2.10 Sign the original tender. Eskom will hold the signatory named as the person duly authorised to sign the tender on behalf of the tenderer liable for the tender.

For E-Tendering, sign the electronic tender. Eskom will hold the signatory named as the person duly authorised to sign the tender on behalf of the tenderer, liable for the tender.

2.11 Submit the original tender and the copy in paper format as separate packages/envelopes marking them as "ORIGINAL" and "COPY". If an additional electronic copy was required to be submitted, it must be packaged separately and marked "ELECTRONIC COPY".

Each separate package shall, on its outside, state the relevant Eskom address given as the address at which tenders must be submitted, the Invitation to Tender number stated in the Tender Data, the tenderer's name, physical address for tenderer, email address and contact telephone number for the duly authorized representative who signed the tender on tenderer's behalf.

A tenderer that agrees to extend the validity of its tender will not be required or permitted to modify its tender. A tenderer that does not agree to extend the validity of its tender will be excluded from further consideration. Tenderers will be requested to extend the validity of their tenders until a contract(s) have been concluded with one or more tenderers. A request that a tenderer extend the validity of its tender is not a representation that the tender is an acceptable tender or that Eskom will seek to negotiate or conclude a contract with the tenderer. If the validity of tenders expires before contracts have been concluded, the procurement process is deemed to have concluded without an award.

Confidentiality and copyright of documents 2.13 Treat as confidential all matters that arise in connection with the procurement. Use and copy the documents provided by Eskom only for the purpose of preparing and submitting a tender in response to this Invitation to Tender.

Standardised specifications and other publications 2.14 Obtain and familiarise themselves with, if required for the purposes of submitting a tender, the latest revision of standardised specifications and/or other documents that have been incorporated by reference into the *Invitation to Tender documents* by reference.

- Basic Compliance** 3.9 Determine before detailed evaluation, whether each tender received meets the *basic compliance* requirements stated in the Invitation to Tender. A tenderer's failure to comply with the *basic compliance* requirements will render the tender non-responsive.
- A tenderer's failure to have submitted an original tender in paper form or to have submitted a copy of the original, also in paper form, will result in its disqualification from further evaluation. Tenderers will not be permitted to provide a copy of the original tender after the *closing date and time for tender submission*.
- For E-Tendering, a tenderer's failure to have submitted/uploaded tender documents will render the tender non-responsive.
- Mandatory tender returnables** 3.10 A tender that does not contain the mandatory documents or information stipulated in the Invitation to Tender by the required *closing date and time for tender submission* will be disqualified from further evaluation.
- Pre-Qualification Criteria** 3.11 Tenderers, who comply with the basic compliance and mandatory tender returnables, are required to comply with Pre-Qualification criteria, if stipulated in the Invitation to Tender. It must be noted that Eskom will not measure a criterion twice in the different evaluation phases, as this is regarded as 'double dipping'.
- Designated materials and thresholds** 3.12 Tenderers are also required to submit information on designated material and thresholds no later than contract award. If this information is not completed and submitted as indicated in the Invitation to Tender, your tender will not be considered for contract award.
- Functionality requirements** 3.13 If functionality is a criterion, tenderers will be scored against the functionality criteria and will be required meet the minimum threshold stated in the Tender Data to proceed to further evaluation.
- Financial analysis (if applicable)** 3.14 Eskom has to determine the risk of doing business with a supplier who may pose a financial risk to Eskom in the execution of the contract. During evaluation of a tenderer's financial statements, Eskom will attempt to identify mitigating factors or requirements for the tenderer to meet, if such factors/requirements exist in the tender's context. However, should suitable mitigating factors not exist in the tender's context or should mitigating factors exist but be insufficient or if the risk is considered to be too high or should the tenderer not agree with the mitigating factors, the tenderer will not be considered for award.
- Evaluation of Price** 3.15 Evaluate the Price in accordance with the criteria/requirements in the Tender Data. Factors such as CPA, FOREX, commodity exposure, unconditional discounts, technical adjustment, PV and forecasted rates of invoicing are taken into account when determining the evaluation Price.
- Arithmetical errors** 3.16 Check responsive tenders for arithmetical errors. If there is a discrepancy between an amount in figures and the amount in words, the amount in words shall prevail.
- Check the highest-ranked tenders for the following errors or omissions: -
- (a) the misplacement of the decimal point in any unit rate; or
 - (b) omissions in completing the pricing schedule or bill of quantities, or
 - (c) arithmetical errors in line-item totals that are the result of the incorrect multiplication of a unit rate and a quantity in a bill of quantities or schedule of prices; or
 - (d) arithmetical errors that are the result of the incorrect addition of the prices.

