. fan belts, filters, oil, fuses, light
-

globes, etc.) that can be replaced by the site maintenance staff, should be kept in stock at the Health Facility;

5. A summary of the equipment per Health Facility indicating:
  - i Condition;
  - ii If the equipment meets current technical specifications;
  - iii Estimated remaining Service life before replacement will be due; and
  - iv Recommended work to be done (i.e. service only, minor repairs required, major repairs required, replacement or upgrade recommended).
  
6. A Repair Schedule for each repair that is required. This information will be used to populate the Task Orders for accepted repairs, or feed the Tender document information in case it is moved to the Project Work Stream;
  
7. A description of the defect for which repair work is not easily identifiable with an estimate of the final cost for repairs. This item will typically apply to breakdowns or defects where the machine or equipment must be de-commissioned and at least partially dismantled before the extent of the work can be fully established;
  
8. Compile a list of equipment for which a Statutory Inspection and Test is, or will become due during the Contract period. Copies of previous Inspection and Test Certificates to be attached to the report (if available).
  - x standard services)
  
  - xi Where applicable, **obtain copies of Statutory Inspection and Test Reports** from the Health Facility (if available) and attach these to the Defects Inspection Report.
  
  - xii **Submit the detailed Functional Condition Assessment Report** to the Services Manager who shall thereafter demarcate any areas to be repaired and forward this information to the Contractor. Once approval is granted, the Service Manager will instruct the Contractor about the repair work to be done.

## **GM 2.6 FUNCTIONAL CONDITION ASSESSMENT REPORT**

A Functional Condition Assessment Report must be compiled for each Health Facility, and shall contain the following:

Should the Contractor not be able to complete the Functional Condition Assessment Report within the period as specified GM 2.5, it shall be his responsibility to obtain extension of the Functional Condition Assessment period from the Service Manager. The written report shall clearly state the reasons for the extension, as well as the actual extension required. An extension of time shall only be considered by the Service Manager if the Engineering Representative believes the Contractor has carried out the already completed portion of the report with the due diligence and attention to detail.

Should the actual time for the completion of the report exceed the specified time for completion, including any extension granted, the Contractor shall be liable to a payment reduction for the difference between actual and approved completion periods. The value of the payment reduction for each health facility shall be as specified in Section X18 of the Secondary Options Clauses of the Contract.

After the repair phase work and costs have been accepted, the Contractor shall commence with the known and approved repair work only after site access for repair work has been approved and the Task Order issued. The Contractor shall complete the work within the period allowed for the repair work as specified in the applicable Task Order.

## **GM 2.7. OPERATING AND MAINTENANCE MANUALS**

The Contractor shall, where specified, and as part of the repairs to each installation, compile and submit a comprehensive Operating and Maintenance Manual based on the Original Equipment Manufacturer's requirements. The Contractor shall ensure through training that the operating and maintenance personnel of the Health Facility are conversant with the instructions as presented in the Operating and Maintenance Manual, as per SS 8 and SS 9.

The Operating and Maintenance Manual, as accepted by the Service Manager, shall be used as a basis for preventative maintenance. The Contractor shall perform all preventative and corrective maintenance as described in the Operating and Maintenance Manual. This shall be in accordance with the Standard and Supplementary Specifications.

The Operating and Maintenance manuals must be based on the updated Inventory of Equipment (C4.1) data after completion of the Functional Condition Assessment, and shall be updated with respect to Make, Model Number, Capacity and any other relevant data.

The Contractor must provide three (3) sets of each required Operating and Maintenance Manual as follows:

- i One set to be installed at a suitable position on a short chain, against a wall in the room/area where the equipment is located, or as otherwise instructed by the Service Manager for outside and spread out equipment;
- ii Two sets to the Services Manager.

**The Operating and Maintenance Manuals must be delivered as soon as possible after the Functional Condition Assessment Report has been completed.** Also see Section GM 3.3 (15).

Where several of the same equipment is in the same room/area, only one set of three Operating and Maintenance Manuals is required. If the same equipment is spread out throughout the health facility the Contractor must install one Operating and Maintenance Manual near each one, or group of the equipment unless otherwise instructed by the Service Manager.

The Contractor will be required to install several Document Consoles (storage and writing platform units) with sleeve anchors or bolts, into the walls at different locations of each Health Facility, to secure and store the chained manuals and maintenance logs. A Provisional sum will be included for this in the Price List.

## **GM 2.8. RATES**

Scheduled work is all planned routine servicing of the equipment at the all-inclusive Contracted Rates contained in Schedule 3 of the Contract. Unscheduled work is all repairs, breakdowns, special maintenance activities, special tests and/or replacement tasks, that is ordered via a Task Order by the Service Manager, in addition to the scheduled work. Payment for this work will be based on the Contracted Rates from Schedule 4.

Where no rates exist in the Contract, the itemized breakdown shall be accompanied by

---

documentary proof from the Supplier, Manufacturer, Engineering Works, etc., where materials were bought or services out-sourced from. The Employer however retains the right to verify and test these rates against the market.

The Contractor shall submit quotes for all Unscheduled work with an itemized breakdown of the total cost involved for acceptance by the Service Manager, in a quotation as detailed below:

### **GM 2.8.1 MATERIALS AND OUTSOURCED SERVICES**

- Unscheduled: List all items with quantities and rates as per quotations or price lists obtained from suppliers or service providers (proven reasonable cost), and attach a copy of the quotation/price list to the quotation. Apply the Direct Fee Percentage (Mark-up %) to all proven reasonable material costs and outsourced services.
- Direct Fee % (Mark-up %): Mark up percentage on proven cost to cover P's & G's, overheads, profit, etc. as per Schedule 4 based on NEC3 TSC Contract Data.
- Scheduled: All materials required for Scheduled Servicing are included into the pricing for the Service as per Schedule 3.

### **GM 2.8.2 LABOUR**

- Unscheduled: List time required for travelling to and back from site (subject to conditions contained in GM 2.8.3 below), actual repair and/or replacement, testing and commissioning time of all unscheduled items at the applicable labour rates as stated in Schedule 4. No Direct Fee % will be applicable to Contracted labour rates.
- Scheduled: Cost is included in Service costs as per Schedule 3.

### **GM 2.8.3 TRANSPORT AND ACCOMMODATION**

Unscheduled:

Traveling and Accommodation claims will be subject to the condition contained in GM 2.8.4 below. Travelling cost will be as per the rates for reimbursable expenses published monthly by the National Department of Public Works applicable at the time of rendering the service/repair. Allow for the actual distance travelled (and specify the reason for the traveling). All travel time and disbursements need to be supported by a Google Maps route planner printout for proof of travelling distance and time. Kilometre claims can be claimed from point of departure to destination and back, but must be linked to the indicated kilometres as per the Google Map attached and referenced to. The Contractor must submit proof of registration to verify the engine cubic capacity of the vehicle, in respect of any vehicle to be claimed for. Allow for the actual accommodation and disbursements (and specify the reason for the accommodation requirement) at the rates as per Schedule 4. **Trips must be combined with Scheduled Servicing trips where possible, to minimize additional expenditure. Trips will be in accordance with the approved Maintenance Control Plan.**

---

**GM 2.8.4 The Employer requires that the Contractor be based in a location inside the Cluster or District Area that the Contract is awarded for.** The home base (departure point) must therefore be located inside the Cluster Area. If the Contractor does not have a home base in the Cluster Area, the traveling rates (for both distance and labour) will be calculated based on a location inside the Cluster which will typically be the largest Town or City located inside the Cluster or District, as may be applicable as instructed by the Service Manager.

## **GM 2.8.5 PROVISIONAL SUMS**

It is the Employer's sole discretion to decide on spending any, all or none of the Provisional Amounts listed in the different Price List Schedules of this Contract.

## **GM 2.9 REPAIR WORK**

### **GM 2.9.1 Definitions**

#### **1. Defect**

For this maintenance Contract, a defect shall mean a deficiency in any component of an installation which impairs the functionality of that component or equipment. Worn parts of a component which do not impair the functionality and/or performance of the component will not be regarded as a defect.

Defects may be classified in the following three groups:

#### **(i) Type A defect**

Those deficiencies which can be rectified by proper maintenance only, i.e. set parameters of a control system, proper lubrication, balancing, alignment, set pressures on safety valves, cleaning and de-staining, etc.

#### **(ii) Type B defect**

Those deficiencies which can only be rectified by replacing parts of, or the complete component as in the case of a breakdown or where a certain amount of upgrading is necessary such as the provision of anti-vibration mountings, removal of rust and re-painting, etc.

#### **(iii) Type C defect**

Those deficiencies which are visible but which do not impair on the functionality of the installation or system yet, such as structural cracks in parts of a component, rust, bad workmanship during a previous Contract, etc.

Components in which abnormal noise and/or vibration is present shall be serviced in accordance with the Manufacturer's recommendations and if the noise and/or vibration persists, the deficiency will be classified as a defect.

#### **2. Repairs**

Repairs of an installation shall mean the elimination of the deficiencies classified as types B and C defects in Paragraph (1.) above.

The specific repair phase commences as indicated on the Task Order issued by the Service Manager for each approved repair. The repairs must be completed within the period as determined by the Task Completion Date as stated in the Task Order. Delay damages for late completion will

---

be applicable as indicated on the Task Order.

**Depending on the nature of the work and availability of funds access may be given at any time during the Service Period and not necessarily directly after site hand-over.**

A representative of the user department or person in charge of the plant, system or building shall endorse the schedule after completion of the maintenance or servicing procedure to the effect that the maintenance or service is, to his opinion, completed satisfactorily and shall countersign the service schedule. Where necessary the Site Representative will inspect the work done and report his findings to the Service Manager.

### **GM 2.9.2 Scope of Repair Work**

The repair work shall be completed within the time allowed for repairs for each installation as defined in the applicable Task Order. If the work is to be carried over two or more financial year's the work will be segmented and prioritized according to the Final Maintenance Plan. The Contractor will be informed of the work to be completed within each financial year. **The starting date for repair work for the current financial year will be the date of acceptance of the measured Price List from the Functional Condition Assessment Report.** The starting dates for subsequent years will be on 1 April of that particular year.

All repair work shall be executed using resources (labour, equipment materials and spare parts) that comply with the requirements of GM 2.11.

The said repair work shall be executed in accordance with the relevant codes of practice, standards, regulations, municipal laws and by-laws, manufacturers' specifications and codes of practice included in this specification.

### **GM 2.10 MAINTENANCE WORK**

Maintenance work commences with the acceptance of the Tender bid and expires at the end of the Service Period. As compensation, the Contractor is paid the **remeasured** Contracted quantities, distributed in agreed intervals and amounts over the Service Period as per the Final Maintenance Control Plan, at the rate Contracted for the applicable maintenance work, subject to the requirements of GM 8.

#### **GM 2.10.1 ROUTINE PREVENTATIVE MAINTENANCE**

This entails the rendering of services and servicing of equipment according to a predetermined Maintenance Control Plan to:

- i Repair, lubricate, clean and service components of equipment, units or parts thereof for each installation at pre-scheduled intervals regardless of condition.
- ii Re-adjust, reset, clean, balance, corrosion protect all components of equipment, units or parts thereof for each installation, and
- iii Carry out all necessary and implied actions to maintain installations in a functional condition (i.e. replace or clean filters, replace or top up fluids, etc.)

Preventative maintenance shall be aimed at prevention or at least minimization of breakdowns.

---

## **GM 2.10.2 CORRECTIVE MAINTENANCE**

This entails regular observation of the equipment, identifying impending breakdowns, maladjustment or anomalies of equipment, units or parts of installations and subsequent action to restore installations to a fully functional condition before a breakdown occurs.

The Maintenance Procedures for Corrective Maintenance shall be compiled by the Contractor and is included in the Maintenance Control Plan for each system or plant. Inspection items shall include, inter alia, the following:

Checking for:

- i Unusual noise and vibration;
- ii Abnormal surface temperature of machines such as electric motors;
- iii High temperatures of equipment and wiring inside switchboards;
- iv Incorrect settings or operation of safety devices;
- v Alarm conditions of any instrument or control panel;
- vi Gas or fluid leaks from the equipment or associated piping systems.

