5 BACKGROUND

- 5.1 Limpopo province faces profound socio-economic challenges, including high poverty and unemployment, particularly among youth, women, and persons with disabilities.
- 5.2 Poverty and unemployment in Limpopo are driven by interconnected structural challenges that require an integrated development solution, rather than isolated interventions.
- 5.3 High Youth Unemployment, particularly those Not in Employment, Education, or Training (NEET), struggle to transition into the labour market due to limited opportunities and a lack of entrepreneurship support.
- 5.4 Aspiring entrepreneurs cannot access capital from formal financial institutions due to collateral and credit history requirements, stifling small business growth.
- 5.5 Producers (farmers, artisans), particularly in rural areas, lack connections to reliable markets, resulting in low prices and an inability to scale and sustain their businesses.
- 5.6 Training programmes are often misaligned with the skills demand of key growth sectors like agro-processing and construction, leaving graduates without relevant, practical skills.
- 5.7 Women and persons with disabilities face systemic barriers, including discrimination and limited access to resources and inclusive infrastructure, excluding them from economic participation.
- 5.8 The SLF is the provincial government's integrated response to address these challenges and create opportunities, enabling communities to participate

meaningfully in the economy and aligning with national and provincial frameworks for inclusive growth, job creation, and rural development.