- (e) the use by the tenderer of less than 4 decimal place on the rate of exchange
- (f) the use of tenderer using an incorrect rate of exchange

Eskom will notify the tenderer of all arithmetical errors or omissions it has identified and will request the tenderer to either confirm the prices as tendered or to accept the corrected prices.

Where the tenderer elects to confirm the prices as tendered; Eskom will correct the error as follows: -

- (a) If a bill of quantities or pricing schedule applies and there is an error in the line-item total that is the result of an error in multiplying the unit rate and the quantity, the line-item total shall prevail, and the rate shall be corrected.
- (b) Where there is a misplacement of the decimal point in the unit rate, the line-item total as quoted shall prevail, and the unit rate shall be corrected.
- (c) Where there is an error in the total of the prices that is the result either of other corrections required by the checking process or in the tenderer's addition of prices, the total of the prices shall prevail, and the tenderer shall be asked to revise the selected item prices (and their rates if a bill of quantities applies) to result in the tendered total of the prices.

Eskom will reject the tender if the tenderer does not correct and/or does not accept the correction of errors as required above.

Evaluation of B-BBEE	3.17	Score the B-BBEE level as stated on the CSD report or as per certificate/affidavit provided. If the B-BBEE level is a pre-qualification criterion; then the proof of the B-BBEE level (certificate/CSD number/CSD report) must be provided at the <i>closing date and time for tender submission</i> ; or the tender will be disqualified. If sub-contracting to designated groups pre-qualification criteria are utilized (selected/mandatory) in terms of the PPPFA Regulation, then Eskom will apply the PPPFA requirements for sub-contractors' B-BBEE status and the sub-contractors' CSD number or B-BBEE certificate/affidavit will need to be provided at the <i>closing date and time for tender submission</i> . Should the information/documents provided indicate that the level is in dispute (fraudulent/ expired) then the tender will be disqualified. However, for the purposes of PPPFA point allocation: if no B-BBEE certificate/affidavit is provided at Tender <i>closing date and time for tender submission</i> , or the information/documents provided are fraudulent or have expired; then the tenderer will not be disqualified (if otherwise deemed to be responsive and acceptable in all other aspects) but will score zero under PPPFA point allocation.
Evaluation of Specific Goals	3.18	Score the Specific Goals with reference to the supporting documentation in the tender. If a tenderer fails to meet Specific Goals and/or to submit the required proof/supporting documentation by <i>closing date and time of tender submission</i> , the tenderer will not be disqualified if otherwise evaluated as acceptable in all other criteria; however, the tenderer will score zero points for Specific Goals within the 90/10 or 80/20 allocation of points.
Ranking of tenders	3.19	According to the PPPFA, Eskom will add the score for Pricing and the Specific Goals together and rank the suppliers from the highest to the lowest.
Objective criteria	3.20	A contract may be awarded to a tenderer that did not score the highest points only in accordance with Section 2(1) (f) of the Preferential Procurement Policy Framework Act, 2000. If Eskom intends to apply Objective Criteria envisaged in section 2(1)(f), Eskom must stipulate the Objective Criteria in the Invitation to Tender. Functionality and any element of the B-BBEE scorecard may not be used as Objective Criteria.

Where reverse e-auction will be utilised, this will be indicated in the respective Invitation to Tender and the reverse e-auction supporting documents will be issued in the Invitation to Tender.
