The following clarification is needed in response to queries and questions raised by Tenderers.

Questions in **BLUE** and Answers in **BLACK**

Number	Clarification / Discussion
Q1	Eskom has provided a hardware specification under the E2024NTSCA Pricing Schedule, under tab 5.1.1.1 Equipment. Is that a mandatory hardware list or can the respondents provide hardware that will work with their proposed SIEM solution?
A1	The respondents should provide hardware that will work with their proposed SIEM solution. The hardware descriptions can be read as what is on the pricing schedule OR equivalent. Where an equivalent exists, it needs to be priced on the corresponding line without amending the pricing schedule.
Q2	Following on the question above, did Eskom produce the hardware specification with a specific SIEM technology or OEM in mind?
A2	No, there was no specific SIEM technology or OEM in mind.