The frequency of corrective maintenance shall be determined by the Contractor himself in line with the recommendations from the Operating and Maintenance Manuals, and actual operational environment where the equipment is operating. This may vary from once every day for high-risk, sensitive installations to once a month for low-risk installations such as exhaust fans and office. The frequency of corrective maintenance must be accepted by the Service Manager in the Maintenance Control Plan.

## **GM 2.10.3 BREAKDOWN MAINTENANCE**

This entails repair and/or replacement of defective equipment, units or parts of installations following a breakdown that leaves the installation inoperable or unsafe, and subsequent action to restore the installation to their normal functional condition, within the maximum downtime allowed.

Breakdown repairs will be controlled via the Call Centre and approved Breakdown Repair Task Order process as per GM 2.1. A provisional amount will be included in the Contract Price List Schedules to cover Break Down Task Order expenditure.

## **GM 2.10.4 COMMENCEMENT OF SERVICE PERIOD**

The Contractor shall accept full maintenance responsibilities for each installation from the date on which the site has been handed over to the Contractor. **An annual maintenance service shall be carried out on all installations during the period in which the Defects Inspection Report is compiled, or as soon as possible thereafter.** If the current statutory compliance of a qualifying asset cannot be verified with the correct documentation of proof, a statutory inspection must be performed immediately after the first annual service has been completed.

For equipment or installations where the complete installation is shut down for the repair phase, no maintenance services will be required during the repair period.

---

## **GM 2.11 SUPPLY OF LABOUR, EQUIPMENT AND MATERIAL**

### **1. Labour**

Only competent, qualified personnel shall be allowed to execute all maintenance work.

### **2. Equipment**

All tools, equipment and consumables required for performing maintenance work shall be supplied by the Contractor at his own cost (except where otherwise agreed to in writing and provided by the Employer). The Contractor may use already installed Employer equipment such as crawl beams and crawls, etc. provided that they obtain written approval from the site Maintenance/Technical Manager to do so. Such site approval will be based on the serviceability of the equipment, and upon confirmation of the Contractor's competency compliance in being able to use and operate this equipment during maintenance.

### **3. Materials and Parts**

All materials, spare parts, components, equipment and appurtenances necessary for the complete maintenance of each installation shall be supplied and installed by the Contractor **at the rates and quantities as instructed by the Service Manager**, after the Functional Condition Assessment Report as specified in GM 2.5 has been accepted.

Only original parts as specified by the Original Equipment Manufacturer may be used for replacement purposes. Generic or alternative parts will only be allowed if they comply fully with all the specifications of the original parts, but may only be used upon written acceptance by the Service Manager.

Substitute electronic components will be acceptable, **PROVIDED** that they are equal to, and of the same quality as, or superior to, the original components and are accepted, in writing, by the Service Manager.

All parts, spares and materials which are used, shall conform to the applicable SANS Specifications and shall, where possible, carry the SANS mark of approval.

Substitute parts, as well as the serial numbers (where available) of the original and new components, shall be entered on the service sheets and in the maintenance/repair log-book.

The Contractor shall obtain, and cede any supplier's or factory guarantee of repaired or replaced components to the Employer. All workmanship, new equipment, materials, components, systems, etc. used for servicing and repairs shall be guaranteed for 12 months unless otherwise agreed to in writing with the Service Manager. The guarantee cards for repaired or replaced components or equipment shall also be attached to service sheets and the maintenance/repair log-book. New equipment and system installations will in addition to the above requirements also have a twelve (12) month defects liability period, valid from the date of successful commissioning and hand over to the Employer as acceptance by the Service Manager.

All scrapped and/or removed parts and equipment that might be installed elsewhere, or that will not be returned to service again, must remain on site after removal or disassembly of the equipment as they remain the property of the Employer. The Maintenance/Technical Manager of the facility will indicate to the Contractor where to place these items after removal. Removal of any parts and/or equipment for whatever reason from site, may only occur with the written approval to do so by the Maintenance/Technical Manager subject to the rules and regulations that the Employer has in this regard.

---

## **GM 2.12 SITE MAINTENANCE RECORD KEEPING**

The Contractor shall provide and maintain hard-cover A4 size maintenance files for each installation for the duration of the Service Period. Copies of all schedules, checklists, breakdown reports, preventative maintenance records, component replacement records, service sheets, etc. shall be filed in these.

An A4 size register book shall be kept for all work performed on the equipment, to state the service technician's name, surname, date of work performed, and a short description of the work performed. This book must be installed on a short chain next to the relevant Operating and Maintenance Manual as per GM 2.7.

Copies of the site maintenance records and all service sheets, shall be submitted to the Service Manager at each monthly meeting, while copies of the service sheets must also accompany all claims and invoices.

Statutory Logbooks must be supplied and maintained on site for all statutory equipment such as pressure vessels, boilers and lifts.

## **GM 2.13 SERVICE SHEETS**

Every service, repair, test, inspection, etc. related to the maintenance portion of the Contract, shall be fully described on a service sheet which must be completed and signed by the Contractor and attached to the Task Order when it is returned to the Service Manager. The following minimum information shall appear on service sheets:

- i The company name and address;
  - ii A unique work sheet serial number;
  - iii The corresponding Task Order unique number;
  - iv The district and health facility names;
  - v The building/area name or alternatively the building/area code;
  - vi The plant identity code and description;
  - vii The nature of the call, i.e. P1, P2, P3 or P4 (see GM 7);
  - viii A general description of the problem or purpose of the work to be done, alternatively the complaint as received by the Call Centre;
  - ix A statement as to whether the individual system is operational or not in terms of the specification;
  - x Should the system not be operational (in case of a breakdown) the response time and repair time shall be recorded individually and details of a preliminary service sheet shall be forwarded to the Call Centre Manager;
  - xi The description of the repairs/replacements carried out on each machine/equipment item on that specific system;
  - xii A list of materials used for each machine/component. Where scheduled items are used,
-

only the description can be listed. For non-scheduled items, a copy of the quotation must be attached to the service sheet;

- xiii A detailed report on the extent of the work done together with the total cost involved;
- xiv Suggestions to avoid similar future problems;
- xv A list of the Contractor's personnel responsible for the work with the date, starting time, completion time, distance travelled, and any accommodation and S&T costs;
- xvi Signature and name of the responsible Employer site technician/artisan/engineer and the Site Representative, confirming the work was completed to the required quality and performance standards, and that the equipment is operational again;
- xvii Signature and telephone number of the User of the equipment or the person who initiated a call or Task Order (if it was a defect, or breakdown).

Service sheets shall also be used for normal routine maintenance services and other non-maintenance activities such as training of the health facility's operating and maintenance personnel and administration duties of heads of firms when managing the Contract.

The Service sheets shall be completed in three categories as follows:

1. **For repairs on machines:** The same data as above must be captured with one service sheet to be completed for each repair (See below for grouping of like type equipment for servicing).
2. **For normal maintenance on an installation:** The same data as above must be captured with one service sheet to be completed for each service (See below for grouping of like type equipment for servicing).
3. **For Administration and Training:** In this case only the name of the Head of the Company is required on the service sheet with no other reference to Building- or Plant codes or machine ID numbers. A full description of the service provided must be included.

Copies of the completed Service Sheet and Task Orders must be attached to all invoices and shall be submitted to the Service Manager for discussions and acceptance.

An example of the Service Sheet is attached to the Contract Documentation as C7.

The standard requirement for normal services carried out on a specific plant is to complete one service sheet for all the equipment within any one building. This standard requirement applies to installations where all such machines can be serviced within a period of approximately five working days, but all equipment serviced must be listed on the service sheet.

For larger installations where the time required for a maintenance service is more than five working days, the machines may be grouped together to form several groups within the building with the provision that each group can be serviced within a period of approximately five working days. One service sheet shall be completed for each group in a building, but all equipment included in the group must be listed on the service sheet.

For smaller installations where the complete installation inside a building can be serviced in less than one working day, the installations in more than one building may be grouped together, but all the equipment covered by the service sheet must be listed.

---

The definition of the groups must be determined by the Contractor and clearly specified in the Maintenance Control Plan for acceptance by the Service Manager.

#### **GM 2.14 VOLTAGE SURGES DUE TO LIGHTING AND OTHER CAUSES**

The area in which most of the sites are situated is known for heavy lightning storms. Damage caused by voltage surges due to lightning, phase imbalance, low and high voltages, power failures, etc. will be dealt with in the same manner as any other breakdown. Contractors are advised to investigate available surge protection systems, if any, on each plant during the Functional Condition Assessment stage, and to decide for themselves whether additional protection will be required or not.

The provision of additional surge protection systems shall form part of the repair activities, if accepted by the Service Manager, and the cost thereof must be allowed for in the Functional Condition Assessment Report.

Contractors may as an alternative provide and install one or more Universal Disturbance Analysers to record any voltage surges at their own cost. Breakdowns caused by voltage surges which can be proved beyond any doubt will be dealt with in the same manner as operational damage and other normal breakdowns.

#### **GM 2.15 SHEQ: SAFETY, HEALTH, ENVIRONMENTAL AND QUALITY**

The Contractor must comply with all the Safety, Health, Environmental and Quality requirements as per C3.2 and GM 3.1, and must provide pricing to cover all the applicable requirements under this specification. The Contractor must take note of any specific Safety, Health and/or Environmental risks that might be highlighted in section SS 13.

#### **GM 2.16 HIV / AIDS AWARENESS**

The Contractor must comply with all the requirements as per C3.3, and must provide pricing to cover all the applicable requirements under this specification.

#### **GM 3 MAINTENANCE CONTROL PLAN**

The Contractor is responsible to compile a detailed Preliminary Maintenance Control Plan (Annexure I) as per GM 3.2 which he need to submit with his Tender Bid. This plan must contain the details of what maintenance will be done (itemized), how often, what resources will be involved, what spares and consumables will be used, how long it will take to perform the work, and the cost breakdown per service for a specific Asset Type. The Service Manager gave service interval recommendations in Schedule 3, but the Contractor can recommend alternative intervals for consideration and approval by the Service Manager.

After Contract Award the Contractor will be required to expand the Preliminary Maintenance Control Plan to a Health Facility specific plan for each asset type with the assistance of the Service Manager.

---

### GM 3.1 WORK QUALITY

Maintenance quality control shall be the responsibility of the Contractor who shall introduce a Maintenance Control Plan to assist him in ensuring that all preventative, corrective and breakdown maintenance is performed as described in the Service Information. The Contractor will be responsible to correct any sub-standard work that is discovered after the Contractor has done his work. The rework will be for the Contractor's own account and must be signed off by the Site Representative after completion.

If the Contractor fails to remedy any sub-standard work within the time frame stipulated by the Service Manager, the Service Manager may at his/her discretion appoint another Contractor to execute the repair work. In this case, the replacement Contractor will be paid with the funds that were earmarked for the first Contractor to do the work, and the first Contractor will not be paid for that specific work.

### GM 3.2 PRELIMINARY MAINTENANCE CONTROL PLAN

A preliminary version of the Maintenance Control Plan, based on the Asset Inventory Data, must be submitted with the Contractor's Tender bid. This plan is a high-level plan on what maintenance tasks the Contractor will be performing on all the equipment across all Health Facilities covered by the Contract and must be completed on the forms of Annexure I. The information from the Preliminary Maintenance Control Plan will be expanded into that of the final Maintenance Control Plan as specified in Section GM 3.3 below. Details contained in this preliminary Maintenance Control Plan shall include:

1. A Maintenance Schedule containing all the different tasks that will be performed on all the equipment covered by this Contract, and captured on the **Preliminary Annual Equipment Maintenance Schedule** Form contained in Annexure I.
  2. A brief Capacity Statement where the Contractor describes his company's capacity and experience that will be applicable to this Contract. This must include a description and location of his home base (workshop/home/bakkie based, number of staff with qualifications and experience, what staff and/or Sub-Contractors will be used to support on the Contract, available tools and/or specialized equipment, transport capacity and where staff will be based, as well as capacity/ability to repair defective equipment (i.e. overhauling a pump or compressor);
  3. A detailed **Maintenance Task Planning Sheet** (See Annexure I) for each of the Minor, Major, and other, service activities priced in the Price List. This Maintenance Task Planning Sheet will describe the pricing and details of scheduled maintenance activities to be performed during services conducted as per the recommendations of the **Preliminary Annual Equipment Maintenance Schedule**, and will also be used to populate the respective Task Order. These prices must be all inclusive and must include all labour, service parts, lubricants and consumables, special equipment (if required), accommodation (if applicable) and any travelling and subsistence costs, etc. that might be applicable to do the service. The service price must indicate clearly if more than one piece of equipment will be combined for servicing during a single trip to avoid double payment for Travel and Subsistence related payments by the Employer.
  4. The service methodology;
  5. Preliminary grouping of equipment for maintenance purposes as per GM 2.13 (if applicable);
-

6. A breakdown of which sub-Contractors will be used (as per T2.2c), and for what activities, by the Contractor in rendering the services required by this Contract **Sub-Contractors must also be registered on the Treasury Central Supplier Database;**

### **GM 3.3 MAINTENANCE CONTROL PLAN**

One Maintenance Control Plan must be compiled for each Health Facility covered by the Contract. The Maintenance Control Plan shall be based on the Contractor's Preliminary Maintenance Control Plan information, and updated with the findings and data from the Functional Condition Assessment process. The Maintenance Control Plan shall be bound in a neat, A4 sized, ring bound document with a cover page and back cover and an original copy presented to the Service Manager. The contents of the document shall be indexed.

