Where there is an obviously gross misplacement of the decimal point in the unit rate, the line item total as quoted and the unit rate shall be corrected. b) Where there is an error in the total of the prices either as a result of other corrections required by this checking process or in the tenderer's addition of prices, the total of the prices shall be corrected. c) Where the unit rates are imbalanced, the tenderer shall adjust such rates by increasing or decreasing them and selected others while retaining the total of the prices derived after any other corrections made under (a) and (b) above. Where there is an omission of a line item, no correction is possible and the offer may be declared non-responsive. Should the original price not be retained after balancing the rate, the submission will be rendered non-responsive. Declare as non-responsive and reject any offer from a tenderer who elects not to accept the proposed correction of the errors, omissions or imbalanced rates. During testing of tender responsiveness, Clause C.3.8 of the CIDB tender conditions will be applicable. The tender will be evaluated in terms of the Preferential Procurement Policy Framework Act (PPPFA, Act 5 of 2000). If it is unclear whether the 90/10 or 80/20 system applied, the preference point system to be applied will be based on the lowest acceptable tender. 1. 80/20 preference point system for acquisition of goods and services for Rand value equal to or above R2 000 and up to R50 million The following formula will be used to calculate the points out of 80 for price: $P_s = 80(1-(P_t-P_m)/P_m)$ Where: P_s is the points scored for price of tender under consideration. P_t is the price of the tender under consideration; and P_m is the price of the lowest acceptable tender. 2. 90/10 preference point system for acquisition of goods and services for Rand value above R50 million The following formula will be used to calculate the points out of 90 for price: $P_s = 90(1-(P_t-P_m)/P_m)$ Where: P_s is the points scored for price of tender under consideration. P_t is the price of the tender under consideration; and P_m is the price of the lowest acceptable tender.

SANRAL will score specific goals out of 10 or 20. If a bidder fails to meet the Specific goals as outlined on the table below and to submit proof, the bidder will score zero (0) out of 10 or 20. SANRAL – EXPLANATION OF CONSULTANT TENDER EVALUATION SCORING - RRM

This document does not look at the tenderer's eligibility, compliance and responsive requirements, but merely explains the scoring methodology that is applied to tenders deemed compliant and responsive.

The criterion for scoring is made up as follows:

Evaluation Criteria	Points
Technical Knowledge	30
Management Knowledge	15
Quality System	10
Past Performance	15
Workplan Appropriateness	30
TOTAL	100

Dependent on the degree of complexity of the type of project and service requirements, the threshold is either a Category 1, 2 or 3, which equates to 70%, 80% or 85% respectively. This is decided before the tender is let and is indicated in the tender document. Normally a Routine Road Maintenance (RRM) tender is a Category 1 type project, therefore 70%.

For breakdown of individual components:

Technical Knowledge (30):

The tenderer, for each key position identified, may supply the 3 (three) most recent relevant project experience to that which the tender is let for. This is done in the form of returnable schedules, such as the one below:

For technical knowledge three (3) areas are evaluated:

- 3) Project Type Relevance
- 3) Period Relevance
- 3) Position Held

- 1) Project Type Relevance

The relevance of the project type is evaluated against a pre-determined key person specific matrix. For a comprehensive list of matrixes please refer to the Consultant Technical Submission Spreadsheet. Below an example of RRM matrix:

The score allocated (out of a maximum 5) from the matrix per project relevancy experience and fifteen (15) points overall for project type relevancy can be scored.

2) Period Relevance

For each project experience listed, a point is allocated for the time lapse between the experience gained and the tender closing date. If the experience is within 10 years of the tender closing a point of five (5) is allocated. If the experience is beyond 10 years but less than 15 years, half points, or two five (2,5) points are allocated. If the experience is longer than 15 years ago, zero (0) points are allocated.

If the experience is less than six months, a pro-rata point is allocated to that of the point that would have been achieved as the experience is of a limited duration.

A maximum of five (5) points per project period relevancy experience and fifteen (15) points overall for project type relevancy can be scored.

3) Position Held

The relevance of the position held during the technical experience against the position that is tendered for is evaluated:

A maximum score out of 5 (five) is available per project relevancy technical experience and fifteen (15) points overall for position held relevancy can be scored.

Therefore, a total of 45 (forty-five) points can be scored for each key person listed in the tender document. The total for all key persons is totaled and this score is then converted back down into a score out of a maximum of 30 (thirty) for technical knowledge.

Management Knowledge (15):

The same returnable schedules as for Technical Knowledge is used to evaluate the Managerial Knowledge.

