## **EXECUTIVE SUMMARY**

This report is to give an insight on the Technical Evaluation Criteria Strategy and the Tender Evaluation Team members. It also discusses the mandatory and quantitative criteria's to be followed during Technical Evaluation from the Tender returnable.

### **CONTROLLED DISCLOSURE**

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

**CONTROLLED DISCLOSURE**

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

## **1. INTRODUCTION**

Matla Power Station intends to engage a service provider to perform WTP Sludge sump Refurbishment. The scope of work, repairs of the A frames, pond, diametric duct, beams, screen-washing bay etc.

This document is aimed at settling the standard technical evaluation criteria that will be used when evaluating the tender submissions for Sludge Sump Repairs 12months contract.

## **2. SUPPORTING CLAUSES**

### **2.1 SCOPE**

MEA – 05705 WTP Sludge Sump refurbishment.

#### **2.1.1 Purpose**

The purpose of this tender technical evaluation strategy is to define the Mandatory Evaluation Criteria, Qualitative Evaluation Criteria and Technical Evaluation Team (TET) members responsible for tender technical evaluation. The technical evaluation strategy serves as basis for tender technical evaluation process.

#### **2.1.2 Applicability**

This document applies to Matla Power Station Engineering Department.

## **2.2 NORMATIVE/INFORMATIVE REFERENCES**

Parties using this document shall apply the most recent edition of the documents listed in the following paragraphs.

### **2.2.1 Normative**

Parties using this document shall apply the most recent edition of the documents listed in the following paragraphs.

- [1] 240-48929482: Tender Technical Evaluation Procedure
- [2] 32-1034 – Eskom procurement and supply chain management
- [3] 240-53716712 Tender Technical Evaluation Results form template
- [4] 240-53716726 Tender Technical Evaluation Scoring Form Template

### **2.2.2 Informative**

- [5] MEA – 05705 WTP Sludge Sump refurbishment

## **2.3 DEFINITIONS**

### **2.3.1 Classification**

- a. **Confidential:** the classification given to information that may be used by malicious/opposing/hostile elements to **harm** the objectives and functions of Eskom Holdings Limited.

### **CONTROLLED DISCLOSURE**

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system

## 2.4 ABBREVIATIONS

Abbreviation	Description
B-BBEE	Broad- Based Black Economic Empowerment
ECSA	Engineering Council of South Africa
SD&L	Supplier Development and Localisation
SHE	Safety , Health & Environmental
WTP	Water Treatment Plant

## 2.5 ROLES AND RESPONSIBILITIES

As per 240-48929482: Tender Technical Evaluation Procedure

## 2.6 PROCESS FOR MONITORING

Technical Evaluators will ensure process is monitored by utilising the Technical Evaluation Strategy.

## 2.7 RELATED/SUPPORTING DOCUMENTS

Evaluation Procedure and the scope of work.

## 3. TENDER TECHNICAL EVALUATION REPORT

### 3.1 TECHNICAL EVALUATION STRATEGY

The tenders will be evaluated in accordance with the Technical Evaluation Criteria outlined below. The following criteria will be assessed for all tenders received.

1. Mandatory Technical Requirements
2. Functionality – Qualitative technical Requirements
3. Price and B-BBEE Preference Points
4. Objective Criteria (SHE & SD&L requirements)

The technical criteria will comprise the Mandatory Technical Requirements and Qualitative Technical Requirements, corresponding to steps one and two of the evaluation process. The scope of the tender is primarily focused on the Civil and Mechanical Discipline, and as such, the technical criteria will be limited to Civil and Mechanical -related aspects only. To be considered from a technical standpoint, a tender must achieve a minimum weighted final score of 75%.

### CONTROLLED DISCLOSURE

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

### 3.1.1 Mandatory Technical Requirements

Gatekeepers identified in the tender document will be a “must meet” criteria identified in the tabular questionnaire from Contractor (s) tender will be assessed based upon questionnaire seeking YES or No response from the Contractor (s) with no point scores or weighed average assigned to the response.

Response of No against any criteria will be elimination of the Contractors (s) tender for further consideration or short listing for detailed technical evaluation.

The Qualitative Technical Evaluation Criteria is shown in Table 2 below. This criterion comprises of the Mechanical and Civil SOW. The mechanical SOW comprises of 35% of the total combined scoring and the Civil SOW comprises of 65% of the total combined scoring.