The Maintenance Control Plan will become the main plan for all work to be done under this Contract, as per the Main Contract Clauses, after the Contract has been awarded.

When the documents are compiled, the Contractor may reproduce relevant paragraphs from any of the specifications forming part of the Contract documents, or Operating and Maintenance Manuals, but should there be any discrepancies between such paragraphs and paragraphs in the Maintenance Control Plan and those in the Contract documents, those in the Contract documents shall be regarded as being correct and shall apply.

The Maintenance Control Plan shall also contain the following in addition to the items listed in Section GM 3.2:

1. Detailed Maintenance Schedule per equipment type, per Health Facility on the **Annual Equipment Maintenance Schedule Asset Specific** Form;
  2. Remeasured service quantities for the routine services of Schedule 3 in the Price List, based on actual equipment condition and the ability to perform a service on them or not in their current condition. **The Contractual payments will be based on these remeasured quantities, accepted by the Service Manager, and not on the original Tended quantities which might have been based on incorrect information at the time;**
  3. A risk register containing all the foreseen risks that can have an impact on the cost and/or deliverables of this Contract as per the NEC3 Term Service Contract Standard Contract Clauses numbers 11.2(14), 16.1, and 16.4;
-

4. A summary of the repair and maintenance work to be carried out in terms of the Contract giving details of the conditions of the various installations at the facility affected by the activities under the Contract.
  5. Details of how the Contractor intends to carry out the various types of maintenance work especially breakdown maintenance should breakdowns occur.
  6. Details of the procedures agreed upon between the Service Manager and the Contractor on how breakdown calls will be handled (Call Centre process).
  7. A list of organisations and persons directly involved with the Contract or whose requirements must be considered during the entire Service Period. Each person's position within his organisation as well as the applicable phone numbers shall be given. (See T2.2c)
  8. Details of monthly meetings (dates, times and venues) to be held between the Contractor, Employer Representative and Site Representative.
  9. Service Sheets and Reports to be submitted after every routine inspection (a copy of all reports, checklists, breakdown records, etc. for each system of an installation shall be kept on the site in a hardcover file);
  10. A priced spare parts list for relevant spares that might be required for repairs and/or breakdowns for each equipment type. The Employer retains the right to negotiate the listed prices based on price comparisons with like type spares prices solicited through the Tender process;
  11. A recommended spares list for items that should be held in stock at the facility;
  12. Copies of the Repair Schedules from the Functional Condition Assessment process that has been approved to proceed;
  13. An updated Cost Forecast of the estimated final total of the Prices for the whole of the services in consultation with the Service Manager at intervals as stated in the Contract Data Clause 20.5;
  14. Procedures to address complaints and logged breakdowns.
  15. Details of reports in electronic format, summarizing all inspections, together with inspection data such as nature of test, names of persons carrying out tests and inspection results. Detail of repairs and replacements, together with testing of repaired equipment shall also be reflected in this report, and shall be obtained from the service sheets.
  16. Assistance to be given to the Service Manager and Engineering Representative with decisions regarding material, equipment and other recommendations.
  17. An updated list of the inventory of equipment complete with the ID number (if available), make and model number, serial number, year of manufacture/age and capacity.
  18. The Maintenance Control Plan shall be upgraded when its contents are no longer representative of actual conditions.
-

19. The Contractor shall check the contents of existing Operating and Maintenance Manuals (if available) and shall update or modify them and then incorporate applicable data into his own manuals. Where no manuals exist, the Contractor shall draw up his own Operating and Maintenance Manuals based on the OEM Operating and Maintenance manuals as per the requirements of GM 2.7.
20. The way maintenance data as recorded on service sheets will be captured and processed for submission to the Services Manager, for invoicing, and as part of the maintenance report.

Pertinent data contained in the Operating and Maintenance Manuals may be transferred to the Maintenance Control Plan to make it a document which can be used as an independent handbook for maintenance work in future.

#### **GM4 COMMUNICATION**

The Maintenance Control Plan (Paragraph GM 3.3) will provide, after agreement between the Contractor and the Service Manager, with the assistance of the Site Representative, for the following communication procedure to be implemented:

1. The Contractor shall establish a telephone and fax line and a cellular telephone connection to ensure that he can be reached at any time.
2. Should the Service Manager determine or suspect that preventative, corrective or breakdown maintenance is required, a call shall be logged through any communication channel available to reach the Contractor as soon as possible. This will be followed up with a Task Order.
3. Maximum down times will be as described in Paragraph GM 7.
4. All breakdown calls from the Health Facility will be reported to the Call Centre who will follow the procedure as detailed in Section GM 2.1.

#### **GM 5 PERFORMANCE MEASUREMENT**

The Contractor's performance shall be measured against the criteria specified in Section X20 of the Secondary Options Clauses of the Contract and C1.2b Annexure CD.

Poor performance by the Contractor will lead to penalties being imposed by the Service Manager as per X17 and C1.2b Annexure CD, and can lead to early termination of the Contract.

---

## **GM 6 SPECIAL TESTING OF AN INSTALLATION**

An amount has been allowed in the Price List to cover the cost of additional tests that the Service Manager may request at his own discretion from time to time on the equipment and installations covered by this Contract. The Service Manager will have the sole authority to spend the amount or part thereof under sub-paragraph.

The Service Manager reserves the right to select, at random, component equipment and trade practices to be tested by the Contractor or independent authorities for compliance with specifications as specified in this Contract document.

The Contractor shall provide all equipment, tools and instruments required for such testing.

The Service Manager shall upon completion of the tests or inspections issue an inspection report including any corrective actions (if any) to be taken by the Contractor.

The Contracted markup percentage will be paid to the Contractor on the value of each payment made to the approved testing authority if any special testing is ordered by the Service Manager.

## **GM 7 MAXIMUM MAINTENANCE DOWN-TIME**

After a breakdown, defect or complaint has been logged the Contractor will be expected to remedy the defect in the system/component with as little delay as possible, notwithstanding the maximum down-time allowed and listed in the following paragraphs or as stipulated in the Task Order. **Should the Contractor not respond within the maximum down-time, the Service Manager may arrange, at the cost of the Contractor, for the necessary repair work to be done by others.**

The Contractor shall respond to a breakdown registration by traveling to the site to evaluate the breakdown (scope of repair work), estimate the realistic cost as well as downtime and provide feedback to the Service Manager and Site Representative to form the basis of a Task Order.

Should the Contractor not be able to complete the required repair work within the maximum down-time period allowed, it shall be his responsibility to obtain extension of down-time from the Service Manager. The written report shall clearly state the reasons for the extension, as well as the actual extension required.

Extension of down-time will only be granted by the Service Manager if:

- 1.The maximum down-time is unreasonable in relation to the scope of the repair work required.
- 2.The delivery time of a new component/subassembly/machine or spares required for the repair of the defective component/subassembly does not enable the Contractor to successfully complete the repair work within the maximum breakdown down-time allowed.

Should the actual down-time exceed the maximum down-time, the Contractor shall be penalized as

---

per X17 and C1.2b Annexure CD.

<b>PRIORITY</b>	<b>DESCRIPTION</b>	<b>RESPONSE</b>
P1	Emergency (Life Threatening)	Immediate response from the time of logging a call and the emergency to be resolved (at least temporarily) within 8 hours
P2	Urgent	Immediate response from the time of logging a call and to be resolved within 12 hours
P3	Planned Maintenance Repairs	Scheduled Maintenance is to be scheduled and performed within 3 business days of the scheduled date
P4	Emergency Facility Repairs	7 Days planning and execution subject to supply chain regulations

**Table 1:** Maximum allowable response times

"Maximum down-time" shall mean the period of time allowed to repair a breakdown, and "actual down-time" shall mean the measured period from the instant when the breakdown was reported or located until the installation has been repaired to its functional specification.

A guideline classification for typical P1, P2, P3 and P4 breakdowns for each installation are specified in the Supplementary Specification for each asset type.

The job card (Task Order) issued for the repair will state whether the repair is regarded as P1, P2, P3 or P4 and it will be required of the Contractor to react accordingly.

#### **GM 8 MEASUREMENT AND PAYMENT**

Measurement and payment will be done as per the Secondary Options Clauses of the Contract. See X1, X13, X17, X18, X19 and X20, supplemented by C1.2b Annexure CD.

### C3.1b: SCOPE OF WORKS

<b>PROJECT NAME</b>	<b>SCHEDULE MAINTENANCE OF MEDICAL GAS AND ASSOCIATED EQUIPMENT IN CLUSTER FOUR (4) – NELSON MANDELA AND SARAH BAARTMAN DISTRICT – HEALTH FACILITIES</b>
<b>TENDER No.</b>	<b>SCMU3-23/24-0661-HO</b>

This specification is for the repair, maintenance and proper functioning of the listed Medical Gas equipment installations, for the duration of the Contract period:

#### **BCM DISTRICT**

#### **CHRIS HANI DISTRICT**

Details of the work required shall be as listed in the Price Lists which have been sub-divided into the following categories:

**SCHEDULE 1: FIXED CHARGE AND VALUE RELATED ITEMS APPLICABLE TO ALL WORK**

**SCHEDULE 2: FUNCTIONAL REPAIR SCHEDULE**

**SCHEDULE 3: MAINTENANCE SERVICE SCHEDULE**

**SCHEDULE 4: TERM REPAIRS SUBJECT TO APPROVAL OF QUOTATION FOR THE WORKS**

## ECDOH HEALTH FACILITIES: MEDICAL GAS AND VACUUM : ASSET REGISTER: 2024

September 2024

Item no.	FACILITY	ASSET TYPE	LOCATION	TYPE OF EQUIPMENT	Quantity	MODEL	SERIAL No.	GIAMA RATING

**TABLE 13 of GIAMA CONDITION RATING SCALE**

<b>RATING</b>	<b>CONDITION</b>	<b>General Description</b>
C5	Very Good	The asset has no apparent defects. Appearance as new. Risk index: No effect on service capability. No risk.
C4	Good	The asset exhibits superficial wear and tear, with minor defects and minor signs of deterioration to surface finishes. Risk index: Intermittent, minor inconvenience to operations. Probability of risk to health and safety or property is slight.
C3	Fair	The asset is in average condition, deteriorated surfaces require attention; services are
C2	Poor	The asset has deteriorated badly, with some structural problems. General appearance
C1	Very Poor	The asset has failed; it is not operational and is unfit for occupancy. Risk index:

## Occupational Health and Safety Specification

### Issued in terms of the Occupational Health and Safety Act, 1993 Construction regulations 2014

PROJECT NAME	SCHEDULED MAINTENANCE OF MEDICAL GAS AND ASSOCIATED EQUIPMENT IN CLUSTER TWO (2) - JG AND CH DISTRICT – HEALTH FACILITIES	
<b>LOCATIONS</b>	Port Elizabeth Provincial Hospital	
	Dora Nginza Hospital

**1 SCOPE**

This health and safety specification in respect to the services for Cluster Two (2) –Joe Gqabi and Chris Hanu Municipality Districts. This specification is for the scheduled maintenance, repairs and proper functioning of the medical gas installations for the duration of the contract period. The facilities for the scheduled maintenance of medical gas and associated equipment are listed below:

Port Elizabeth Provincial Hospital	
Dora Nginza Hospital	
Kwazakhele CHC	
Motherwell CHC	
Central CHC (Sandford) <b>N/A Facility Closed</b>	
Empilweni TB Hospital	
Livingstone Hospital	
Elizabeth Donkin Hospital	
West End CHC	
Jose Pearson Hospital	
New Brighton CHC	
Korsten CHC	
Gqeberha CHC	
Uitenhage Hospital	

Orsmond Hospital <b>N/A Facility Closed</b>
Rosedale CHC
Laetitia Bam CHC
Port Alfred Hospital
Marjorie Parrish TB Hospital
Settlers Day Hospital
Settlers Hospital
Fort England Hospital
Temba TB Hospital <b>N/A Facility Closed</b>
Sundays Valley Hospital
BJ Vorster Hospital
Joubertina CHC
Humansdorp Hospital
PZ Meyer Hospital
SAWAS Memorial Hospital
Andries Vosloo Hospital
Graaff-Reinet Day Hospital
Midland Hospital
Margery Parkes TB Hospital
Aberdeen Hospital
Willowmore Hospital

1.2 This specification is for the scheduled maintenance, repairs and proper functioning of the medical gas installations for the duration of the contract period.

