If the returnable is not fully completed, signed if required and/or received by the Procurement Practitioner within 5 working days of the request, the tenderer will be disqualified.

The 5 working days period does not apply to CIDB proof of grading. Refer to the returnable table the prescribed period for CIDB proof of grading.

Returnables required at Tender Closing date and time for evaluation: -

These returnables are required to be submitted at tender closing date and time. These returnables will not be requested by the Procurement Practitioner. A tenderer that does not submit the required returnable at stipulated deadline or submits an incomplete returnable; will not be disqualified but will score zero.

	Mandatory Technical Criteria Description	Reference to Technical Specification / Tender Returnable	Motivation for use of Criteria
1.	Proven Experience in Vibration Monitoring Systems. The bidder shall demonstrate verifiable experience in the design, engineering, installation, integration, commissioning and testing of vibration monitoring systems for large rotating machinery.	- At least one completed project of similar magnitude involving vibration monitoring of large rotating equipment (e.g. turbines, boiler feed pumps, large process pumps). - Project description, client name, plant type, scope performed, and completion date. - Experience claims submitted by bidders shall relate specifically to vibration monitoring systems applied to large rotating machinery. General electrical, control, or mechanical experience without vibration monitoring scope is not considered compliant.	The project involves replacement of an obsolete vibration monitoring system on critical rotating equipment. Contractors without proven vibration monitoring experience present an unacceptable technical and operational risk.

2.	Sector-Specific Application of Vibration Monitoring Systems. The vibration monitoring system experience required under number 1 above, shall have been executed in either a coal-fired power station or other power generation plants, or a heavy industrial environment involving large rotating machinery (e.g. petrochemical, mining, metals processing, pulp and paper)	- Reference project(s) demonstrating vibration monitoring system application within a coal fired power plant, heavy industrial environments involving large rotating machinery (e.g. petrochemical, mining, metals processing, pulp and paper). - Experience claims submitted by bidders shall relate specifically to vibration monitoring systems applied to large rotating machinery. General electrical, control, or mechanical experience without vibration monitoring scope is not considered compliant.	Experience in power generation or heavy industry ensures familiarity with operational constraints, outage execution, and criticality of rotating plant equipment.

ANNEXURE E

CONTRACT PRICE ADJUSTMENT (CPA) REQUIREMENTS FOR LOCAL GOODS AND SERVICES.

The application of contract price adjustment (CPA) to tender submissions

Note: This Section will not be applicable to Professional services contracts (See relevant section hereunder for guidelines on this).

1. Application of CPA

- CPA conditions may apply if the contractual duration is to be longer than 12 months.
- If the contractual duration will be less than or equal to 12 months, a fixed priced offer must be submitted.
- For contracts with a duration more than twelve (12) months, CPA will not be applicable for the first year. CPA will then only be applied from year two (2) onwards.
- Failure to propose contract price adjustment, or submit a CPA formula with the tender submission, will result in the pricing being considered fixed.
- Eskom will not accept Rate of Exchange adjustment to be included in any CPA formula.
- Local indices may not be used for CPA purposes for any imported component.
- There must be separate CPA formulae for local and foreign CPA. Local and foreign escalation may not be combined into one formula.

2. Tender Submissions

Note: Tenderers to take note that, if the Eskom proposed CPA breakdown is not populated, they are required to refer to the Pricing Schedule in the NEC or other Contract or standalone Pricing Schedule for Eskom's proposed CPA breakdown.

Eskom CPA Conditions/Requirements

- Tenderers are required to submit CPA that is aligned to Eskom's proposed CPA breakdown in this Tender; or Tenderers may submit an alternative CPA proposal from Eskom's CPA proposal, and this will be considered if deemed acceptable to Eskom;
- Note that for contracts exceeding a duration of 12 months if there is no CPA catered for by the tenderer; then prices will be deemed to be fixed and firm.
- A minimum of 15% of the total agreement value is to be fixed when a CPA formula is applied,
- Each CPA formula must add up to a final total of 100.
- Only official published CPA indices that are in the public domain must be used.
- No in-house indices may be used for CPA.
- There may be more than 1 CPA formula (Formula A, B, C etc) or a combination of all the cost components into 1 Formula (depending on how the pricing is to be submitted).
- If there are specific line items for Labour and Transport, individual Formulae might be used.

Note: Eskom reserves the right to negotiate CPA terms and conditions during negotiations held with tenderers.