The mandatory requirement is the CIDB with Minimum of 5CE

<b>Mandatory Technical Criteria Description</b>	<b>Reference to Technical Specification / Tender Returnable</b>	<b>Motivation for use of Criteria</b>
Minimum CIDB Level <b>5CE</b>	Provide proof of Valid CIDB Grading	The work is classified as construction work as per the construction regulations.

#### **CONTROLLED DISCLOSURE**

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

### **3.1.2 Functionality – Qualitative Technical Requirements**

The functionality assessment constitutes the second phase of the evaluation process, with a total weighting of 100%. The tenderer must achieve a minimum score of 75% across the technical criteria to be considered qualified. These criteria are divided into two section Civil and Mechanical sub-criteria, each assigned a specific weighting as detailed in the table below.

**Table 2: Qualitative Technical Criteria Weightings**

**MECHANICAL SECTION (35%)**

Section	KPI- Criteria Evaluation Indicator	Minimum Criteria Evaluation Requirements	Source	%	Qualitative Evaluation Scoring			
					0%	40%	80%	100%
<b>Technical Requirements</b>								
<b>Mechanical Scope of Work Technical Evaluation</b>								
	Company Profile Document/ Individual Profile	Company Experiences: (25%)	Sources		0	2	4	5
<b>Technical Requirements</b>	<b>Company's traceable evidence in the form of Purchase Order, Completion Certificates or Handover Certificate.</b>	The list of Purchase orders, completion certificate or Handover certificate for pipeline and pumping systems/ station design and installation.	Company to provide evidence of previous similar mechanical work completed which includes pipeline and pumping systems/ station design and installation in the form of Purchase orders,	80%	No information submitted or incomplete documents, = 0%	1x task for pipeline and pumping systems/ station design and installations with signed completion certificates or handover certificates = 40%	2x tasks for pipeline work and pumping systems/ station with signed completion certificates or handover certificates = 80%	Plus 3 tasks for pipeline work and pumping systems/ station with signed completion certificates or handover certificates = 100%

**CONTROLLED DISCLOSURE**

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

**4. TET MEMBERS.**

All members of the Technical Evaluation Team (TET) shall be formally designated in writing by the appropriate Manager(s), who will assess and confirm the competence of these individuals to carry out the responsibilities of a technical evaluator.

TET 1	
TET 2	

**4.1 TENDER TECHNICAL RETURNABLES RECEIVED**

N/A

**4.2 TECHNICAL CLARIFICATIONS**

**3.3.1 Summarise all clarification requests**

N/A

**3.3.2 Discuss / Summarise tender clarification responses**

N/A

**3.3.3 Include all Clarification Session Minutes in Appendix, if applicable**

N/A

**4.3 TECHNICAL EVALAUTION RESULTS**

**4.3.1 Summary of evaluation results**

This will be populated upon tender returnable

**4.3.2 Interpretation of evaluation results**

This will be populated upon tender returnable

**4.3.2.1 Mandatory Evaluation Results**

This will be populated upon tender returnable

**4.3.2.2 Qualitative Evaluation Results**

This will be populated upon tender returnable

**4.4 TECHNICAL INPUTS FOR PRICE ADJUSTMENTS**

N/A

**CONTROLLED DISCLOSURE**

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

#### 4.5 CONCLUSIONS

The Technical Evaluation Criteria will be used as the final document to technically score the tenderer. The final result will be combined from the two evaluators and averaged to conclude the results.

#### 5. AUTHORISATION

This document has been seen and accepted by:

Name	Designation
System Engineer	Civil Engineer
System Engineer	Mechanical Engineer
Line Manager	Engineering
Middle Manager	Engineering

#### CONTROLLED DISCLOSURE

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

**6. REVISIONS**

Date	Rev.	Compiler	Remarks
2025/07/24	0	System Engineer	Final Document For Technical Evaluation Criteria
2026/01/26	1	System Engineer	Revised Final Document For Technical Evaluation Criteria

**7. DEVELOPMENT TEAM**

The following people were involved in the development of this document:

- System Engineer 1
- System Engineer 2

**8. ACKNOWLEDGEMENTS**

None

**CONTROLLED DISCLOSURE**
