TECHNICAL CLARIFICATION – Amendment to technical requirements(E3202DXGOU)

Dear Sir/Madam

TECHNICAL CLARIFICATION ADDENDUM

Tender Reference: E3202DXGOU

Date: 21 July 2026

Dear Sir/Madam,

Invitation to Tender

Supply and Delivery of Various Medium Voltage (MV) Switch Disconnectors for a Period of Thirty-Six (36) Months on an "As and When Required" Basis

Applicable Specifications:

- TEC: 240-170000162
- TEC: 240-140125729
- TEC: 240-82158501

This addendum serves to clarify and amend the technical evaluation requirements applicable to the above-mentioned tender.

Clarification on Technical Evaluation Process:

Please be advised that **Factory Evaluations (Stage 3 of the Technical Evaluation Criteria)** will **not** be conducted as part of this tender process.

In place of factory evaluations, Eskom will conduct a **Sample Evaluation Assessment** for all tenderers who proceed to this stage of the evaluation process.

The following requirements shall apply:

1. Tenderers will be required to make available a representative sample of the proposed switch disconnecter for evaluation.
2. The date and arrangements for the sample assessment will be communicated by the Eskom Evaluation Team in due course.
3. Tenderers shall be responsible for ensuring that the required samples are readily available at their premises for assessment on the scheduled evaluation date.
4. The sample evaluation will be conducted solely to determine compliance with Eskom's technical specifications and performance requirements for MV switch disconnectors.
5. Participation in, or invitation to, the sample evaluation process does not constitute a commitment by Eskom to award a contract to any tenderer.

All other tender requirements and conditions remain unchanged.

Should you require any further clarification, please contact the assigned procurement personnel.

Yours faithfully,

Masithembe Ngcwama