For management knowledge up to two (2) areas are evaluated:

2) Client

2) Position Held (Only for managerial positions, e.g. PL; CE; RE)

1) Client

The tender is allocated points for the client the work experience was done for:

A maximum score out of 5 (five) is available per project relevancy experience and fifteen (15) points overall for client relevancy can be scored.

2) Position Held (Only for managerial positions)

This is only used for certain key positions that are expected to perform a managerial function during the contract. The relevance of the position held during the managerial experience against the position that is tendered for is evaluated. For RRM contracts only CE position is considered:

A maximum score out of 5 (five) is available per project relevancy managerial experience and fifteen (15) points overall for position held relevancy can be scored.

Therefore, a total of 30 (thirty) points can be scored for each key position listed in the tender document. The total for all key positions are totaled and this score is then converted back down into a score out of 15 (fifteen) for managerial experience.

Quality System (10):

The quality assurance system offered by the tenderer is evaluated as follows:

For full ISO certification, a tenderer is awarded ten (10) points, for a quality assurance system that has been submitted to ISO for certification, but not yet received, seven (7) points are allocated. If the tenderer's quality assurance system is purely an in-house system, five (5) points are allocated.

The total number of points allocated are tallied and a score out of ten (10) is awarded.

Past Performance (15):

Past Performance reports must be submitted by the tenderer for any 3 (three) completed projects of **similar** scope in the last 10 (ten) years by the tenderer.

Past Performance Rating will be allocated on any one/or a combination of the following Past Performance reports:

1. For a completed project: ANNEX 1 - PSP PERFORMANCE REPORT

A maximum of 5 (five) points per project and 15 (fifteen) points overall can be scored for past performance experience.

CIDB rating	Poor $x < -0.1$	Adequate $-0.1 \leq x < 0.9$	Good $0.9 \leq x < 1.8$	Excellent $x \geq 1.8$
SANRAL score	1	3	4	5

2. For a project report with an extended completion date: ANNEX 4 - PSP PERFORMANCE

A maximum of 5 (five) points per project and 15 (fifteen) points overall can be scored for past performance experience.

CIDB rating	Poor $x < -0.1$	Adequate $-0.1 \leq x < 0.9$	Good $0.9 \leq x < 1.8$	Excellent $x \geq 1.8$
SANRAL score	1	3	4	5

3. Reference letters

A maximum of 5 (five) points per project and 15 (fifteen) points overall can be scored for reference letters as per table below.

Rating	Poor	Adequate	Good	Excellent
SANRAL score	1	3	4	5
Mark the relevant box with "x"				

4. Sworn Affidavit

For tenderers with less than 3 (three) completed projects of **similar** scope, a sworn affidavit (refer to Returnable Schedule B6) shall be submitted stating that the tenderer has in the last 10 (ten) years only completed either 0 (zero), 1 (one) or 2 (two) projects, and as a result cannot submit the required 3 (three) past performance project reports. In the event of a submitted sworn affidavit, the following will apply:

- Submission of 0 (zero) past performance project reports, a rating of "*Adequate*" or 2 (two) points will be applied for all 3 (three) projects.
- Submission of 1 (one) past performance project reports, the rating as submitted will be applied, and a rating of "*Adequate*" or 2 (two) points will be applied for each of the other 2 (two) projects.
- Submission of 2 (two) past performance project reports, the ratings as submitted will be applied, and a rating of "*Adequate*" or 2 (two) points will be applied for the other 1 (one) project.

Workplan Appropriateness (30)

The tender must supply proposed hours that certain identified items in the Pricing Schedule will require. This is used to gauge the tenderer's knowledge and understanding of the amount of work required to perform the scope of work and is compared to the hours tendered by all the other tenderer's hours to represent industry norm.

Each tender submits their hours calculated from various items in the Pricing Schedule:

The Workplan Appropriateness hours are entered on a spreadsheet to calculate the 80th percentile.

The following steps are followed:

Calculate the mean of all compliant, responsive tenders.

- 1) Determine 50% above and below the mean.
- 2) Re-calculate the mean excluding any outliers identified above.
- 3) Determine the 80% percentile based on the tenderers of Sum Normalised Hours with Outliers Removed.
- 4) Allocate points (to all responsive tenders including outliers) out of 30 based on the percentage (%) difference between the tenderers normalised hours and the 80th percentile hours. Any negative values will score 0 (zero) points.
- 5) The formula used to calculate the points allocated to each compliant responsive tenderer is:

= Workplan Appropriateness points (30)-100*((1-Tenderers hours/80 Percentile hours)*Points drop per % above or below 80 percentile(0,5))

Conclusion:

The various scores for the 5 (five) criteria are added together to establish the final score for the tenderer and whether the tender makes the required threshold allocated to this project.