The scope provides the overarching framework within which the Principal Contractor is required to demonstrate compliance with certain requirements for occupational health and safety established by the Occupational Health and Safety Act 85 of 1993 during construction work;

- o Establishes the way the Principal Contractor is to manage the risk of health and safety incidents during construction; and
- o Establishes the way the Client or Clients Agent will interact with The Principal Contractor.

This specification establishes general requirements to enable the Principal Contractor to satisfy aspects of the Occupational Health and Safety Act, 1993 (Act No. 85 of 1993) and the Construction Regulations, 2014. The Principal Contractor is required to develop, implement and maintain a site-specific health and safety plan. The Clients Agent is required to provide certain site-specific information to the Principal Contractor or a health and safety specification for the works to enable such a plan to be formulated. Accordingly, this specification on its own cannot ensure compliance with the requirements of the Act.

The Construction Regulations, 2014, requires a Client or Clients Agent to stop any contractor from executing construction work which is not in accordance with the contractor's health and safety plan for the site or which poses to be a threat to the health and safety of persons.

## **2 DEFINITIONS**

As per the Occupational Health and Safety Act (85 of 1993) and the relevant regulations and applicable standards.

### **2.1 List of Abbreviations**

AIA	Approved Inspection Authority
CC	Compensation Commissioner
CHSA	Construction Health and Safety Agent
CHSO	Construction Health and Safety Officer
CR	Construction Regulations (CR 2014)
DoL	Department of Labour
GAR	General Administration Regulations
GSR	General Safety Regulations
HCSR	Hazardous Chemical Substances Regulations
HIRA	Hazard Identification Risk Assessment
H&S	Health and Safety
OHSA	Occupational Health and Safety Act No. 85 of 1993 (as amended)
OHSS	Occupational Health and Safety Specification
PA	Principal Agent
PSHSS	Project Specific Health and Safety Specification
PC	Principal Contractor
PPE	Personal Protective Equipment
SANS	South African National Standards (Authority)
SDS	Safety Data Sheet
SWP	Safe Work Procedure

### **2.2 Key References**

Occupational Health and Safety Act No. 85 of 1993 and Regulations (as amended)

Construction Regulations 2014.

Compensation for Injury and Occupational Diseases Act No. 100 of 1993 (as amended).

SANS codes.

## **3 INTERPRETATION**

The Act and its associated regulations shall have precedence in the interpretation of any ambiguity or inconsistency between it and this specification.

### **3.1 PURPOSE OF THE PROJECT SPECIFIC HEALTH AND SAFETY SPECIFICATION (PSHSS)**

The PSHSS is a performance specification to ensure that the Client and any bodies that enter into formal agreements with the Client / Agents, Professional Service Consultants (Engineers, Quantity Surveyors and Architects), Principal Contractors and Contractors achieve an acceptable level of OHS performance.

No advice, approval of any document required by the PSHSS, such as hazard identification and risk assessments, or any other form of communication from the Client shall be construed as acceptance by the Client or Clients Agent of any obligation that absolves the Principal Contractor from achieving the required level of performance and compliance with legal requirements. Furthermore, there is no acceptance of liability by the Client or Clients Agent, which may result from the Principal Contractor failing to comply with the PSHSS, i.e. the Principal Contractor remains responsible for achieving the required performance levels.

A Mandatory Agreement in terms of Section 37.2 of the OHS Act will be signed between parties prior to any works commencing. The PSHSS highlights the aspects to be implemented over and above the minimum requirements of

current legislation. Requirements may be changed should new risks or issues are identified that could not have been foreseen during the design phase of the project, or during the construction phase. Any new legislation or standards (legislated or determined by the Client or Clients Agent) that are promulgated or accepted during the contract will automatically be applied.

It should be noted that this OHSS in no way relieves the Contractor of any of his responsibilities set out in the Act and Regulations

### **3.2 REQUIREMENTS**

A project specific H&S Plan in response to this PSHSS will be subject to approval by the Client or Clients Agent. This must include all supporting documentation as required to verify the H&S system:

## **4 GENERAL REQUIREMENTS**

### **4.1 RISKS**

Principal Contractor to provide a detailed risk assessment for the entire work on site. The items noted are for information only and must be expanded as required by the project.

Summary of Risk on site:

- a) Working within an operational Health facility.
- b) Working at Heights.
- c) Entering ceilings and damaging other equipment.
- d) Lifting equipment
- e) Fire
- f) Flammable Liquids / Gas
- g) Fragile Materials
- h) Hazardous Substances
- i) Hot Works
- j) Members of Public
- k) Snakes/ Bees
- l) Biological risks
- m) Ergonomic risks
- n) Environmental Management
- o) Weather related.
- p) Equipment and machinery
- q) Use of Electrical Equipment/Tools
- r) Exposure to Medical Fluids

### **Existing structures on site and surrounding land use (with a significant impact on Health & Safety):**

- a) Public Hospital Staff safety a concern.
- b) SMME (Construction Mafia)

### **4.2 SPECIFIED HAZARDOUS CHEMICAL SUBSTANCES**

The PC is to supply the products required as per the bill of quantities-, materials safety data sheets (SDSs) for each of the products envisaged to be utilized on site.

## **OCCUPATIONAL HEALTH & SAFETY MANAGEMENT**

Notification of Construction Work (Annexure 2)

The Notification must be taken to the Regional Department of Labor Office in Komani for acknowledgment. This must take place before any work commences.

It should be noted that this OHSS in no way relieves the Contractor of any of his responsibilities set out in the Act and Regulations.

The file must be submitted for approval to the Client or Clients Agent and issued to the Department of Labour before any construction work commences on site.

It should be noted that this OHSS in no way relieves the Contractor of any of his responsibilities set out in the Act and Regulations.

#### **4.3 HEALTH AND SAFETY PLAN FRAMEWORK**

The H&S aspects related to the project outlined in the previous sections are to be taken into account when drawing up the H&S Plan. The PC is required to demonstrate competence by providing an H&S system that will address the requirements of the project.

The Client or Clients Agent may from time-to-time request additions or systems as they relate to the works or legislative requirements at the time.

#### **4.5 APPOINTMENT OF COMPETENT SITE PERSONNEL**

The CEO (OHSA S16.1) of the PC will take overall responsibility for the appointment of competent site staff for the duration of the project. Should the CEO not be personally involved in the project, the H&S responsibilities are to be delegated to the Site Agent (OHSA 16.2). Knowledge and training in H&S is required, and certificates indicating H&S training as well as experience to be included in CVs.

All other legal appointments are to be made with relevance to the type of work required.

#### **4.6 MAINTENANCE MANAGER / SUPERVISORS**

Competent Maintenance Managers must be appointed to manage part or all the works and have training and/or experience in the area of responsibility. All site supervisors must show evidence of appropriate training in H&S, and an understanding or training in areas of responsibility (i.e., risk assessments, method statements etc.). Multiple competent Assistant Maintenance Managers may be appointed where justified by the scope and complexity of the works.

There should be 2x Maintenance Managers if the team Splits up into two regions for work.

Curriculum Vitae (CVs) are to be submitted for approval by the Client and Clients Agent. The Maintenance Supervisor will be held responsible for the safety of working teams and subordinates, housekeeping and stacking and storage of materials. The Maintenance Supervisor must, as a minimum, have a supervision course.

If the Maintenance Manager changes throughout the project. The Principal Contractor must ensure to provide the proposed Maintenance Manager CV and certificates for approval and then update the Annexure 2 and ensure that the appointment letter as well as proof of competency is available in the Health and Safety File.

#### **4.7 HEALTH AND SAFETY OFFICER**

Competent registered **Part-Time** Safety Officer to be appointed for the duration of the project.

The CHSO must provide the SACPCMP valid registration certificate, CV and relevant certificates/qualifications. The officer will be required to compile a monthly report, see **Annexure A**.

These people may not hold any other position on the site staff.

The site supervisor may not act as the CHSM or Officer.

#### **4.8 HEALTH AND SAFETY REPRESENTATIVE**

Irrespective of the number of employees on site the PC must appoint **Full-Time Health and Safety Representatives**, who at least has completed the necessary health and safety representative course.

The H&S representatives will liase and report to health and safety officer.

#### 4.9 OTHER APPOINTMENTS

Not limited too but other legal appointments must be done as per the OHS Act 85 of 1993 and related regulations.

### 5 GENERAL RISK MANAGEMENT

#### 5.1 HEALTH RISKS AND MEDICAL SURVEILLANCE

All workers (including those of Contractors) are required to be in possession of a medical certificate of fitness issued by a registered Occupational Medical Practitioner prior to commencing work. Medical surveillance will commence at pre-employment.

Many of the processes may be labour intensive and ergonomic risks are to be noted. All workers (including Contractors) are to be included in the medical surveillance programme.

Workers will be exposed to biological risk, noise, dust, and physical risks from extended periods of work of a repetitive nature, materials specified and the general nature of the business.

Environmental monitoring results and risk assessments are to be made available to the occupational health professionals doing the medical surveillance. The use of occupational risk exposure profiling (OREPS) and job descriptions are to be used to determine specific exposures for management.

All workers (including Contractors) are required to be in possession of a medical certificate of fitness prior to commencing work.

***Employees required to perform work at heights or from fall risk position must be medically fit to perform such work, such employee's medicals must specify "Fall Risk" or "Working at heights" in the exposure section of the annexure 3 template.***

Annual medical surveillance is required (unless identified as being required more frequently e.g. Noise, Dust, Asbestos etc), as well as exit medical.

Arrangements for keeping medical records for the required time are to be noted.

It is preferable that the PC has a medical surveillance plan.

#### 5.2 HAZARDOUS BIOLOGICAL AGENTS

1. **Identify the HBAs:** Determine which HBAs are present in the workplace and classify them into the appropriate groups (Group 1, Group 2, Group 3, or Group 4) based on their potential to cause human disease.
2. **Evaluate the Risks:** Assess the potential risks associated with each HBA. This includes considering the likelihood of exposure, the severity of the potential health effects, and the number of people who could be affected.
3. **Implement Control Measures:** Based on the risk evaluation, implement appropriate control measures to minimize or eliminate the risks. This may include engineering controls, administrative controls, and personal protective equipment (PPE).
4. **Monitor and Review:** Continuously monitor the effectiveness of the control measures and review the risk assessment regularly to ensure it remains up-to-date and effective.

By following these steps, you can effectively manage the risks associated with HBAs and ensure the safety and health of individuals who might be exposed to these agents.

Hepatitis A & B vaccination is required for all contractor employees that will be working in all Health Facilities.

### 5.3 NOISE AND DUST CONTROL AND RISK

All plant from plant hire companies (suppliers) or that of the PC is to be compliant with the Noise Induced Hearing Loss Regulations. Plant identified that has not been tested and marked for noise emissions will result in having to be tested at the Contractors or PCs expense. Failure to do so within a reasonable time period will result in such plant being removed from site.

Medical Surveillance for Noise Exposure (Noise Exposure Regulations, 2024 – Sec 9)

Workers exposed to noise levels exceeding 85 dB (or 82 dB if exposed to ototoxic chemicals) must undergo:

- o Baseline audiometry testing before employment.
- o Annual audiometry screenings to monitor hearing health.
- o Exit audiometry within 30 days of leaving a noise-exposed position.

