The Waste Management Licence [WML] is valid for a period of 10 years which is set to expire in July 2027 encompasses clauses that the municipality must adhere to.

- 2.3 The WML details the required clauses that a municipality must ensure its compliance against. Its requirements ensures that a municipality acts at the best interest of the environment as well as the interested and affected partly whilst providing a basis for the Department of Economic Development, Tourism and Environmental Affairs [EDTEA] as the regulatory authority to monitor the management of the site.
- 2.4 The WML is categorised into general, construction and operational items that require attention accordingly. The licence further requires studies, audits, surveys to be undertaken at different frequencies for the site to be deemed compliant. The Service Provider will be required to ensure that items outside of operational management are complied with.
- 2.5 In addition to the above, the municipality intends to explore the renewal of its WML with the regulatory authority to allow for landfilling over its western land area of the current working face; which is an area previously used for disposal **[Annexure "B" – Part B]**. The proposed Licence Renewal onto the western area emanates as a measure to contain the ecological footprint of landfilling in one place. This proposal is detailed as option 2 in the 2021 Decommissioning Plan **[Annexure "C" – Part B]** and is projected to extend the landfills lifespan by approximately 6 years based on 700kg/m³ compaction and 3% growth.

DATA SHEET 6: CERTIFICATE OF INDEPENDENT BID DETERMINATION

1. This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *per se* prohibited meaning that it cannot be justified under any grounds.
3. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and

5. In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.
