## Background

King V represents the fifth iteration of South Africa's Code on Corporate Governance, issued by the Institute of Directors in South Africa (IoDSA) and effective for financial years beginning on or after 1 January 2026. The Code supersedes King IV and introduces a refined outcomes-based governance model supported by the King V Foundational Concepts, Code, Glossary, and Disclosure Framework.

Eskom seeks to build governance capability across multiple levels of the organisation, including Boards, Executive Management and governance practitioners, in response to increasing regulatory expectations and internal governance improvement priorities.

The organization intends to appoint a suitably qualified and experienced service provider to design, customize, and deliver a role-differentiated King V training programme structured into two distinct training streams: Board, EXCO and Senior Management stream as well as the Governance Professionals stream.