If a worker shows signs of Noise-Induced Hearing Loss (NIHL), the employer must:

- o Reassign them to a lower-noise environment where possible.
- o Provide additional protective measures, such as enhanced hearing protection.

Audiometric testing of all workers is noted as required in the medical surveillance programme for all permanent workers prior to work commencing. All workers in identified noise areas will require testing if the noise levels are indicated on plant or through processes as greater than 85dB. Audiometry records are to be available in the H&S file.

Suitable SANS approved hearing protective equipment shall be issued and worn. Where several items of construction plant are in operation at or near to each other, the noise zone for the combined plant should be established and suitable hearing protective equipment used within this zone.

The PC must ensure that the Health facilities will be fully operational and take extra care and planning is communicated to the Facility Management to ensure that noise and dust does not interfere with daily activities.

### 5.4 EMERGENCY PROCEDURES

An emergency plan and procedure that is appropriate to the risks is required prior to commencement on site. It is advised that the system should be simple and easy for any worker to follow.

The emergency plan is to ensure the inclusion of local service providers where possible. Such arrangements should be made with these persons prior to the commencement of the project.

Local emergency telephone numbers must be displayed and made part of the emergency procedure.

The general principals of emergency management are to be applied as it applies to the hierarchy of control and management. The PC must consult with the Client in preparation of the emergency as buildings will be operational.

Fire Prevention and Emergency Preparedness

A Fire Risk Assessment must be conducted before construction begins and updated throughout the project as site conditions change.

The Principal Contractor must ensure compliance with fire prevention, emergency preparedness, and fire-fighting measures as outlined in the General Safety Regulations, 2025 (GSR) and the Construction Regulations, 2014.

### 5.5 FIRST AIDERS AND FIRST AID EQUIPMENT

Irrespective of the number of employees on site the PC will appoint at least **1 First Aiders** who will be trained to **Level 3**.

First aiders shall be available and accessible on site always and be able to work as a team when responding to any emergency on the project.

Appropriately stocked first aid kits, at least to the requirements of the Annexure to the GAR, are to always be available to assure continual availability in every vehicle used to work on sites.

**THIS SHOULD BE AVAILABLE FOR EVERY TEAM.**

## **5.6 FIRES AND EMERGENCY MANAGEMENT**

Attention to emergency planning and procedures is very important. Requirement in terms of identified risks:

- Fire;
- Public Safety;
- Falls from heights,
- Hot Works (Permit from Facility)

The emergency plan is to ensure the inclusion of local service providers where possible. Such arrangements should be made with these persons prior to the commencement of the project; the emergency plan is to include the risks of fire on site and related to any specific activities.

Fire extinguishers will be appropriate for the risk and in sufficient numbers to deal with the type of fires that could occur. All mobile plants are to have appropriate, accessible fire extinguishers. Hot work permits are required for any such activities.

## **5.7 INCIDENT MANAGEMENT AND COMPENSATION CLAIMS**

All incidents and accidents are to be investigated. All serious incidents involving any form of disabling injury or fatality are to be reported to the Client or Clients Agent immediately. This shall be confirmed in writing following the incident.

Any person who contracts an Occupational Disease will need to be reported to the Compensation Commissioner as an occupational disease where their work is to monitor and in contact with others. Such details are provided in the Compensation for Injuries and Diseases Act (COIDA).

Failure to comply with emergency provisions will be considered a serious offence, and the operation or project may be stopped if deemed inadequate for the work at the time of assessment or site inspection.

## **5.8 PERSONAL PROTECTIVE EQUIPMENT (PPE) AND CLOTHING**

The PC is to provide PPE to all employees free of charge.

The wearing of the identified SANS approved PPE at all times is non-negotiable.

- Hard hats;
- Protective footwear;
- Overalls fitted with reflective strips that ensure worker visibility.
- Eye protection (if required)
- Hearing protection;
- Reflective jackets for Supervisors (no bibs);
- Respiratory protection (minimum of FFP2);
- Safety Gloves
- Safety Harnesses and
- Any other necessary PPE identified from SDS's and/or risk assessments.

## **5.9 OCCUPATIONAL HEALTH AND SAFETY SIGNAGE**

On-site H&S signage is required. Signage shall be posted up at fixed or temporary working areas, or other potential risk areas/operations. These signs shall be in accordance with the requirements of the General Safety Regulations or SANS requirements as amended. Signage is to be noted on the site drawings indicating where fixed/temporary signage is required.

- 'hard hat area' or other PPE requirements noted;
- First aid box positions (including vehicles); and
- Fire extinguishers.
- Scaffold signage.
- Assembly Area

- No Un-authorized entry.
- Hoarding.
- Access for Staff
- Safe Walkway
- Gas mask Signage

Signs shall be posted at areas of work on site indicating that a construction site is being entered and that persons should take note of H&S requirements. The Principal Contractor must ensure that members of the that need to access the hospital will not be able to gain access to the construction area. It should be noted that the hospital will be fully operational, and the construction area should be properly and securely barricaded at all times.

#### **5.10 INDUCTION OF EMPLOYEES AND VISITORS, GENERAL H&S TRAINING**

A simple, formal induction program is to be prepared which is site specific. Inductions must be carried out for all workers and visitors (including Client) to the site.

DSTi training is required to ensure workers are familiar with the risks and H&S measures of the work or tasks to be done. Any person found on site without proof of induction in the H&S File will be removed from site until the proof is supplied and, and a penalty issued per non-compliance.

#### **5.11 DECANTING**

Decanting of patients and employees:

Care should be taken to ensure that construction activities are always being separated from employees as well as patients are reallocated.

It is the responsibility of the Contractor to inform the Health Facility Management, minimum 7 Days Prior, of the required Decanting. This Decanting Agreement should be done in writing and Signed off by all the relevant Parties.

No work should be conducted when employees are decanted, all employees be removed from the area before construction activities commence.

Once the decanting is completed, area should be checked for safe for use and signed off by Maintenance Manager.

#### **6 COMMUNICATION ON SITE**

All H&S communication during the project between the Client or Clients Agent and the PC will be done in writing, including the issue and responses to non-conformances and H&S audit results.

#### **7. AUDITING**

Frequency of external auditing by the Client or Clients Agent will be conducted every 30 Days to ensure that the contractors conform to the requirements of the Construction Regulations. The site will be inspected, and the documentation audited relative to the activities and H&S plan. The CHS Officer of the PC must accompany the Client or Clients Agent, on all audits and inspections.

The PC will ensure that all their Contractors are audited at a frequency determined by the Client or Clients Agent. Audit frequency may be increased if Contractors are not performing adequately. Audit results will be acted upon, and non-conformances and penalties issued where deemed appropriate. The Client or Clients Agent may act or require further outcomes if non-compliances are noted, or unsafe acts are noted on site.

Internal audits are to include site conditions as well as ensuring H&S files are appropriate, and compliant. Comprehensive audit reports are to be made available, the format of the audit reports are to be acceptable by the Client or Clients Agent.

The audit will be adjusted from time to time relative to the activities on site. A similar process is to be used by the PC when auditing their Contractors on site. Compliance with legislative requirements and the systems provided by

the PC to manage the H&S on site will be measured. Full compliance is required. Time limits for corrective actions will be set and must be adhered to.

#### **8. SITE ACCESS POINTS AND SECURITY CONTROL**

Site access - Entry to site may only be through pre-arranged security-controlled access points.

- Works areas should be Demarcated
- Signage in Place
- Access Controlled
- All Electrical to have **LOCK OUT** Procedure in Place.
- Follow the above but not limited to the above.

#### **9. CARE OF WORKERS ON SITE (WELFARE)**

Adequate toilets, clean, safe drinking water and decent shelter must be afforded to workers at all times.

It is the responsibility of the contractor to inform and agree with the Health Facilities Management for the use of Ablution Facilities and Water.

#### **10 DISCIPLINE, ALCOHOL AND SUBSTANCE ABUSE**

All employees (management included) are to follow instructions given in the interest of H&S. Disciplinary action is to be imposed on those who do not follow such instructions or company rules or policies.

No person can work or access site if under the influence of alcohol or other substances that could impact on their own or others safety.

#### **11 WORKING AT HEIGHTS**

A practical site-specific fall protection plan and rescue plan as per CR 10 needs to be compiled by a competent person as per unit standard 229994.

Only competent persons may be allowed to work at heights.

All employees working at heights shall be in possession of working at heights certificate US 229998.

No Homemade structures or ladders will be permitted on the project.

Surroundings to be clear of rubble.

Fall protection, fall prevention, and fall rescue plans to be in place and communicated to site employees.

Ladders to be structurally sound and not broken and in accordance with GSR 13A.

Correct personal protective equipment to be used (safety harness and lanyard) to be used.

GSR (6) 6. No employer shall require or permit any person to work in an elevated position and no person shall work in an elevated position, unless such work is performed safely from a ladder or scaffolding, or from a position where such person has been made as safe as if they were working from scaffolding.

Construction regulation 10 of 2014 to be implemented when working at heights and to prevent any person from falling from heights.

#### **Trestle tables are not to be used.**

As per SANS 10085-1:2024 has to be designed by a designer.

#### **SCAFFOLDING**

A contractor using access scaffolding must ensure that the scaffolding, when in use, complies with the safety standards as specified in the SANS 10085-1:2024 and relevant regulations under section 44 of the Occupational Health and Safety Act. The following specific requirements must be adhered to:

- Level and Balanced Footing:

- Scaffolding must be level and balanced on the correct footing, including the use of base jacks, U-jacks, or mobile wheels, as specified in SANS 10085-1:2024. Regular inspections must confirm that the scaffold remains level and stable, with all footings securely in place and adjusted as necessary.
- Ledgers and Bracing:
- Scaffolding frames and standards must be secured using appropriate ledgers and bracing methods. These must be installed in accordance with the design specifications and the guidelines in SANS 10085-1:2024 to ensure full stabilisation against lateral forces.
- Platform Boarding and Edge Protection:
- All working platforms must be fully boarded and equipped with the correct edge protection, including guardrails and toe boards, as required by SANS 10085-1:2024. Platforms should be securely fastened, ensuring no gaps that could pose a fall hazard.
- Platform Load Capacity:
- Working platforms must adhere to the load classifications specified in Table 6 of SANS 10085-1:2024. Contractors must ensure that no platform is overloaded beyond its designated capacity, and that load distribution is even across the scaffold structure.
- Access Points:
- The scaffold must include proper access points, such as ladders or stairways, integrated within the scaffold structure. These access points must comply with SANS 10085-1:2024 requirements. While trap doors are optional, safe access to working platforms must be ensured.
- Securing the Scaffold:
- Scaffolding must be secured using appropriate fastening methods, such as reveal ties and fixed ties, in accordance with SANS 10085-1:2024. Where necessary, buttresses must be employed to ensure stability, particularly in high-wind areas or when the scaffold height exceeds the limits specified by the standard.
- Signage:
- Clearly visible signage must be displayed on the scaffold to indicate safe load limits, user restrictions, and other critical safety information as required by SANS 10085-1:2024. The signage should reflect the scaffold's current safety status following each inspection or modification.
- signage must be displayed to indicate if the scaffold is safe or unsafe to use.

## **CRANES**

A contractor must, in addition to compliance with the Driven Machinery Regulations, 1988 ensure that where tower cranes are used.

Employees required to perform work at heights or from fall risk position must be medically fit to perform such work, such employee's medicals must specify "Fall Risk" or "Working at heights" in the exposure section of the annexure 3 template.

**Failure to comply with the above will lead to a fine as stipulated below.**

## **12. ASBESTOS**

All asbestos work should be done in compliance with the Asbestos Abatement Regulations 2020.

The Contractor shall ensure that all asbestos work is done only by registered "Asbestos Contractor" as prescribed by the Asbestos Abatement Regulations, 2020.

All asbestos containing material removed on site will be disposed of at an accredited disposal site and disposal certificates must be obtained from the accredited disposal site and kept on file.

An AIA to be appointed in accordance with Asbestos Regulation. AIA to compile and submit Asbestos Plan of works to Department of Labour for acknowledgement.

All asbestos work may only continue after the notification for asbestos work has been submitted.

