RE: INVITATION TO TENDER (E3047GXMPARN)

Dear Sir/ Madam

Kindly refer to the above subject.

After careful deliberation, we regret to advise that Eskom Holdings SOC Limited would like to cancel the tender for “The data acquisition system (DAS) performs all the online vibration monitoring functions on the main turbine (MT), electrical feed pumps (EFP) A&B and the steam feed pump turbine (SFPT) at Arnot Power Station for 3 years (36 months)” due to the following reason/s:

- Incorrect closing date on the National treasury website, This constitutes a material defect in the procurement process, as the error may have limited market participation and compromised the principles of fairness, transparency, and competitiveness as outlined in section 217 of the Constitution.

Eskom would like to take the opportunity to thank you for participation in the above and the project will be reissued once all internal processes have been complied with.

Yours Faithfully
