

Technical Adjudication Matrix (Total 100 Points)

Category	Criteria	Weight	Weight Breakdown	Scoring Methodology	Evaluation Guide
1. Maintenance & Support	Local Service Footprint	30	30	High (30 pts): Full-time technicians based in KZN, stock of critical spares held locally.	Supplier must prove a service centre within 100km of Durban for 24-hour response. Detailed service and maintenance plan including 24/7 technical call-out support
				Medium (20 pts): Technicians based in other Provinces with 24-hour travel commitment.	
				Low (0 pts): No local presence; parts must be imported	
2. Technical Experience	Track Record & References	30	30	4 Projects Listed (Verified): 30 Points (Full Score)	<p>Technical Track Record: Bidders must provide a list of projects completed within the last five years involving the supply and installation of air dryers and air hoses across any sector.</p> <p>Submission Template: The list must include, at a minimum: Company Name, Project Description, Contract Value, Project Duration (Start and End dates), and the Contact Person's Name, Designation, and verified Contact Details (Email and Phone).</p> <p>Important Notice on References: It is the sole responsibility of the Bidder to ensure that all contact information provided in the experience template is current, valid, and accurate. The evaluation team will conduct a maximum of three (3) attempts to contact a listed referee. Non-responsiveness by the referral or unreachable contact details will result in the bidder receiving zero (0) marks for that specific reference</p>
				2-3 Projects Listed (Verified): 20 Points	
				1 Projects Listed (Verified): 10 Points	
				No Verified Projects: 0 Points	
3. Project Lead Time	Delivery Lead Time	40	40	< 4 Months	Exceptional
			30	4 – 6 Months	Competitive
			15	7 – 8 Months	Average
			0	> 8 Months	Poor