AIA will visit the site for assessment before the asbestos work commence, during and after for clearance.

On completion of asbestos removal submit the Asbestos Clearance certificate and keep it on file.

### **13 ELECTRICAL**

In addition to the requirements of the Electrical Machinery Regulations and the General Machinery Regulations, any electrical distribution board used for construction work shall be fitted with suitable earth leakage protection.

Leads must be properly and firmly connected.

Plugs and sockets shall be in good and safe condition.

All electrical apparatus, other than electrical hand tools, shall have a physical “lock out” system which will prevent any operation other than that authorized by a supervisor.

A “lock out” sign shall be displayed when the apparatus is not in use.

Method statements and safe work procedures will be required for all work involving electrical apparatus.

TRAUMA PROJECT: Ensure that main power supply and gas line in service duct to be identified and method statement to be submitted to Electrical & Mechanical Engineer for approval.

A Certificate of Compliance (COC) is to be submitted after work is completed.

### **14 INSPECTION AND HAND TOOLS**

No handmade or damaged tools may be used on site.

The Principal Contractor needs to exercise control over all contractors on site. Hand tools may only be used for its intended purpose.

A competent person must be appointed to inspect hand tools weekly.

Inspections need to be recorded on a register and each tool identified with a unique number.

#### Inspection of equipment and tools.

The following items of equipment must be regularly inspected and maintained and appropriate records kept on file.

- 1.1. First Aid dressing registers
- 1.2. Fire equipment
- 1.3. Portable electrical equipment
- 1.4. Stacking and storage inspections
- 1.5. Hazardous Chemical Substances (HCS)
- 1.6. Ladders
- 1.7. Excavations
- 1.8. Construction vehicles and mobile plant.
- 1.9. Health and Safety Representatives checklists.

**Not limited to just the above items.**

### **15 LADDERS AND LADDER WORK**

The Principal Contractor shall appoint a competent person in writing to inspect all ladders weekly and record such findings in a register.

Ladders are to extend one meter above a landing and must be secured at the top and have a secure, non-slip base.

All ladders that do not comply with Health and Safety standards are to be removed from the site immediately.

Electrical contractors to use Fiberglass ladder for non-conducting purposes.

### **16 SUBCONTRACTORS**

The PC is to ensure that every sub-contractor will comply with the health and safety specifications.

All subcontractors' health and safety files must be approved by the Principal Contractor prior to any work commencing.

Contractor and SMME s to be Audited by Principal contractor on monthly basis.

## 17 DELIVERY OF MATERIALS

The PC must reasonably manage all deliveries of material to site. Stacking and storage of materials to be properly coordinated.

The PC is to consider the neighbors and public in all its activities related to this construction work. Hospital services, namely Gas, are not to be affected by construction activities.

## 18 HOARDING

Adequate hoarding to be done to reduce dust and noise and prevent public entrance to site.

Security features must accompany the hoarding to maintain a secure environment for the existing occupants.

**No Unauthorized person signage should be installed at entrances.**

**Maintenance of Hoarding to be done at regular intervals.**

## 19 NON-CONFORMANCES

Should, at any time, the work, or part of the works, be stopped due to unsafe acts or non-compliance with the Clients OHS Spec or PCs H&S Plan; the PC shall have no claim for extension of time or any other compensation.

The following constitute examples of the types of non-conformances that will attract penalties:

<b>Minor: Penalty: R50/count</b>	<b>Medium: Penalty: R500/count and a non-conformance</b>	<b>Severe Penalty: R5000/count, a non- conformance and/or activity stoppage</b>
Non-use of PPE supplied	No certificates of fitness for workers as required	Contractors working without Health and Safety Plan approval
Non completion of registers for plant and equipment on site	No monthly OHS report at site meeting to report on	Workers transported in contravention of the OHS plan or legal requirements
Lack of H&S signage at work areas	Working without training or the appropriate H&S method statements	Invalid Letters of Good Standing
Tools and equipment identified in poor condition during inspections	Legal non-conformances identified during the previous audit and not addressed within the agreed time frame.	Fall protection harness not tied off / not worn
		Any breach of legal requirements

## 20 HEALTH AND SAFETY FILE

The documentation submitted and approved following the awarding of the contract will be used to form the H&S file. The H&S file is required to be laid out in a logical manner, and documentation filed within the file is to be easily accessible.

The following completed information shall be included (but not be limited to) as part of the index:

- The Site-Specific Health and Safety Specification. (from Client)
- The H&S Plan and the approval by Client;
- Appointment by Client;
- Mandatory agreement with Client;
- Construction work Annexure and confirmation letter from DOL.
- H&S specifications issued;
- Record of Competencies (CVs) and appointments;

- Training Records;
- Method statements;
- Risk assessments;
- Safe work procedures;
- Emergency and injury management;
- Safety data sheets
- Medical surveillance records;
- Registers; and
- Employee records (who is on site)

**ANNEXURE A**

**CONTRACTORS MONTHLY HEALTH AND SAFETY REPORT**  
(To be submitted by the end of the first week of each month and be available with each audit)

CONTRACT NUMBER:		PROJECT NAME:	CONTRACT DETAILS:
1	<b>GENERAL ACTIVITIES FOR THE MONTH</b>  (detail each area of work)		
2	<b>NUMBER OF WORKERS</b> (Permanent and local, contractors)		
3	<b>TRAINING DONE</b> (supplier, no of people, type)		
4	<b>INCIDENTS / ACCIDENT</b> (list number and details, attach reports)		
6	<b>NON-CONFORMANCES</b> (closed out or active)		
7	<b>CONTRACTORS (list, approval status)</b>		
8	<b>AUDITS COMPLETED (internal and external)</b>		
9	<b>CRITICAL ISSUES</b>		
10	<b>GENERAL</b>		

Health and Safety Officer: \_\_\_\_\_ Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Construction Manager: \_\_\_\_\_ Signature: \_\_\_\_\_ Date: \_\_\_\_\_

**ANNEXURE B – REQUIREMENTS FOR THE SAFETY PLAN ASSESSMENT**

The Contractor must note that the information below is pertinent to the compilation of their safety plan response to this site-specific safety specification and it would be preferred if the Safety Plan is written in the order of the assessment documented below.

No	Item	Notes
1	<b>Project Directory</b>	Please state details of Project Client, Project Manager / Principal Agent, Safety Agent, Consulting Engineer, etc. (Name, address, contact details).
2	<b>Contractors Directory</b>	Please indicate if you will be using Contractors on this project, if yes, include their details, trade, and FEM details.
3	<b>Other Parties Directory</b>	Please indicate contact details for any services applicable (electricity, water, etc.) as well as Department of Labour and Emergency Services.
4	<b>Project Safety Statement</b>	The Project Safety Statement must be included in the Safety Plan.
5	<b>Health and Safety standards for the project (OHS Act, construction regulations, basic conditions of employment, etc.)</b>	Health and Safety standards must be included in the Safety Plan.
6	<b>Project Particulars</b>	Scope of works must be included in the Safety Plan. This is critical.
7	<b>Existing environment – Structures and Surroundings, Services (Electrical, Water, Sewerage, etc.), Traffic Arrangements, Parking, Access to Site, Storage of Plant and Materials</b>	Please include these items in the plan. The items must be Site Specific, the location of services and services that will be affected must be mentioned.
8	<b>Management Structure for safety on the Project</b>	A structured organogram with names of the responsible people must be included.
9	<b>Appointed Persons, Supervision</b>	The required appointments must be identified. A list of the appointed persons must be included in the Safety Plan.
10	<b>Security Procedures</b>	Please indicate if a security company will be appointed and include the contact information in the Safety Plan.
11	<b>Registers list and inspection frequency</b>	A list of the Inspection Registers that will be on file must be included in the Safety Plan.
12	<b>Design Co-ordination</b>	Please indicate your procedure for implementation of design changes by designer on the project, and the procedures for liaison and implementation of temporary works design on the project.
13	<b>Contractor Co-ordination</b>	Mention must be made of how Contractors will be coordinated on site to ensure that they work together and not adversely affected health and safety.
14	<b>Housekeeping, stacking and storage</b>	Housekeeping policies and procedures must be included in the Safety Plan.

No	Item	Notes
15	<b>Waste Disposal Arrangements</b>	Waste disposal arrangements procedures must be included in the Safety Plan.
16	<b>Noise and dust control</b>	Please indicate if any noisy operations (more than 85 decibels) will be carried out and what measures will be used to reduce noise exposure to workforce.
17	<b>Training Requirements</b>	Training requirements must be identified and recorded.
18	<b>Plant and Equipment</b>	A list of plant and equipment to be used on site must be included in the Safety Plan.
19	<b>Safety Monitoring Arrangements</b>	The name, contact details and SACPCMP registration status of the Safety Officer must be included in the Safety Plan. State how often the Safety officer will be on site (note safety specification requirement in section 1.7).
20	<b>Information for Contractors</b>	State how information will be given to Contractors on site.
21	<b>Consultation/communication arrangements with Employees</b>	State how information will be given to employees e.g., notice board.
22	<b>Selection of Contractors Procedures</b>	Principal contractor must state what health and safety procedures they will use to assess the competence and resources of their contractors on site.
23	<b>Activities with risk to Health and Safety (Risk Assessment)</b>	A Baseline Risk Assessment must be included in the Safety Plan; it must address the Risks identified in the Safety Specification as well as the risk of any other hazards that the Principal Contractor is aware of that are relevant to the site.
24	<b>Hazardous Substances</b>	Must be listed in the Safety Plan and addressed in the Risk Assessment.
25	<b>First Aid and Medical Procedures</b>	Please indicate name of first aider, position of first aid box, location of nearest medical facility and emergency numbers.
26	<b>Fire and Emergency Procedures</b>	List of emergency telephone numbers must be drawn up and included in the Safety Plan. The position of Fire Extinguishers, Assembly Point location, fire drill frequencies, numbers of fire marshals, etc.
27	<b>Accident and Incident Reporting and investigation</b>	State the Accident and Incident Reporting and investigation procedures of your company.
28	<b>Welfare and Site Facilities</b>	Elaborate on toilets and eating areas, water provision, how will workers be protected during wet weather conditions etc.
29	<b>Site Rules</b>	The Site Rules must be included in the Safety Plan.
30	<b>Personal Protective Equipment</b>	The necessity must be identified by Risk Assessments.
31	<b>Health &amp; Safety File arrangements</b>	Please indicate arrangements for the return of the Health and Safety File to the safety agent at the end of the project.

No	Item	Notes
32	<b>Method Statements/Safe System of Works</b>	A list of Method Statements/Safe System of Works must be included in Safety Plan for all High-risk activities
33	<b>Permits and wayleaves</b>	List of activities that Principal Contractor anticipates will require permits and wayleaves (including those stated in the safety specification) to be included.
34	<b>Fall Prevention and Protection Plan and Fall Rescue Plan</b>	A copy of the Fall Prevention and Protection Plan, fall rescue plan and fall risk assessment must be included in the Safety Plan.
35	<b>Demolition method statement</b>	A copy of the Demolition Method Statement must be included in the Safety Plan.
36	<b>Confined spaces</b>	The Principal Contractors' procedures for managing access, egress and work in confined spaces must be specified in the Safety Plan. Includes permit procedures, air monitoring, PPE, etc.
37	<b>Safety Representatives and Safety Committees</b>	When a project has more than 20 employees a designated employee must be chosen by the labourers to represent them. A safety committee must be established if 2 or more safety representatives are appointed. Please note Safety Specification requirements regarding this section (section 2.12).
38	<b>Have the significant hazards from the safety specification been addressed?</b>	See section 1.9 of the Specifications and ensure practical measures have been detailed in the safety plan.
39	<b>Safety File - Safety Policies in File and Signed by 16(1) CEO.</b>	Safety Policies must be signed and explained to employees.
40	<b>Safety File - A copy of the valid Letter of Good standing from FEM / Workman's Compensation must be on file.</b>	A copy of the valid Letter of Good standing from FEM / Workman's Compensation must be on file.
41	<b>Safety File - Signed copy of the 37.2 Mandatary Agreement</b>	A 37.2 Mandatary Agreement needs to be signed between the Client and the Principal Contractor.
42	<b>Safety File - Appointment letter from Client (as well as 5.1.K)</b>	The Client must appoint the Principal Contractor in writing.
43	<b>Safety File – Notification / Permit</b>	A copy of the Annexure 2 Notification (and proof of submission) to Department of Labour must be available. This can be in the form of a Department stamp, email, or copy of Construction Work Permit.

