The strategic focus areas include creating capabilities to optimize performance, provide desired solutions for customers whilst transforming the financial services industry.

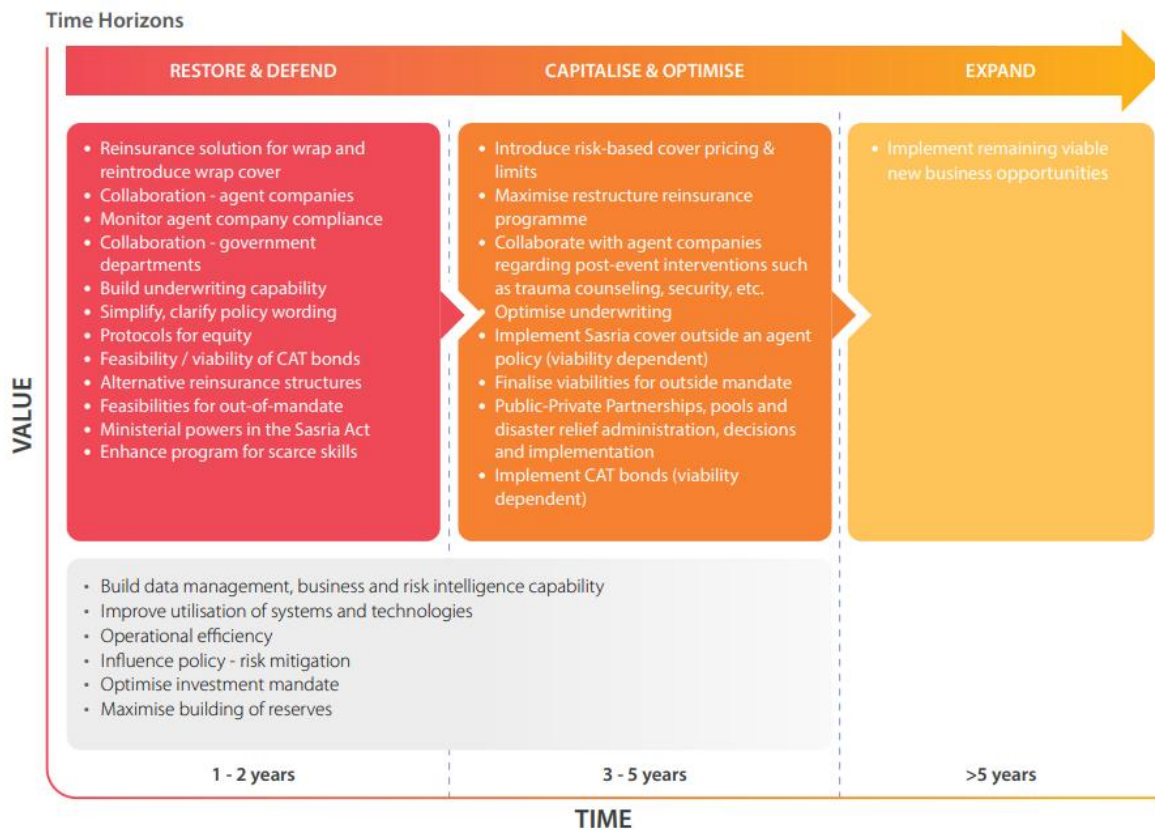

Figure 1 – Sasria Strategy Time Horizons

Due to Sasria’s unique mandate and business model, Sasria relies heavily on intermediaries within the distribution channel to underwrite insurance risk. As a result, the company has limited direct interaction with policyholders, which poses challenges in influencing and managing the full end-to-end customer experience and building processes that deliver on efficiencies.

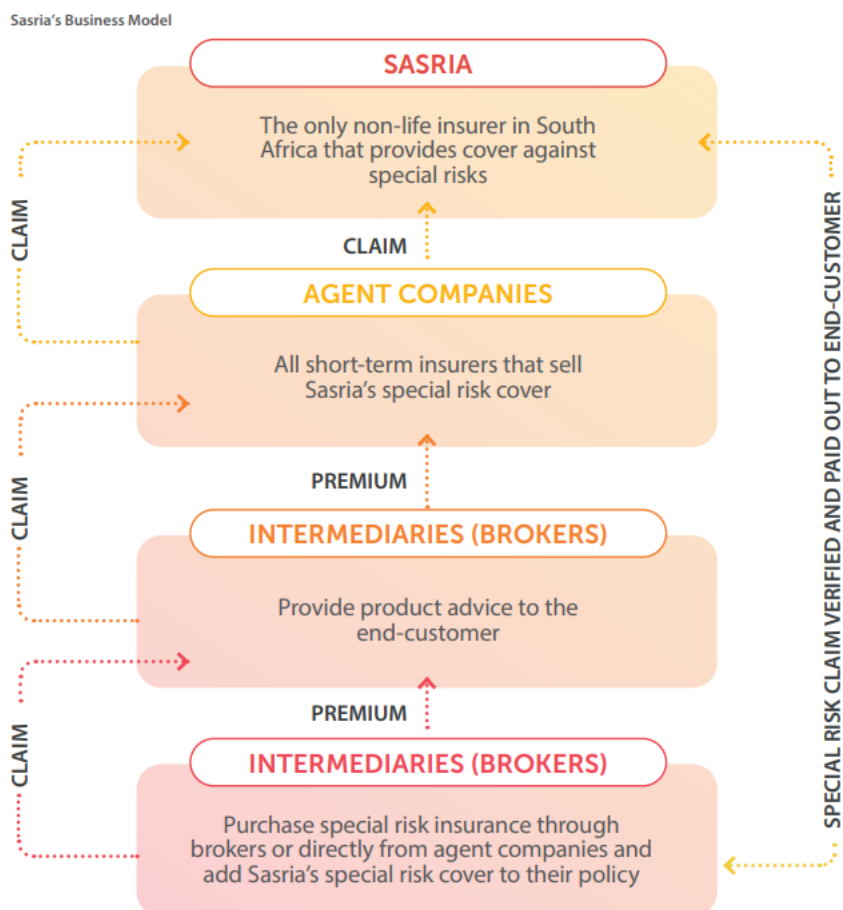

Figure 2 – Sasria Business Model

BUSINESS TRANSFORMATION

To realise Sasria's Vision 2029 strategic objectives and strengthen its ability to deliver on its mandate, the organisation is embarking on a comprehensive Business Transformation journey focused on reshaping its operating model for greater effectiveness, efficiency, and sustainability.

Sasria also initiated the Organisational Design initiative to assess roles and evaluate organisational capabilities. The outputs of these initiatives reinforced the need to embark on a business transformation journey for improved process execution and consistency that will ultimately contribute to the Sasria strategy.

Customer Experience forms an integral enabler of this transformation, ensuring that redesigned processes, structures, and behaviours translate into consistent and credible service delivery which echoes Sasria's aspired brand purpose and promise.
