Dear Sir/Madam

Request for Enquiry Number	E3136DXKZNOU
Description / Project Title	The provision of waste removal services for the Central East Cluster (KwaZulu Natal and Free State Operating Units) on an as and when required basis for a period of thirty-six (36) months.
Tender Questions Closing Date	20 July 2026

1.	I have a query with the rate sheet under the transport rates per km. Most waste contractors quote transport per bin and under section 2 the rate sheet requests transport rate per km. The closer one is to the Eskom site the rate per km will increase and the Eskom site the furthest away will have a lower km rate. Most probably the successful bidder will convert the transport per km to a fix transport rate per bin if successful. There is also no space to put the total km used to calculate the rate per km. I would really like this to be considered as it is easier for Eskom to compare apples with apples.	The transport rates listed in Section 2 of the BOQ for the Distribution FS and KZN regions (first part of the Transport Rates section) will be measured in kilometres (Km). Transport rates are required for the following services: • General Waste • Hazardous Waste • E-Waste • Trolley Bins • Transport of 210L Drums • LDV • 4x4 Vehicles	16 July 2026