#### **ANNEXURE C – LEGAL APPOINTMENTS**

The contractor shall make the following appointments, as required:

Chief Executive Officer (OSH Act 16(1))
Contract Director/Manager (OSH Act 16(2))
Construction Manager (CR 8(1))
Construction Supervisor (CR 8(7))
Assistant Construction Supervisor (CR 8(8))
Construction Safety Officer (CR 8(5))
Safety Representative (where > 20 employees on site)
Temporary work Designer (CR 12(1))
Temporary work Supervisor (CR12(2))
Construction risk assessor (CR 9(1))
Excavation Supervisor (CR13(1)(a))
Demolition Supervisor (CR14(1))
Scaffold Supervisor (CR16(1))
Suspended Platform Supervisor (CR17(1))
Material Hoist Inspector (CR19(8)(a))
Material Hoist Operator (CR19(6))
Bulk Mixing Plant Supervisor (CR20(1))
Bulk Mixing Plant Operator (CR20(2))
Controller of Explosive Actuated Fastening Devices Nails, Cartridges or Studs Issue and Collection (CR21(2)(g)(1))
Construction Vehicle and Mobile Plant Operator (CR23(1)(d)(i))
Controller of Temporary Electrical Installations (CR24(c))
Stacking Supervisor (CR28(a))
Fire Extinguishing Equipment Inspector (CR29(h))
Fall Protection Plan Developer (CR 10(1)(a))
Incident Investigator (OSH Act 9(2))

**SUPPLEMENTARY TECHNICAL SPECIFICATION  
FOR THE  
GENERAL MAINTENANCE AND REPAIRS  
OF  
MEDICAL GAS AND ASSOCIATED EQUIPMENT**

**SS 1. GENERAL**

This specification is for the repair and fixed term maintenance of Medical Gas and Associated equipment installations at various hospitals and health facilities listed in paragraph SS 3. of the CLUSTER THREE (3) – BCM AND ADM DISTRICTS.

This specification shall be read in conjunction with the Service Information which will include the Standard Specifications for the General Maintenance and Repairs to Electrical and Mechanical Installations, Standard Technical Specifications that may be applicable, the Supplementary Specification, the Operating and Maintenance Manuals (where applicable) and the Maintenance Control Plan, as well as the, General Conditions of Tender and all Schedules and Drawings forming part of the Tender.

Where specifications and/or drawings are at variance this Supplementary Specification will have preference over both the Standard Specifications and the Drawings.

Maintenance and servicing shall be carried out strictly as stated in the service schedules and after each service a copy of the service schedule duly completed and signed shall be submitted to the responsible Service Manager.

**SS 2. EQUIPMENT INSTALLATIONS**

The Medical Gas equipment installations, listed in the Bills of Quantities, shall be maintained and repaired as part of this contract.

**SS 3. SCOPE OF WORK**

This specification is for the repair, maintenance and proper functioning of Medical Gas and Associated equipment, for the duration of the Contract period, as detailed in the Scope of Works (C3.1).

The repair and maintenance phases shall run in parallel as specified in GM 2.4. The equipment to be repaired and maintained is listed under the Inventories of Equipment in Annexure A.

The maintenance work (Minor and Major Services) required on the equipment listed in the Inventory of the attached Annexure A, will be as per the pricing of the Schedule 2 Price List, but subject to the scheduling of the final Maintenance Control Plan as per paragraph GM 3.3. All work must comply to the minimum requirements set by the Standard Specifications for the General Maintenance and Repairs to Electrical and Mechanical Installations, and this Supplementary Technical Specification for the Medical Gas and Associated equipment installations

The repair work will be as per the Schedule 3 Price List, but subject to work being approved from the Repair Schedule as per GM 2.6. Due to limited funds and as specified in paragraph GM 2.8, some of the repair work may be stretched over two or more financial years. The repair work for the first financial year will commence only after the Repair Schedule has been

accepted and the relevant repairs approved by the Service Manager. The Contractor will be issued with a written instruction (Task Order as per GM 2.4) to proceed with the specified work.

#### **SS 4. INSPECTION OF THE SITE**

Due to the large number of and area over which the Health Facilities covered by this Contract is spread, it is the Contractor's own choice if he/she wants to inspect the sites prior to tendering to ascertain the condition of the equipment, or rely solely on the information provided as part of the Tender Documentation and single site tender briefing meeting. No further claims due to non-compliance with this requirement shall be entertained.

#### **SS 5. STATUTORY AND REGULATORY REQUIREMENTS**

The latest edition, including all amendments up to the date of tender, of the specifications, publications and codes of practice listed in the Standard Specification for Medical GAS and Associated equipment Installations shall be read in conjunction with this specification and shall be deemed to form part thereof.

All equipment that is subject to regular statutory inspections shall be prepared for statutory inspections and tests only when the validity of the existing certificates has expired. This work will form part of the maintenance phase of the contract.

#### **SS 6. GENERAL REQUIREMENTS FOR REPAIR AND MAINTENANCE CONTRACTS**

Whenever reference is made in the specifications to repairs and/or repair phase it shall mean the repairs required to the installation to bring the installation up to a standard, as described in the Standard Specifications for the General Maintenance and Repairs to Electrical and Mechanical Installations. In general, the repair work shall commence only after the Functional Condition Assessment Report has been approved and the quantities verified.

Maintenance work must be completed according to the approved Maintenance Control Plan. (See GM 3.3). Repair work can only commence once the Service Manager has approved it (See GM 2.8), or a breakdown Task Order has been issued by the Call Centre. Critical repairs may be carried out immediately with the approval of the Service Manager, but will be priced as per the guidelines of GM 2.8

#### **SS 7. ROUTINE SERVICING AND MAINTENANCE WORK**

Maintenance of the Medical Gas and Associated equipment is articulated in section 5 of the tender document

#### **SS 8. TRAINING OF THE DEPARTMENT'S MAINTENANCE STAFF**

It is required of this contract that the Contractor arrange for the theoretical and practical training of at least three maintenance personnel employed by the Department at each Health Facility specified in the Supplementary Specification. The Contractor shall ensure that the training is carried out by persons well qualified for the various tasks and shall call upon the services of experts from the various component manufacturers for assistance if need be.

The Contractor shall ensure that his own maintenance personnel are sufficiently qualified for the duties required.

Maintenance staff must receive enough instructions to ensure that they are fully conversant with the equipment concerned, and so that they can understand what the impact of their actions (or lack thereof) will be on the equipment. This training of the Health Facility's Employees shall

be for a minimum duration of 40 hours, which shall include, but not necessarily be limited to, instruction on the operation and maintenance of the items mentioned in One/three/six monthly inspections.

The training should be aligned to the general tasks contained in the Inspection and Servicing Guideline for the Medical Gas and equipment Installations and Operation and Maintenance Manuals.

**SS 9. COMPETENT PERSON ON SITE**

It is not a condition of contract that a Competent Person must be full time on site. Payment reductions will however be imposed if repairs are not carried out within the time limitations specified in Paragraph GM 7. Tenderers are therefore advised to evaluate the additional expense required for a competent person on site to ensure quick response against the possibilities of payment reductions, before submitting a tender.

**SS 10. CLASSIFICATION OF BREAKDOWNS**

The classification of breakdowns specific to Medical Gas and equipment shall be as follows in line with the requirements of GM 7:

<b>PRIORITY</b>	<b>DESCRIPTION</b>	<b>RESPONSE</b>
P1	Emergency (Life Threatening)	Immediate response from the time of logging a call and the emergency to be resolved (at least temporarily) within 8 hours
P2	Urgent	Immediate response from the time of logging a call and to be resolved within 12 hours
P3	Planned Maintenance Repairs	Scheduled Maintenance is to be scheduled and performed within 3 business days of the scheduled date
P4	Emergency Facility Repairs	7 Days planning and execution subject to supply chain regulations

**SS 11. PENALTIES**

Penalties applicable to this specification will be as per the criteria specified in Section X17 of the Secondary Options Clauses of the Contract.

## SS 12. STANDARD SPECIFICATIONS

### SS 12.1 GENERAL STANDARD SPECIFICATIONS, REGULATIONS AND CODES

The latest edition, including all amendments up to date of tender of the following specifications, publications and codes of practice shall be read in conjunction with this specification and shall be deemed to form part thereof

- a) SANS 7396-1 (2009) Medical gas pipeline systems Part 1: Pipeline systems for compressed medical gases and vacuum
- b) SANS 7396-2 (2008) Medical gas pipeline systems Part 2: Anaesthetic gas Scavenging disposal systems
- c) SANS 1453 (2011) Copper tubes for medical gas and vacuum services
- d) SANS 1409 (2008) Outlet sockets and probes for medical (gas and vacuum) services used in hospitals
- e) SANS 10140 (2003) Identification colour marking
- f) SANS 1091 National Colour Standard
- g) SANS 10224 Section 6. Master medical gas alarm system

#### Manufacturers' specifications, codes of practice and installation instructions

All equipment and materials shall be installed, serviced and repaired strictly in accordance with the manufacturers' specifications, instructions and codes of practice.

#### Municipal regulations, laws and by-laws

All municipal regulations, laws, by-laws and special requirements of the Local Authority shall be adhered to unless otherwise specified.

## SS 13. OPERATING AND MAINTENANCE MANUALS

The Contractor shall be responsible for the compilation of an inventory list and operating and maintenance manuals and system data sheets.

This shall be done in accordance with Standard Specification.

All information shall be recorded and reproduced in electronic format as well as supplying the Department with three sets of hard copies.

Over and above what is specified in Additional Specification SB: Operating and Maintenance Manuals, the operating and maintenance manual to be compiled shall be structured to include at least the following:

- (a) System description

Complete description and the working of the equipment.

- (b) Commissioning data

Complete commissioning, test and inspection data of equipment.

- (c) Operating data

- (i) Equipment running checklist and frequency of servicing required;
  - (ii) Safety precautions to be implemented;
  - (iii) Manual and automatic operation;
- (d) Mechanical equipment
- (i) Description of all major items with the make, model number, names, addresses and telephone numbers of the suppliers, manufacturers or their agents;
  - (ii) Design capacities of all equipment, including selection parameters, selection curves, capacity tables, etc;
  - (iii) Manufacturer's brochures and pamphlets;
  - (iv) Schedule of spares with part numbers recommended to be held as stock.
- (e) Maintenance instructions
- (i) Schedule of maintenance particulars, frequency of services and replacements;
  - (ii) Trouble-shooting guide;
  - (iii) Part numbers of all replacement items and spares;
  - (iv) Capacity curves of pumps, fans and compressors, etc;
  - (v) Serial numbers of all items of equipment.
- (f) Electrical equipment
- (i) Schedule of equipment, indicating manufacturer, type, model number, capacity and addresses and telephone numbers of suppliers;
  - (ii) Maintenance instructions;
  - (iii) Manufacturer's brochures and pamphlets;
  - (iv) Complete as-built circuit diagrams and diagrammatic representation of interconnections of all electrical equipment.
- (g) Instrumentation and control
- (i) Description of each control system;
  - (ii) Schedule of control equipment, indicating manufacturer, type, model number, capacity and addresses and telephone numbers of suppliers;
  - (iii) Maintenance instructions;
  - (iv) Manufacturer's brochures and pamphlets.
- (h) Drawings
- (i) Paper prints of all as-built mechanical and electrical drawings;
  - (ii) Wiring diagrams of each individual control panel shall be put inside the panel, and a set provided to the maintenance supervisor.

#### **SS 14. TRAINING OF THE DEPARTMENTS OPERATING STAFF FOR THE OPERATION OF THE INSTALLATION AND EQUIPMENT**

In addition to the requirements of Standard Specification, the Contractor shall allow and provide for training of the Medical Gas installations to the operators as specified and set out in this specification. The objective of this training will be to ensure that the following be achieved:

- (a) High standard of operator skills;
- (b) High equipment operating efficiencies to reduce operating costs;

- (c) Reduce the maintenance cost of the equipment to an acceptable level, and maintain the cost at this level in so far as it is affected by the operating conditions;
- (d) Prevent maloperation of the equipment.