3. BASE DATE AND BASE PRICE

- In instances of indices or other references published monthly, the Base Date is to be the month before the month in which the tender closes.
- In instances where the reference figures, e.g. market prices, are published daily or at intervals more than once a month; then the average for the month before the month in which the tender closes should be used as the Base Price.

4. CPA FOR PROFESSIONAL SERVICES

- The preferred index to be used for adjusting these agreements is the country specific CPI Headline index.
- The price adjustment factor will be effective from each contractual anniversary of the contract date. This must be the average of the country specific CPI Headline index figures published for the last twelve-month period (cycle) ending before the contract anniversary date.

PAYMENT OF FOREIGN COMMITMENTS

PART 1: The application of importation payment requirements to tender submissions.

Where foreign exchange is involved, Eskom will take measures to mitigate any exposure to foreign currency exposure or exchange rate risk.

Tenderers: -

- Who wish to submit tenders with pricing in foreign currency for imported goods/services must establish **prior** to tender close (via the Procurement Practitioner), that the foreign currency that is being priced in the submission, is an acceptable foreign currency to Eskom.
- Who are pricing for imported goods/services in a foreign currency or linking their pricing of goods to a foreign currency exchange rate, **must be the direct importers** of the goods/services. For payment purposes, Eskom will require proof of importation.
- Who import goods into stock, for delivery to various customers, including Eskom, the price quoted must be in South African Rand. In such cases, Eskom will not undertake any foreign exchange commitment or arrange forward cover.
- Who have submissions where pricing for imported goods/services in a foreign currency or linked to a foreign currency exchange rate, must ensure that their pricing indicates the foreign currency and the foreign currency values.

Tenderers should note that all domestic value-added process, i.e., costs incurred in the Republic of South Africa, for example, transport costs will only be paid in Rands.

Tenderers who have submitted tenders, which have goods/services priced, are linked to a foreign currency or exchange rate, are required to select one of the payment methods indicated below for the payment relating to those imported goods/services:

Payment of Eskom's foreign commitment in foreign currency will be made either:

Payment Method 1A:

To a nominated bank account in a foreign country in a foreign currency
(Payment will be made to the party and account nominated by the supplier
In the contract, and not to any other party).

Please note that the contracting party OR Eskom SOC Limited must be the direct importer of the goods

Documentation to be submitted with payment:

OR

Fixed ZAR Option (Payment Method 3)

This option is available to those tenderers who are the direct importers of the goods/services for which they have tendered, but do not find Payment Methods 1A, 1B or 2 and allows tenderers to be responsible for the foreign currency and exchange rate risk. If a tenderer selects this payment method, the process is as follows:

- Eskom and the successful tender will engage, on a simultaneous basis, with their respective bankers and compare the exchange rate/s obtained. This is done to ensure that any exchange rate/s used is/are market related.
- Tenderers will be required to match or better the exchange rate/s obtained by Eskom. If the tenderer's exchange rate/s is/are more expensive than the exchange rate/s indicated by Eskom, the exchange rate/s to convert the foreign values into ZAR will be the Eskom exchange rate/s.
- Once the exchange rate/s has/have been agreed by both parties, Eskom will not be liable for any further exchange rate adjustments.

From a Commercial perspective, please take note of the following:

- The foreign currency and foreign currency amount/s that Eskom is/are at risk to, need/s to be indicated in the pricing schedule submitted as part of the tender. If the pricing schedule does not allow for it, the foreign currency and foreign currency amount/s must be indicated in a covering letter.
- The exchange rate to be used in the tender submission is the exchange rate sourced from the South African Reserve Bank on the date the tender is advertised/published.
- Due to the payments being made in ZAR, but based on an agreed exchange rate, the tenderer will be required to submit proof of importation at time of payment.

Please note: Eskom will require substantiating proof of importation at the time of invoicing.

Where the supplier, previously imported goods into stock for delivery to various customers, including Eskom, the price quoted must be in South African Rand. In such cases, Eskom will not undertake any foreign exchange commitment or arrange forward cover.

Take note of the following:

Service-related payment:

When specialist skills are required in South Africa, the local supplier will source the appropriate talent from their network of specialist companies overseas. The specialist is then brought into the country (South Africa) on one of two possible methodologies.