The training course to be utilised for the evaluation of the medical gas operating staff shall include at least the following:

- (a) Equipment and component recognition.
- (b) How to operate the equipment, including the following:
  - (i) Starting the equipment;
  - (ii) Manual and automatic controlling;
  - (iii) Shut-down of equipment for short periods;
  - (iv) Cleaning of equipment;
  - (v) Normal shut-down.
- (c) Emergency procedures to be followed in the case of power failure, water shortage, etc.
- (d) Safety precautions to be followed and implemented.
- (e) The identification, reporting and recording of faults and operation of equipment.
- (f) The logging of equipment operation, readings and settings.

#### **SS 15. TESTS AND INSPECTIONS ON COMPLETION OF REPAIR WORK**

Except where otherwise provided in the Contract, the Contractor shall provide all labour, materials, power, fuel, accessories and properly calibrated and certified instruments necessary for carrying out such tests. The Contractor shall make arrangements for such tests, and he shall give at least 72 hours written notice to the Engineer before commencing the test.

In the event of the equipment not passing the test, the Employer shall be at liberty to deduct from the Contract amount all reasonable expenses incurred by the Employer or the Engineer attending the repeated test.

Whenever any equipment is operated for testing or adjusting as provided for above, the Contractor shall operate the entire system for as long a period as may be required to prove satisfactory performance at all times in the occupied space served by that system for up to twenty-four hours a day continuously until the system is handed over.

The Contractor shall provide all labour and supervision required for such operation and the Department may assign operating personnel as observers, but such observation time shall not be counted as instruction time.

After completing the installation or system, all equipment shall be tested, adjusted and readjusted until it operates to the satisfaction and approval of the Engineer.

The Contractor shall submit certificates of tests carried out to prove the efficiency of all equipment, as well as certificates to be obtained from all relevant authorities and statutory bodies, etc.

The Contractor shall only utilise Departmental approved inspection authorities for all inspections and tests to be conducted. This will be done and approved in writing between the relevant parties.

## **SS 16. COMMISSIONING AND RE-COMMISSIONING OF EQUIPMENT**

### **SS 16.1 GENERAL**

On completion of the repair work and/or the installation of new equipment the equipment shall be put into operation after all tests and adjustments have been carried out to the satisfaction of the Engineer. Where new equipment is installed, the Contractor shall run and operate the equipment for a period of time as specified by the Engineer and train the staff of the User Client to operate and maintain the system.

Logging of the operation of the installations shall commence immediately upon start-up.

The Contractor shall submit a full commissioning report.

### **SS 16.2 RE-COMMISSIONING OF EQUIPMENT**

On completion of the inspections and tests of major repairs the Contractor shall re-commission the equipment. This operation shall be done strictly in accordance with the manufacturer's specification and shall be witnessed by the Engineer. The operation shall include but not be limited to the following:

- (a) All required pre-commissioning mechanical checks
  - (i) Check all connections.
  - (ii) Check all moving points.
  - (iii) Check all seals.
  - (iv) Reinstall all covers and doors and check that they are properly secured.
  - (v) Check and record that all lubrication to equipment and components has been done in accordance with manufacturer's specification.
  
- (b) All required pre-commissioning electrical checks
  - (i) Check all wiring connections for tightness and repair any hot connections.
  - (ii) Check that all electrical equipment has been properly reconnected in accordance with the manufacturer's specification.
  - (iii) Perform and record all required electrical insulation tests on equipment.
  - (iv) Check and test all controls without livening up electrical equipment.
  - (v) Check all motor-driven equipment for correct rotational directions.
  - (vi) Check and test the operation of all indication and warning lights.
  - (vii) Check, set, record and readjust all equipment control and set points in accordance with manufacturer's specifications.
  - (viii) Run all motor-driven equipment for a period to ensure free movement and correct operation, feed pumps only to be operated for a short interval to check rotation.
  
- (c) Commissioning of equipment

On completion of the pre-commissioning checks the Contractor shall proceed with the commissioning of the equipment. This shall be done strictly in accordance with the manufacturer's specification and shall include but not be limited to the following:

- (i) During the commissioning process all level and warning system checks are to be performed on the water-level control system where applicable.
- (ii) During load conditions the equipment shall be readjusted and finally switched to automatic operation on completion of all automatic control functions for correct operation where applicable.

The Contractor shall visit, inspect, test and readjust the installation during the 30-day period following the re-commissioning to ensure the correct functioning of the equipment and its associated equipment.

## **SS 17. GUARANTEE OF INSTALLATION AND EQUIPMENT**

The Contractor shall provide guarantees obtained from the manufacturer(s) and/or supplier(s) to the effect that each piece of new equipment, supplied and installed under the repair contract, complies with the required performance and will function as part of the complete system.

All new equipment including the completely new installations and the systems as a whole shall be guaranteed for a period of 12 (twelve) months commencing on the day of issue of a certificate of completion for repair work of the installation.

## **SS 18. REPAIR WORK TO INSTALLATIONS, SYSTEMS AND EQUIPMENT**

### **SS 18.1 GENERAL**

During the repair and maintenance contract all the systems, installations and equipment shall be repaired as specified in the Particular Specification. This repair work shall include but not be limited to the specified Particular Specification details.

All repair work shall be executed with approved materials and equipment suitable to the systems and/or installations they serve. The said repair work shall be executed in accordance with the relevant codes of practice, standards, regulations, municipal laws and by-laws, manufacturer's specifications and codes of practice and all additional and particular specifications included in this document.

The repair work items are listed in tabular form in the Particular Specification with all relevant details such as capacity, size, manufacturer, model number, etc.

All repair work shall be executed within the specified durations as listed in the Appendix to Tender. All new equipment, materials and systems shall be furnished with a written guarantee of a defects liability period of 12 months from date of issue of a certificate of completion for the repair work. These guarantees shall be furnished in favour of the Department of Health. On completion of the required and specified repair work the systems, installations and equipment shall be commissioned and handed over to the satisfaction of the Engineer.

## **SS 19. MAINTENANCE TO INSTALLATIONS AND EQUIPMENT**

### **SS 19.1 GENERAL**

Quarterly maintenance responsibilities for each installation including all units and components as specified, shall commence with access to the site.

Maintenance responsibilities of completed new equipment installations shall commence upon the issue of a certificate of practical completion for repair work and shall continue for the remainder of the 36-month contract period.

This part of the Contract shall include:

- (a) Routine preventative maintenance;
- (b) Corrective maintenance, and
- (c) Breakdown maintenance,

All new equipment, components and materials supplied and installed under the maintenance contract shall be furnished with a prescribed manufacturer's guarantee.

The maintenance work and items are to be categorised by the Contractor for each maintenance activity under the following headings:

- a) Vacuum pumps and Air Compressors
- b) Vacuum Receivers
- c) Gas Alarm Panels
- d) Oxygen System
- e) Medical Air System
- f) Nitrous Oxide
- g) Scavenge

The Contractor shall be remunerated monthly, based on his performance, for maintaining the complete installation in a perfect functional condition.

## **SS 20. DEFINITION AND QUALIFICATION OF ACTIONS**

### Daily maintenance actions

Daily actions are the responsibility of the User Client. These are to be performed by the responsible of the hospital

- (a) Operating checks
  - (i) Check if there is power and all electrical connections are intact.
  - (ii) Check all equipment is at its designated position.
  - (iii) Check if there is water on site.
  - (iv) Check operation of all doors, hatches, lids and they are closed.
  - (v) Check operations of mechanical moving parts are covered for safety purposes.

These daily checks shall be logged at the facility, i.e., by the maintenance supervisor.

### Quarterly maintenance actions

Quarterly maintenance actions are the responsibility of the Contractor, and they are listed in section 5a of this document.

### Biannual maintenance actions

Biannual maintenance actions are the responsibility of the Contractor, and they are listed in section 5b of this document.

### Annual maintenance actions

Annual maintenance actions are the responsibility of the Contractor, and they are listed in section 5c of this document.

**MEDICAL GAS SYSTEM**

Note:

Three Monthly inspections must be conducted by the service provider.

Three Monthly inspections will include weekly and monthly inspection tasks.

Results and findings must be entered in a logbook and signed by the relevant operator/maintainer.

The tasks listed are for a generic service regime. Where this Task List included below does not include manufacturer's servicing specifications, the Original Equipment Manufacturer's servicing specifications must be added, as all services are to be carried out in accordance with the manufacture's specifications.

UNIT LOCATION		MAKE OF UNIT	
MODEL No.		SERIAL NUMBER	

ITEM	DESCRIPTION	CHECK	READING	COMMENT/RECOMMENDED REMEDIAL ACTION
1	Test the following items for high and low pressure			
1.1	Oxygen			
1.2	Nitrogen			
1.3	Nitrous Oxide			
1.4	Carbon Dioxide			
1.5	Medical Air			
1.6	Vacuum			
2	Check if alarm indicators for the following items are operational			
2.1	Oxygen			
2.2	Nitrogen			
2.3	Nitrous Oxide			
2.4	Carbon Dioxide			
2.5	Medical Air			
2.6	Vacuum			
3.1	Check all pressure gauges on the main lines			
3.2	Check all regulators			
3.4	Check pig tails for leaks			
3.5	Inspect general condition of manifold and pipe reticulation.			
3.6	Check shuttle block function			
3.7	Test non return valves			

ITEM	DESCRIPTION	CHECK	READING	COMMENT/RECOMMENDED REMEDIAL ACTION
3.8	Check bull nose nuts and stems			
3.9	Check and reset contact gauges			
3.10	Check wall outlet sockets			
3.11	Check cylinder support rail (mid-rail) and chains			
3.12	Clean and dry plant room and equipment			
	<b>VACUUM PUMPS &amp; COMPRESSORS</b>			
4.1	Check oil levels			
4.2	Check oil filter			
4.3	Check oil condition			
4.4	Check wear on vanes			
4.5	Check bearing lubrication			
4.6	Check inlet filter(s)			
4.7	Check for excessive noise			
4.8	Check for excessive vibration			
4.9	Drain condensate in receivers			
4.10	Check operation of safety valve			
4.11	Check nuts, bolts, fittings, etc.			
4.12	Exhaust drip leg			
4.12	Check pressure gauges on receiver			
5	<b>ELECTRICAL INSTALLATION</b> <ol style="list-style-type: none"> <li>Check all electrical terminations are tight.</li> <li>Check all terminal boxes are watertight</li> <li>Check all equipment is bonded to the earthing system.</li> <li>Check all protection devices are installed and operating</li> <li>Check control panel pilot lights</li> </ol>			

Notes:

1. Normal service components are to be included as part of the routine service.
2. Faulty equipment must be reported, and recommendations made for remedial action (see schedules below).
3. Where electrical equipment is perceived to be faulty this must be reported (see schedules below).
4. Should components of the installation no longer comply with the latest regulations this must be noted. (see schedules below)

**MEDICAL VACUUM PUMPS AND COMPRESSORS SERVICING**

Note:

Major service to include all minor service tasks (e.g. daily/ weekly/ monthly/ three monthly etc.) in Major or annual service tasks.

The following is a generic service regime. All services are to be carried out in accordance with manufacturer's servicing specification where this Task list included below does not include manufacture's servicing specifications.

All services shall be undertaken and signed off by registered person.

UNIT LOCATION		MAKE OF UNIT	
MODEL No.		SERIAL NUMBER	

ITEM	DESCRIPTION	CHECK	READING	COMMENT/RECOMMENDED REMEDIAL ACTION
1	Check and refill oil			
2	Check V – belts and retention			
3	Check low oil level switch function.			
4	Check filter cartridges. (Replace if expired)			
5	Check and test dryer and after cooler. a. Dew point is correct – green b. Auto drain is functioning correctly c. After cooler fan is working d. Cooling fins or clean and clear of obstructions.			
6	Inspect and reset pressure switches			
7	Inspect alarm and control panels			
8	Drain accumulated oil in exhaust			
9	Drain condensation in receivers			
10	Test run all equipment			
11	Clean and dry plant room and equipment			
12	Inspect anti vibration mountings			
14	<b>ELECTRICAL INSTALLATION</b> a. Check all electrical terminations are tight. b. Check all terminal boxes are watertight c. Check all equipment is bonded to the earthing system. d. Check all protection devices are installed and operating			
15	<b>TRAINING</b> a. Train client operators in general operation, daily maintenance and correct set points of the plant.