1) Secondment

In this approach, the foreign specialist retains their employment contract with their home unit (Employer overseas) but are seconded to the local company that has a contract with Eskom to work under the direction and control of the local management. Their salaries are paid to the foreign specialist by their home country and that foreign entity then invoices the local supplier (South Africa) in foreign currency for the cost relating to such employees. The invoices would typically be in Euro or GBP, this methodology is usually for short to medium term engagements.

Documents to be attached for payment:

- Commercial invoice from the specialist company
- Local invoice (South African company making use of the specialist services)
- Passport of the specialist and valid work permit
- Activity schedule signed by the contract manager.

2) Payroll Transfer

In this approach, the employee's contract with the overseas employer will be suspended and the specialist takes up a local contract with the local company. The remuneration is then **ZAR** based, the overseas employer is unable to provide the foreign invoice because the employment with the specialist is suspended this methodology is usually favoured for long term engagement. There is no foreign commitment, and the contract will be in ZAR.

PART 2: EXCHANGE RATES

The tenderer shall use the exchange rate as at 12H00 on the date of the advertisement of the tender. The source of the exchange rates shall be the South African Reserve Bank (www.resbank.co.za) Please note that the tenderer is required to submit proof of the SARB rate/s used.

ANNEXURE G1

SBD 6.2

DECLARATION CERTIFICATE FOR LOCAL PRODUCTION AND CONTENT FOR DESIGNATED SECTORS

This Standard Bidding Document (SBD) must form part of all bids invited. It contains general information and serves as a declaration form for local content (local production and local content are used interchangeably).

Before completing this declaration, bidders must study the General Conditions, Definitions, Directives applicable in respect of Local Content as prescribed by the dtic, the South African Bureau of Standards (SABS) approved technical specification number SATS 1286:2011 (Edition 1) and the Guidance on the Calculation of Local Content together with the Local Content Declaration Templates [Annex C (Local Content Declaration: Summary Schedule), D (Imported Content Declaration: Supporting Schedule to Annex C) and E (Local Content Declaration: Supporting Schedule to Annex C)].

1. General Conditions

- 1.1. Dtic makes provision for the promotion of local production and content.
- 1.2. Dtic prescribes that in the case of designated sectors, organs of state must advertise such tenders with the specific bidding condition that only locally produced or manufactured goods, with a stipulated minimum threshold for local production and content will be considered.
- 1.3. A person awarded a contract in relation to a designated sector, may not sub-contract in such a manner that the local production and content of the overall value of the contract is reduced to below the stipulated minimum threshold.
- 1.4. The local content (LC) expressed as a percentage of the bid price must be calculated in accordance with the SABS approved technical specification number SATS 1286: 2011 as follows:

$$LC = [1 - x / y] * 100$$

Where:

x is the imported content in Rand

y is the bid price in Rand excluding value added tax (VAT)

Prices referred to in the determination of x must be converted to Rand (ZAR) by using the exchange rate published by South African Reserve Bank (SARB) at 12:00 on the date of advertisement of the bid as indicated in paragraph 4.1 below.

The SABS approved technical specification number SATS 1286:2011 is accessible on [http://www.thedti.gov.za/industrial development/ip.jsp](http://www.thedti.gov.za/industrial%20development/ip.jsp) at no cost.

- 1.5. A bid may be disqualified if this Declaration Certificate and the Annex C (Local Content Declaration: Summary Schedule) are not submitted at the stipulated deadlines.
- 2. The stipulated minimum threshold(s) for local production and content (refer to Annex A of SATS 1286:2011) for this bid is/are as follows:**

if it is unclear whether the 80/20 or 90/10 preference point system applies, an organ of state must, in the tender documents, stipulate in the case of—

- (a) an invitation for tender for income-generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system; or
 - (b) any other invitation for tender, that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system,
- then the organ of state must indicate the points allocated for specific goals for both the 90/10 and 80/20 preference point system.

Table 1: Specific goals for the tender and points claimed are indicated per the table below.

(Note to organs of state: Where either the 90/10 or 80/20 preference point system is applicable, corresponding points must also be indicated as such.

Note to tenderers: The tenderer must indicate how they claim points for each preference point system.)

The specific goals allocated points in terms of this tender	Number of points allocated (90/10 system) (To be completed by the organ of state)	Number of points allocated (80/20 system) (To be completed by the organ of state)	Number of points claimed (90/10 system) (To be completed by the tenderer)	Number of points claimed (80/20 system) (To be completed by the tenderer)
